agency or organization responsible for administering emergency communications. Section 90.529 of the Commission's rules provides that each state license will be granted subject to the condition that the state certifies on or before each applicable benchmark date that it is providing or prepared to provide "substantial service." Section 90.531 of the Commission's rules sets forth the band plan for the 769–775 MHz and 799–805 MHz public safety bands. This section covers channel designations for base and mobile use, narrowband segments, combined channels, channel pairing, internal guard band, and broadband. Narrowband general use channels, including the former narrowband reserve channels, and low power channels require regional planning committee concurrence and narrowband air-ground channels require state or regional planning committee concurrence.

Commission staff will use the information to assign licenses for interoperability and General Use channels, as well as renewal of State licenses. The information will also be used to determine whether prospective licensees operate in compliance with the Commission's rules. Without such information, the Commission could not accommodate State interoperability or regional planning requirements or provide for the efficient use of State frequencies. This information collection includes rules to govern the operation and licensing of 700 MHz band systems to ensure that licensees continue to fulfill their statutory responsibilities in accordance with the Communications

Act of 1934, as amended. Such information will continue to be used to verify that applicants are legally and technically qualified to hold licenses, and to determine compliance with Commission rules.

FEDERAL MARITIME COMMISSION

[Docket No. 24–01]

Notice of Filing of Amended Complaint and Assignment; Visual Comfort & Co., Complainant V. Cosco Shipping Lines Co., Ltd., Respondent

Served: February 9, 2024.

Notice is given that an amended complaint has been filed with the Federal Maritime Commission (the “Commission”) by Visual Comfort & Co. (the “Complainant”) against COSCO Shipping Lines Co., Ltd. (the “Respondent”). Complainant states that the Commission has jurisdiction over the amended complaint pursuant to 46 U.S.C. 41301 through 41309 and personal jurisdiction over Respondent as an ocean common carrier as defined in 46 CFR 520.2.

Complainant is a corporation organized under the laws of Texas with its principal place of business located in Houston, Texas, and is a shipper as defined in 46 U.S.C. 40102(23).

Complainant identifies Respondent as a Chinese global ocean carrier located in Shanghai, People’s Republic of China with an office/general agent in the United States located in Secaucus, New Jersey, and as a vessel-operating ocean common carrier as defined in 46 U.S.C. 40102(18).

Complainant alleges that Respondent violated 46 U.S.C. 41102(c) and 41104(a)(10) and 46 CFR 545.5. Complainant alleges these violations arose from assessment of demurrage, detention, per diem, and yard storage charges during periods of time in which the charges were not just or reasonable because of circumstances outside the control of the Complainant and its agents and service providers, and from the acts or omissions of the Respondent that led to the assessment of these charges.

An answer to the amended complaint must be filed with the Commission within 14 days after the date of service of the Administrative Law Judge’s Order Granting Complainant’s Motion to

Amend Complaint and Substitute Respondent, and Granting Respondent’s Motion to Dismiss.

The full text of the amended complaint can be found in the Commission’s electronic Reading Room at <https://www2.fmc.gov/readingroom/proceeding/24-01/>. This proceeding has been assigned to Administrative Law Judge Linda S. Harris Crovella. The initial decision of the presiding judge shall be issued by January 6, 2025, and the final decision of the Commission shall be issued by July 21, 2025.
