

increases in the cost to farmers renting them for pollination services. USDA and the Environmental Protection Agency (EPA), in consultation with other relevant Federal partners, are scaling up efforts to address the decline of honeybee health with a goal of ensuring the recovery of this critical subset of pollinators. NASS supports this *USDA-EPA CCD National Action Plan*, which emphasizes the importance of coordinated action to identify the extent and causal factors in honeybee and pollinator declines.

To efficiently collect critical information on the status and health of the commercial honeybee population, NASS proposes two new surveys that complement its existing Bee and Honey Inquiry (0535-0153), which targets bee keepers with 5 or more colonies. The Colony Loss Quarterly Survey will be administered quarterly to a subsample of bee keepers responding to the annual Bee and Honey Inquiry. The Colony Loss Annual Survey will be administered to bee keepers with fewer than 5 colonies; these respondents will be asked to report quarterly honeybee colony losses on an annual basis. Together, these surveys will yield the number of honeybee colonies that are comparable in methodology to the Census of Agriculture counts (which is available only every 5 years). The data collected will include state of colony residence, the commercial movement of colonies between states, newly added or replacement colonies, colony losses, and presence of colony stress factors, such as pests or parasites.

The Colony Loss Surveys are strongly encouraged by beekeepers, the National Academy of Sciences, and the USDA Office of the Inspector General. This action will provide an improved baseline, annual, and quarterly data to describe any loss or change in the number of colonies and issues and practices which may be associated with colony stress and decline.

NASS is committed to collaborating with USDA and the other departments on a unified and complementary approach to develop and support the Pollinator Health Initiative. This will allow NASS and its collaborators to address critical information needs at an

accelerated pace and guide honeybee management at a national scale.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-113) and the Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33376.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 10 minutes per response. Publicity materials and instruction sheet will account for 5 minutes of additional burden per respondent. Respondents who refuse to complete a survey will be allotted 2 minutes of burden per attempt to collect the data. NASS plans to conduct two different surveys as a part of this approval request. Once a year, NASS will contact approximately 20,000 small bee operations (fewer than 5 colonies). Approximately 3,300 operations with 5 or more bee colonies will be contacted quarterly to collect bee loss data. NASS will conduct the surveys initially using a mail and internet approach. This will be followed up with phone and personal enumeration for non-respondents. NASS will attempt to obtain an 80% response rate.

Respondents: Farmers and beekeepers.

Estimated Number of Respondents: 23,300.

Estimated Total Annual Burden on Respondents: With an estimated response rate of approximately 80%, we estimate the burden to be 7,020 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the

information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, October 15, 2014.

Foreign-Trade Zones Board

[B-45-2014]

Authorization of Production Activity, Foreign-Trade Subzone 158G, Southern Motion, Inc. (Upholstered Furniture), Pontotoc and Baldwin, MS

On June 20, 2014, the Greater Mississippi Foreign-Trade Zone, Inc., grantee of FTZ 158, submitted a notification of proposed production activity to the Foreign-Trade Zones (FTZ) Board on behalf of Southern Motion, Inc., within Subzone 158G, in Pontotoc and Baldwin, Mississippi.

The notification was processed in accordance with the regulations of the

FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (79 FR 37281-37282, 7-1-2014). The FTZ Board has determined that no further review of the activity is warranted at this time. The production activity described in the notification is authorized, subject to the FTZ Act and the FTZ Board's regulations, including Section 400.14, and the following restrictions and conditions:

1. The annual volume of foreign micro-denier suede upholstery fabric finished with a caustic soda solution that may be admitted to the subzone under nonprivileged foreign status (19 CFR 146.42) is limited to 6.0 million square yards.
2. Southern Motion, Inc., must admit all foreign upholstery fabrics other than micro-denier suede upholstery fabrics finished with a caustic soda solution to the subzone under domestic (duty-paid) status (19 CFR 146.43).
3. Southern Motion, Inc., shall submit supplemental annual report data and information for the purpose of monitoring by the FTZ Staff.
4. The authority for Southern Motion, Inc., shall remain in effect for a period of five years from the date of approval by the FTZ Board.

Dated: October 20, 2014.

Andrew McGilvray,
Executive Secretary.

Foreign-Trade Zones Board

[B-74-2014]

Foreign-Trade Zone (FTZ) 283—Jackson, TN, Notification of Proposed Production Activity, MAT Industries, LLC, (Air Compressors), Jackson, TN

MAT Industries, LLC (MAT), an operator of FTZ 283, submitted a notification of proposed production activity to the FTZ Board for its facility located in Jackson, Tennessee within FTZ 283. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on October 14, 2014.

The MAT facility is located within Site 11 of FTZ 283. The facility is used for the production of air compressors and related tanks. Pursuant to 15 CFR 400.14(b), FTZ authority would be limited to the specific foreign-status components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt MAT from customs duty payments on the foreign status components used in export production. On its domestic sales, MAT would be able to choose the duty rate during customs entry procedures that applies to air compressors and tanks (free) for the foreign status components noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components sourced from abroad include: Rubber gaskets; cardboard boxes; paper cards/manuals/labels; cloth bags; plastic tubes; ceramic nozzles; cast iron fittings/washers; zinc
