SUPPLEMENTARY INFORMATION:

Title: Peer Exchange on Corrosion Prevention and Mitigation for Highway Bridges

OMB Control Number: (if applicable).

Summary: The Federal Highway Administration (FHWA) through their stewardship and oversight role provides support to State departments of transportation and other stakeholders in implementing the Federal-aid Highway Program (FAHP). In addition to overseeing the FAHP, FHWA supports State DOTs and other stakeholders in the development and construction of highway projects, including providing technical assistance in the implementation of preservation activities to maintain and improve the condition of their bridges. The FHWA also conducts research to develop tools, methods, and procedures to advance the practice in bridge preservation.

In September 2021, Government Accountability Office (GAO) in their report *Highway Bridges: Federal Highway Administration Could Better Assist States with Information on Corrosion Practices*, GA0-21-104249 made a recommendation to FHWA to include activities in ongoing bridge preservation efforts, such as peer exchanges and case studies that focus on addressing the challenges states face with determining the circumstances under which specific corrosion practices and materials are most effective. To implement GAO's recommendation from the report, FHWA plans to conduct two regional peer exchanges. First peer exchange will include 9 States in the mid-west and north-east States which have environments with arid conditions or that experience frequent freeze/thaw cycles and use de-icing chemicals on their highway bridges, and second will include 9 States in the south-east and west States which have environments that experience freeze/thaw cycles and/or have highway bridges that are exposed to saltwater environment. These peer exchanges will focus on States' practices and materials used that mitigate bridge corrosion. Based on these shared experiences and lessons learned, FHWA will publish case studies and/or communicate the findings to States to improve their bridge preservation programs.

Respondents: State Departments of Transportation Agencies responsible for designing and maintaining highway bridges.

Estimated Average Burden per Response: The estimated average reporting burden per response is 16 hours for each State.

Estimated Total Annual Burden: The estimated total burden for 18 State respondents is 288 hours.

Public Comments Invited

You are asked to comment on any aspect of these information collections, including: (1) Whether the proposed collections are necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burdens could be minimized, including use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of these information collections.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Ch. 35, as amended; and 49 CFR 1.48.

Issued On: May 27, 2022.

Federal Transit Administration

[FTA Docket No. FTA 2022-0011]

Agency Information Collection Activity Under OMB Review: All Stations Accessibility Program

AGENCY: Federal Transit Administration, Department of Transportation (DOT).

ACTION: Emergency clearance notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for emergency approval of a proposed information collection. DOT requests that OMB authorize this collection of information on or before June 15, 2022. Upon receiving the requested six-month emergency approval by OMB, DOT will follow the normal PRA procedures to obtain extended approval for this proposed information collection. The purpose of this collection is to enable States and local government authorities that operate legacy rail fixed guideway public transportation systems to apply for grant assistance under the All Stations Accessibility Program. DOT is requesting emergency approval due to the urgency of making the associated funds available to the States and local government authorities that meet the eligibility requirements under the law. The ICR describes the nature of the information collection and their expected burdens.

DATES: Comments on this proposal for emergency review should be submitted by June 17, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 15 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. All comments received are part of the public record. Comments will generally be posted without change. Upon receiving the requested six-month emergency approval by OMB, FTA will follow the normal PRA procedures to
