

requirements of Section 6(b) of the Act<sup>7</sup> and the rules and regulations thereunder. Specifically, the Commission finds that the proposal is consistent with Section 6(b)(5) of the Act,<sup>8</sup> in that the proposal is designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts, to remove impediments to and to perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Commission notes that, in approving proposals relating to adjustment or nullification of trades involving obvious errors, it has stated that the determination of whether an obvious error has occurred and the process for reviewing such a determination should be based on specific and objective criteria and subject to specific and objective procedures.<sup>9</sup> The Commission notes that the proposed change to Rule 1092 provides specific and objective procedures for determining whether a trade should be nullified. The purpose of the new provision is to provide that obvious and catastrophic errors related to complex orders that trade against other complex orders will be nullified. The Commission also notes that the proposed rule change, by providing that obvious and catastrophic errors related to complex orders that trade against other complex orders will be nullified, is designed to mitigate the risk to both parties to a complex order trade involving two complex orders, neither or whom, according to the Exchange, intended to end up with just one piece of the complex order.<sup>10</sup> Therefore, the Commission believes that the proposed rule change is consistent with the Act.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,<sup>11</sup> that the proposed rule change (SR-Phlx-2010-163) is hereby approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>12</sup>
