Agency Information Collection Request; 60-Day Public Comment Request**AGENCY:** Office of the Secretary, HHS.**ACTION:** Notice.

SUMMARY: In compliance with the requirement of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment.

DATES: Comments on the ICR must be received on or before July 18, 2022.

ADDRESSES: Submit your comments to Sherrette.Funn@hhs.gov or by calling (202) 795-7714.

FOR FURTHER INFORMATION CONTACT: When submitting comments or requesting information, please include the document identifier 0990-New-60D and project title for reference, to Sherrette A. Funn, email: Sherrette.Funn@hhs.gov, or call (202) 795-7714 the Reports Clearance Officer.

SUPPLEMENTARY INFORMATION: Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Title of the Collection: Title X Implementation Study.

Type of Collection: New.

OMB No. 0990-NEW-Office of Population Affairs—OASH.

Abstract: The Office of Population Affairs (OPA), U.S. Department of Health and Human Services (HHS), is requesting 3 years of approval by OMB on a new collection. The Title X Implementation Study will document how organizations funded by the Title X Service Grants program design and implement their program services. The study will document (1) how grantees

ensure access to equitable, affordable, client-centered quality family planning services; (2) the steps that Title X grantees take to provide clients from diverse communities with equitable access to affordable, high-quality, client-centered health services; (3) any pivots and/or accommodations to providing care they made in recent years, including during the COVID-19 pandemic; and (4) how they assess their impact. To carry out these objectives, the study team will rely on the following five proposed data sources: (1) A web-based survey of the 2022 cohort of Title X grantees; (2) grantee telephone interviews; (3) in-person or virtual listening visits with clinic administrators, service providers, and community outreach or partner staff at a subset of Title X sub-recipients and service delivery sites; (4) a web-based survey of clients at up to 10 of the sites selected for listening visits; and (5) telephone interviews with subject matter experts. Data collection will begin in fall 2022, pending OMB approval, with the grantee survey and interviews, which will inform selection of sites for the listening visits.

Title of the Collection: Understanding Economic Risk for Low Income Families: Economic Security, Program Benefits, and Decisions about Work.

Type of Collection: New.

OMB No.: 0990–NEW—Office of the Assistant Secretary for Planning and Evaluation.

Abstract: The primary purpose of this study is to identify the risks that federal

program benefit recipients weigh when faced with an opportunity to increase earnings, including benefit reductions, earnings instability, and the ease of regaining lost benefits if needed.

The study will use a discrete choice experiment to explore the importance of these considerations when low-income individuals are presented with a hypothetical opportunity to increase earnings. Statistical analysis will explore interactions between factors and threshold effects. The focus population will be persons currently receiving benefits from at least one of the following programs: Supplemental Nutrition Assistance Program (SNAP), Medicaid/Children's Health Insurance Program (CHIP), housing assistance, Child Care Development Fund (CCDF) subsidies, and/or Temporary Assistance for Needy Families (TANF). The study will explore whether different

preferences are exhibited by parents with children and by persons of different races and ethnicities.

The results of this study will provide HHS with a better understanding of the economic risks that people weigh when they make decisions about increasing earnings, which will inform HHS policy and programs at large, and further lines of research around benefit programs and employment decisions.

The data will be collected once, using primarily a web-based survey, from a sample of low-income persons receiving one or more federal benefit programs. Respondents will be asked to review the vignette and choose whether they think the hypothetical individual should accept the earnings increase. In addition, the questionnaire includes follow-up questions for each vignette/experimental condition, and a set of demographic questions.
