**AGENCY:** United States Geological Survey.

**ACTION:** Notice of availability.

**SUMMARY:** In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended, the US Geological Survey (USGS) has prepared a Final Environmental Assessment for the Solar Roof Project and by this notice is announcing its availability.

**DATES:** The USGS publishes this Notice in the **Federal Register** of the availability of Environmental Assessment and Finding of No Significant Impact.

#### SUPPLEMENTARY INFORMATION:

##### Availability of Documents

Individuals wishing to receive copies of the Environmental Assessment for the Solar Roof Project should immediately contact the USGS S.O. Conte Anadromous Fish Research Center, One Migratory Way, P.O. Box 796, Turners Falls, MA 01376-0796. Copies of the EA are also available for public inspection during regular business hours at the USGS S.O. Conte Anadromous Center (see same address above).

## Background

The objective of the S.O. Conte Research Center is to provide Federal leadership in the scientific based management of national and international Atlantic Coast anadromous fish resources by conducting research programs of regional importance to provide information for restoration and rational management of northeast and mid-west United States anadromous fish. The proposed action is to replace two temporary canvas structures that are energy inefficient and do not comply with health and safety codes, with a new permanent 3,000-square-foot building. The new building would provide appropriate housing for fishery species, equipment and scientific research. Public input included requests for input and information early in the project from agencies with potential interest of jurisdiction, and from local organizations with a potential interest in the proposed project. In addition, a public meeting was held December 9, 2009 at the Conte facility. No issues or concerns were raised during that public meeting.

#### Lonza, Inc., Riverside Plant, Lonza Exclusive Synthesis Section, Custom Manufacturing Division Including On-Site Leased Workers of Lab Support, Aerotek, Job Exchange, and Synerfac; Conshohocken, PA; Notice of Affirmative Determination Regarding Application for Reconsideration

By application dated December 5, 2009, the United Steel Workers, Local 6816-18, requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers

and former workers of the subject firm. The determination was issued on November 5, 2009. The Notice of Determination will soon be published in the **Federal Register**.

The initial investigation resulted in a negative determination based on the findings that imports of Trityl Losartan did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred.

In the request for reconsideration, the petitioner provided additional information regarding customers of the subject firm.

The Department has carefully reviewed the request for reconsideration and the existing record, and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

#### Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.
