Definitions for DoD Grant and Agreement Regulations in Subchapters A Through F

AGENCY: Office of the Secretary, Department of Defense (DoD).

ACTION: Proposed rule.

SUMMARY: This Notice of Proposed Rulemaking (NPRM) is the fifth of a sequence of six NPRMs in this section of this issue of the **Federal Register** that propose updates to the DoD Grant and Agreement Regulations (DoDGARs). In this NPRM, DoD is proposing definitions of terms that are common to most portions of those regulations, as well as a central location for the definitions.

DATES: To ensure that they can be considered in developing the final rule, comments must be received at either the Web site or mailing address indicated below by February 6, 2017.

ADDRESSES: You may submit comments identified by docket number, or by Regulatory Information Number (RIN) and title, by either of the following methods:

The Web site: <http://www.regulations.gov>. Follow the instructions at that site for submitting comments.

Mail: Department of Defense, Deputy Chief Management Officer, Directorate for Oversight and Compliance, 4800 Mark Center Drive, ATTN: Box 24, Alexandria, VA 22350–1700.

Instructions: All submissions must include the agency name and docket number or RIN for this **Federal Register** document. The general policy for comments and other submissions from the public is to make the submissions available for public viewing on the Internet at <http://www.regulations.gov> without change (*i.e.*, as they are received, including any personal identifiers or contact information).

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. Purpose of the Regulatory Action

1. The Need for the Regulatory Action and How the Action Meets That Need

The Department of Defense Grant and Agreement Regulations (DoDGARs) need to be updated, in part due to the issuance of new Office of Management and Budget guidance to Federal agencies on administrative requirements, cost principles, and audit requirements that apply to Federal grants, cooperative agreements, and other assistance instruments (2 CFR part 200). The DoDGARs part proposed by this NPRM is an important part of the update in that it contains the definitions of terms used throughout most portions of the DoDGARs.

2. Legal Authorities for the Regulatory Action

There are two statutory authorities for this NPRM:

- 10 U.S.C. 113, which establishes the Secretary of Defense as the head of the Department of Defense; and
- 5 U.S.C. 301, which authorizes the head of an Executive department to prescribe regulations for the governance of that department and the performance of its business.

B. Summary of the Major Provisions of the Regulatory Action

This NPRM proposes a new part, 2 CFR part 1108, as the central location for definitions of terms that are needed in order to make the DoDGARs as clear as possible for DoD awarding and administering officials, recipients, auditors, and others who may need to use them. The following subsection B.1 of this **SUPPLEMENTARY INFORMATION** section explains why the proposed part 1108 does not include definitions of some terms. Subsections B.2 through B.8 provide additional information about selected definitions that are included in the proposed part.

1. Terms Defined in Other Issuances That the DoDGARs Adopt by Reference

The proposed part 1108 does not reiterate the definition of a term that is defined in a statute, regulation, Governmentwide guidance document, or other issuance that the DoDGARs adopt by reference unless the DoDGARs also directly use that term and its definition is important to the interpretation of the regulations. Sections 1108.2 and 1108.3 of the proposed part 1108 provide more explanation and examples of issuances the DoDGARs adopt by reference, including national policy requirements, the cost principles and single audit

requirements in Subparts E and F of 2 CFR part 200, and the cost principles in the Federal Acquisition Regulation (48 CFR part 31).

2. Terms for Funding Instruments and Associated Business Relationships

The proposed part 1108 includes definitions of some terms intended to help clarify the distinctions between types of funding instruments that DoD Components and recipients may use, as well as the business relationships for which those instruments appropriately are used. The part also has an appendix with additional background information on assistance and acquisition, which are different purposes for which DoD Components enter into transactions such as grants, cooperative agreements, and procurement contracts. Among the terms addressed in the definitions and appendix are:

- “Acquire” and the related terms “acquisition” and “acquisition cost.” The definition of “acquire” in section 1108.10 of the proposed part clarifies the very important distinction between a DoD Component’s action at the primary tier and transactions by recipients and subrecipients at lower tiers. It also clarifies that the ways in which a recipient or subrecipient may acquire property under a DoD Component’s award include construction, fabrication, or development of the property, as well as donation of the property to the project or program under the award. The definition of “acquisition cost” similarly clarifies what the term includes in conjunction with equipment that a recipient or subrecipient constructs or fabricates under an award, which parallels the wording in the definition of “acquisition cost” in 2 CFR part 200 concerning software that a recipient or subrecipient develops under an award.

- “Procurement contract,” as distinct from “procurement transaction” or “contract.” The proposed part defines the term “procurement contract” specifically to mean a DoD Component’s acquisition transaction because a few portions of the DoDGARs refer to DoD Component’s procurement contracts (e.g., in addressing the appropriate use of a grant or cooperative agreement, rather than a procurement contract). The part then defines the different term “procurement transaction” or “contract” to mean the funding instrument a recipient or subrecipient uses to buy goods or services it needs to carry out the program under its award or subaward. This distinction is important because the DoD Component’s use of acquisition

transactions is governed by the Federal Grant and Cooperative Agreement Act (31 U.S.C., chapter 63), while a recipient’s or subrecipient’s acquisition transactions are not subject to that statute.

- “Cost-type contract,” “cost-type subaward,” and “fixed-amount subaward,” which are terms for types of transactions into which a recipient or subrecipient would enter with an entity at the next lower tier. These terms are used in the administrative requirements portion of the general terms and conditions, which are in DoDGARs parts proposed in the third of the sequence of six NPRMs in this section of this issue of the **Federal Register**.

3. Terms To Distinguish DoD Entities, Officials, and Programs

There are a number of terms defined in the proposed part 1108 that are needed in order for the regulations to be able to specify different requirements for:

- DoD offices and officials with distinct responsibilities. “Agreements officer,” for example, is a term associated with officials authorized to award Technology Investment Agreements, as distinct from officials authorized to award or do post-award administration for grants and cooperative agreements. For the same reason, the proposed part 1108 defines “DoD Components,” “award administration office,” and “contracting activity” as organizational entities; “agreements officer,” “contracting officer,” and “grants officer” as categories of DoD officials; and “Technology Investment Agreement” as a type of funding instrument.

- One or more subcategories of “research and development (R&D),” a term defined in the OMB guidance in 2 CFR part 200. To make the distinctions, the proposed part 1108 separately defines “basic research,” “applied research,” “advanced research,” “research,” and “development.”

4. The Terms “Principal Investigator” and “Co-Principal Investigator”

The proposed part 1108 includes definitions of “principal investigator” and “co-principal investigator” that are based on work done by an interagency group under the National Science and Technology Council and published in the **Federal Register** (72 FR 54257, September 24, 2007). The term “principal investigator” is used in multiple DoDGARs parts. The definition of the term “co-principal investigator” not only helps to complete the concept of “principal investigator” but also will be needed for a portion of the DoDGARs

that DoD will propose for comment in the future.

5. The Term “Approved Budget”

The definition of the term “approved budget” is included in the proposed part 1108 as the DoD implementation of the term “budget” defined in the OMB guidance in 2 CFR part 200. The definition in the OMB guidance indicates that an agency may, at its option, include the non-Federal share of project costs in the budget for a project. The definition in the proposed part 1108 clarifies that the “approved budget” for a DoD award includes any cost sharing or matching that the award requires.

6. The Term “Exempt Property”

The proposed part 1108 defines the term “exempt property” to mean tangible personal property acquired under a DoD award for which a DoD Component has, and elects to use, statutory authority to vest title to the property in the recipient either unconditionally or subject to fewer conditions than usually apply.

7. The Term “Small Award”

The proposed part 1108 includes a definition of the term “small award” to mean an award or subaward with a total value that does not exceed the simplified acquisition threshold. The term is defined because the proposed DoDGARs part 1126 (2 CFR part 1126, which is proposed in the third of the sequence of six NPRMs in this section of this issue of the **Federal Register**) authorizes DoD Components to include fewer requirements in “small awards.”

8. The Term “Unique Entity Identifier”

The proposed part 1108 includes a definition of the term “unique entity identifier.” One purpose of the definition is to clarify that the identifier currently is the Dun and Bradstreet Data Universal Numbering System, or DUNS, number.

C. Costs and Benefits

In providing a central source of definitions of terms used in the DoDGARs, this NPRM makes the regulations easier to use. It thereby may slightly reduce both burdens and costs for recipients and subrecipients, their auditors, DoD awarding and administering officials, and others who use the DoDGARs.

II. Invitation To Comment

DoD welcomes comments on all aspects of the proposed definitions—e.g., if any of them could be made clearer or causes any perceived issues.

III. Regulatory Analysis

Executive Order 12866, “Regulatory Planning and Review,” and Executive Order 13563, “Improving Regulation and Regulatory Review”

Executive Order 12866, as supplemented by Executive Order 13563, directs each Federal agency to: Propose regulations only after determining that benefits justify costs; tailor regulations to minimize burdens on society, consistent with achieving regulatory objectives; maximize net benefits when selecting among regulatory approaches; specify performance objectives, to the extent feasible, rather than the behavior or manner of compliance; and seek the views of those likely to be affected before issuing a notice of proposed rulemaking, where feasible and appropriate. The Department of Defense has determined that a central location for definitions of terms within the DoD Grant and Agreement Regulations will help maximize long-term benefits in relation to costs and burdens for recipients of DoD grant and cooperative agreement awards. This rule has been designated a “significant regulatory action” under section 3(f) of Executive Order 12866, although not an economically significant one. Accordingly, the rule has been reviewed by OMB.

Unfunded Mandates Reform Act of 1995

Section 202 of the Unfunded Mandates Reform Act of 1995 (Unfunded Mandates Act) (2 U.S.C. 1532) requires that a Federal agency prepare a budgetary impact statement before issuing a rule that includes any Federal mandate that may result in the expenditure in any one year by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in 1995 dollars, updated annually for inflation. In 2015, that inflation-adjusted amount in current dollars is approximately \$146 million. The Department of Defense has determined that this proposed regulatory action will not result in expenditures by State, local, and tribal governments, or by the private sector, of that amount or more in any one year.

Regulatory Flexibility Act

The Regulatory Flexibility Act requires an agency that is proposing a rule to provide a regulatory flexibility analysis or to certify that the rule will not have a significant economic impact on a substantial number of small entities. The Department of Defense certifies that this proposed regulatory action will not have a significant

economic impact on substantial number of small entities beyond any impact due to provisions of it that implement OMB guidance at 2 CFR part 200.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35; 5 CFR part 1320, Appendix A.1) (PRA), the Department of Defense has determined that there are no new collections of information contained in this proposed regulatory action.

Executive Order 13132, “Federalism”

Executive Order 13132 establishes certain requirements that an agency must meet when it proposes a regulation that has Federalism implications. This proposed regulatory action does not have any Federalism implications.

- Appendix A to Part 1108—Background on assistance, acquisition, and terms for types of awards

Authority: 5 U.S.C. 301 and 10 U.S.C. 113.

Subpart A—General

§ 1108.1 Purpose of this part.

- (a) This part provides:

(1) Definitions of terms used in subchapters A through F of this chapter; and

(2) Background information as context for understanding terms related to assistance and acquisition purposes, awards that DoD Components make at the prime tier, and lower-tier transactions into which recipients and subrecipients enter when carrying out programs at lower tiers under DoD prime awards.

(b) This part is, for DoD, the regulatory implementation of OMB guidance in Subpart A of 2 CFR part 200.

§ 1108.2 Precedence of definitions of terms in national policy requirements.

(a) *General.* Some portions of the DoD Grant and Agreement Regulations (DoDGARs) may use a term in relation to compliance with a national policy requirement in a statute, Executive order, or other source that defines the term differently than it is defined in Subpart B of this part. For purposes of that particular national policy requirement, the definition of a term provided by the source of the requirement and any regulation specifically implementing it takes precedence over the definition in Subpart B of this part. Using the definition of a term that takes precedence for each national policy requirement is therefore important when determining the applicability and effect of that requirement on DoD grants and cooperative agreements subject to the DoDGARs.

(b) *Examples.* (1) Current portions of the DoDGARs that specifically implement national policy requirements, as described in paragraph (a) of this section, are:

(i) A Governmentwide regulation currently codified by DoD at 32 CFR part 26, which implements the Drug-Free Workplace Act of 1988 as it applies to grants (41 U.S.C. chapter 81, as amended);

(ii) A Government regulation currently codified by DoD at 32 CFR part 28, which implements restrictions on lobbying in 31 U.S.C. 1352;

(iii) A DoD regulation at part 1125 of this chapter, which implements Governmentwide guidance on nonprocurement debarment and suspension (2 CFR part 180) that has bases both in statute (section 2455 of Pub. L. 103–355, 108 Stat. 3327) and in Executive orders 12549 and 12689; and

(iv) Part 1122 of this chapter, which provides standard wording of terms and conditions related to a number of national policy requirements.

(2) To illustrate that a term may be defined differently in conjunction with specific national policy requirements than it is in this part, the term “State” as defined in the drug-free workplace requirements (32 CFR part 26) is identical neither to the definition in the lobbying restrictions (32 CFR part 28) nor to the definition in Subpart B of this part.

§ 1108.3 Definitions of terms used in the Governmentwide cost principles or single audit requirements.

(a) This part includes the definition of a term used in the following issuances only if the DoDGARs uses that term directly:

(1) The Single Audit Act requirements for audits of recipients and subrecipients that are in subpart F of OMB guidance in 2 CFR part 200;

(2) The Governmentwide cost principles for institutions of higher education, nonprofit entities, States, local governments, and Indian tribes that are contained in subpart E of OMB guidance in 2 CFR part 200; and

(3) The cost principles for for profit entities at subpart 31.2 of the Federal Acquisition Regulation (FAR) at 48 CFR part 31, as supplemented by provisions of the Defense Federal Acquisition Regulation Supplement at subpart 231.2 of 48 CFR part 231.

(b) For any terms not covered by paragraph (a), a user of the DoDGARs should consult definitions in:

(1) Subpart A of the OMB guidance in 2 CFR part 200 for terms used in Subparts E and F of that part; and

(2) FAR part 2 (48 CFR part 2) for terms used in the cost principles at 48 CFR part 31.

§ 1108.4 Definitions of terms that vary depending on context.

DoDGARs definitions of some terms related to types of awards (e.g., “contract”) and purposes for which they are used (e.g., “procurement” or “acquisition”) may vary, depending on the context. Appendix A to this part provides additional information about those terms and their definitions.

Subpart B—Definitions

§ 1108.10 Acquire.

Acquire means to:

(a) When the term is used in connection with a DoD Component action at the prime tier, obtain property or services by purchase, lease, or barter for the direct benefit or use of the United States Government.

(b) When the term is used in connection with a recipient action or a subrecipient action at a tier under a DoD Component’s award:

(1) Purchase services;

(2) Obtain property under the award by:

- (i) Purchase;
- (ii) Construction;
- (iii) Fabrication;
- (iv) Development;
- (v) The recipient or subrecipient entity’s donation of the property to the project or program under the award to meet cost sharing or matching requirements (i.e., including within the entity’s share of the award’s project costs the value of the remaining life of the property or its fair market value, rather than charging depreciation); or
- (vi) Otherwise.

§ 1108.15 Acquisition.

Acquisition means the process of acquiring as described in:

(a) Paragraph (a) of § 1108.10 when used in connection with DoD Component actions at the prime tier.

(b) Paragraph (b) of § 1108.10 when used in connection with recipient or subrecipient actions at lower tiers under a DoD Component’s award.

§ 1108.20 Acquisition cost.

Acquisition cost means the cost of an asset to a recipient or subrecipient, including the cost to ready the asset for its intended use.

(a) For example, when used in conjunction with:

(1) The purchase of equipment, the term means the net invoice price of the equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired.

(2) Equipment that a recipient or subrecipient constructs or fabricates—or software that it develops—under an award, the term includes, when capitalized in accordance with generally accepted accounting principles (GAAP):

(i) The construction and fabrication costs of that equipment; and

(ii) The development costs of that software.

(b) Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation may be included in, or excluded from, the acquisition cost in accordance with the recipient’s or subrecipient’s regular accounting practices.

§ 1108.25 Administrative offset.

Administrative offset means an action whereby money payable by the United States Government to, or held by the Government for, a recipient is withheld to satisfy a delinquent debt the recipient owes the Government.

§ 1108.30 Advance payment.

Advance payment means a payment that DoD or a recipient or subrecipient makes by any appropriate payment mechanism, including a predetermined payment schedule, before the recipient or subrecipient disburses the funds for project or program purposes.

§ 1108.35 Advanced research.

Advanced research means advanced technology development that creates new technology or demonstrates the viability of applying existing technology to new products and processes in a general way. Advanced research is most closely analogous to precompetitive technology development in the commercial sector (*i.e.*, early phases of research and development on which commercial competitors are willing to collaborate, because the work is not so coupled to specific products and processes that the results of the work must be proprietary). It does not include development of military systems and hardware where specific requirements have been defined. It is typically funded in Advanced Technology Development (Budget Activity 3) programs within DoD's Research, Development, Test and Evaluation (RDT&E) appropriations.

§ 1108.40 Agreements officer.

Agreements officer means a DoD official with the authority to enter into, administer, and/or terminate Technology Investment Agreements.

§ 1108.45 Applied research.

Applied research means efforts that attempt to determine and exploit the potential of scientific discoveries or improvements in technology, such as new materials, devices, methods and processes. It typically is funded in Applied Research (Budget Activity 2) programs within DoD's Research, Development, Test and Evaluation (RDT&E) appropriations. Applied research often follows basic research but may not be fully distinguishable from the related basic research. The term does not include efforts whose principal aim is the design, development, or testing of specific products, systems or processes to be considered for sale or acquisition, efforts that are within the definition of "development."

§ 1108.50 Approved budget.

Approved budget means, in conjunction with a DoD Component award to a recipient, the most recent version of the budget the recipient submitted and the DoD Component approved (either at the time of the initial award or subsequently), to summarize planned expenditures for the

project or program under the award. It includes:

(a) All Federal funding made available to the recipient under the award to use for project or program purposes.

(b) Any cost sharing or matching that the recipient is required to provide under the award.

(c) Any options that have been exercised but not any options that have not yet been exercised.

§ 1108.55 Assistance.

Assistance means the transfer of a thing of value to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States (see 31 U.S.C. 6101(3)). Grants, cooperative agreements, and technology investment agreements are examples of legal instruments that DoD Components use to provide assistance.

§ 1108.60 Award.

Award means a grant, cooperative agreement, technology investment agreement, or other nonprocurement instrument subject to one or more parts of the DoDGARs. Within each part of the regulations, the term includes only the types of instruments subject to that part.

§ 1108.65 Award administration office.

Award administration office means a DoD Component office that performs assigned post-award functions related to the administration of grants, cooperative agreements, technology investment agreements, or other nonprocurement instruments subject to one or more parts of the DoDGARs.

§ 1108.70 Basic research.

Basic research means efforts directed toward increasing knowledge and understanding in science and engineering, rather than the practical application of that knowledge and understanding. It typically is funded within Basic Research (Budget Activity 1) programs within DoD's Research, Development, Test and Evaluation (RDT&E) appropriations. For the purposes of the DoDGARs, basic research includes:

(a) Research-related, science and engineering education and training, including graduate fellowships and research traineeships; and

(b) Research instrumentation and other activities designed to enhance the infrastructure for science and engineering research.

§ 1108.75 Capital asset.

Capital asset means a tangible or intangible asset used in operations having a useful life of more than one year which is capitalized in accordance with GAAP. Capital assets include:

(a) Land, buildings (facilities), equipment, and intellectual property (including software) whether acquired by purchase, construction, manufacture, lease-purchase, exchange, or through capital leases; and

(b) Additions, improvements, modifications, replacements, rearrangements, reinstallations, renovations or alterations to capital assets that materially increase their value or useful life (not ordinary repairs and maintenance).

§ 1108.80 Claim.

Claim means a written demand or written assertion by one of the parties to an award seeking as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of award terms, or other relief arising under or relating to the award. A routine request for payment that is not in dispute when submitted is not a claim. The submission may be converted to a claim by written notice to the grants officer if it is disputed either as to liability or amount, or is not acted upon in a reasonable time.

§ 1108.85 Cognizant agency for indirect costs.

Cognizant agency for indirect costs means the Federal agency responsible for reviewing, negotiating, and approving cost allocation plans and indirect cost proposals on behalf of all Federal agencies. The cognizant agency for indirect costs for a particular entity may be different than the cognizant agency for audit. The cognizant agency for indirect costs:

(a) For an institution of higher education, nonprofit organization, State, or local government is assigned as described in the appendices to OMB guidance in 2 CFR part 200. See 2 CFR 200.19 for specific citations to those appendices.

(b) For a for-profit entity, normally will be the agency with the largest dollar amount of pertinent business, as described in the Federal Acquisition Regulation at 48 CFR 42.003.

§ 1108.90 Contract.

Contract means a procurement transaction, as that term is defined in this subpart. A contract is a transaction into which a recipient or subrecipient enters. It is therefore distinct from the term "procurement contract," which is a transaction that a DoD Component awards at the prime tier.

§ 1108.95 Contracting activity.

Contracting activity means an activity to which the Head of a DoD Component has delegated broad authority regarding

acquisition functions pursuant to 48 CFR 1.601.

§ 1108.105 Contractor.

Contractor means an entity to which a recipient or subrecipient awards a procurement transaction (also known as a contract).

§ 1108.110 Cooperative agreement.

Cooperative agreement means a legal instrument which, consistent with 31 U.S.C. 6305, is used to enter into the same kind of relationship as a grant (see definition of “grant” in this subpart), except that substantial involvement is expected between the Department of Defense and the recipient when carrying out the activity contemplated by the cooperative agreement. The term does not include “cooperative research and development agreements” as defined in 15 U.S.C. 3710a.

§ 1108.115 Co-principal investigator.

Co-principal investigator means any one of a group of individuals whom an organization that is carrying out a research project with DoD support designates as sharing the authority and responsibility for leading and directing the research intellectually and logistically, other than the one among the group identified as the primary contact for scientific, technical, and related budgetary matters (see the definition of “principal investigator”).

§ 1108.120 Cost allocation plan.

Cost allocation plan means either a:

- (a) Central service cost allocation plan, as defined at 2 CFR 200.9 and described in Appendix V to OMB guidance in 2 CFR part 200; or
- (b) Public assistance cost allocation plan as described in Appendix VI to 2 CFR part 200.

§ 1108.125 Cost sharing or matching.

§ 1108.130 Cost-type contract.

Cost-type contract means a procurement transaction awarded by a recipient or a subrecipient at any tier under a DoD Component's grant or cooperative agreement that provides for the contractor to be paid on the basis of the actual, allowable costs it incurs

(plus any fee or profit for which the contract provides).

§ 1108.135 Cost-type subaward.

Cost-type subaward means a subaward that:

Debt means any amount of money or any property owed to a Federal agency by any person, organization, or entity except another United States Federal agency. Debts include any amounts due from insured or guaranteed loans, fees, leases, rents, royalties, services, sales of real or personal property, or overpayments, penalties, damages, interest, fines and forfeitures, and all other claims and similar sources. For the purposes of this chapter, amounts due a non-appropriated fund instrumentality are not debts owed the United States.

§ 1108.150 Delinquent debt.

Delinquent debt means a debt:

- (a) That the debtor fails to pay by the date specified in the initial written notice from the agency owed the debt, normally within 30 calendar days, unless the debtor makes satisfactory payment arrangements with the agency by that date; and
- (b) With respect to which the debtor has elected not to exercise any available appeals or has exhausted all agency appeal processes.

§ 1108.155 Development.

Development means, when used in the context of “research and development,” the systematic use of scientific and technical knowledge in the design, development, testing, or evaluation of potential new products, processes, or services to meet specific performance requirements or objectives.

It includes the functions of design engineering, prototyping, and engineering testing. It typically is funded within programs in Budget Activities 4 through 7 of DoD's Research, Development, Test and Evaluation (RDT&E) appropriations.

§ 1108.160 Direct costs.

Direct costs means any costs that are identified specifically with a particular final cost objective, such as an award, in accordance with the applicable cost principles.

- (1) Has statutory authority to vest title in recipients (or allow for vesting in subrecipients) without further obligation to the Federal Government or subject to conditions the DoD Component considers appropriate; and
- (2) Elects to use that authority to do so.

(b) An example of exempt property authority is contained in the Federal Grant and Cooperative Agreement Act (31 U.S.C. 6306) for tangible personal property acquired under an award to conduct basic or applied research by a nonprofit institution of higher education or nonprofit organization whose primary purpose is conducting scientific research.

§ 1108.180 Expenditures.

§ 1108.190 Federal share.

Federal share means the portion of the project costs under an award that is paid by Federal funds.

§ 1108.195 Fixed-amount award.

Fixed-amount award means a DoD Component grant or cooperative agreement that provides for the recipient to be paid on the basis of performance and results, rather than the actual, allowable costs the recipient incurs.

§ 1108.200 Fixed-amount subaward.

Fixed-amount subaward means a subaward:

- (a) That a recipient or subrecipient makes to another entity at the next lower tier; and

performance and results, and not on the actual, allowable costs that entity incurs.

§ 1108.205 Foreign organization.

Foreign organization means an entity that is:

- (b) In which substantial involvement is not expected between the Department

of Defense and the recipient when carrying out the activity contemplated by the grant.

See the annually published Bureau of Indian Affairs list of Indian Entities Recognized and Eligible to Receive Services.

§ 1108.230 Indirect costs (also known as "Facilities and Administrative," or F&A, costs).

Indirect costs means those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved.

Appendix A to Part 1108—Background on Assistance, Acquisition, and Terms for Types of Awards

I. Purpose of This Appendix

This appendix provides background intended to help avoid confusion about some terms:

A. That are used in this chapter to describe either types of awards that DoD Components, recipients, and subrecipients make, or the purposes for which those types of awards are used; and

B. For which this part provides definitions that vary depending on the context within which the terms are used.

II. Why Definitions of Some Terms are Context-Dependent

A. The DoDGARs contain both:

1. Direction to DoD Components concerning their award of grants and cooperative agreements at the prime tier; and

2. Terms and conditions that DoD Components include in their grants and cooperative agreements to specify the Government's and recipients' rights and responsibilities, including post-award requirements with which recipients' actions must comply.

B. In some cases, the same defined term or two closely related terms are used in relation to both DoD Component actions at the prime tier and recipient or subrecipient actions at lower tiers under DoD Components' awards. But a given defined term may have meanings that differ at the two tiers. For example, in part because the Federal Grant and Cooperative Agreement Act applies to DoD Component actions at the prime tier but not to recipient or subrecipient actions at lower tiers (see sections III and IV of this appendix):

1. The terms "acquire" and "acquisition" do not have precisely the same meaning in conjunction with actions at the prime and lower tiers.

2. The meaning of the term "procurement contract" used to describe DoD Component prime-tier actions is not precisely the same as the meaning of "procurement transaction" or "contract" used to describe recipient or subrecipient actions at lower tiers.

III. Background: Distinguishing Prime-Tier Relationships and Awards

A. The Federal Grant and Cooperative Agreement Act (31 U.S.C. chapter 63) specifies that the type of award a DoD Component is to use when making a prime award to a recipient is based on the nature of the relationship between the DoD Component and the recipient that the prime award reflects.

B. Specifically, except where another statute authorizes DoD to do otherwise, 31 U.S.C. chapter 63 specifies use of:

1. A procurement contract as the instrument reflecting a relationship between a DoD Component and a recipient when the

principal purpose of the relationship is to acquire property or services for the direct benefit or use of the Federal Government.

2. A grant or cooperative agreement as the instrument reflecting a relationship between those two parties when the principal purpose of the relationship is to carry out a public purpose of support or stimulation authorized by Federal statute.

C. The terms "acquisition" and "assistance" are defined in this part to correspond to the principal purposes described in paragraphs III.B.1 and 2 of this section, respectively. Using those terms, paragraphs III.B.1 and B.2 may be restated to say that grants and cooperative agreements are assistance instruments that DoD Components use at the prime tier for assistance purposes, as distinct from procurement contracts they use at that tier for acquisition.

IV. Background: Distinguishing Types of Recipients' and Subrecipients' Awards

A. While the Federal Grant and Cooperative Agreement Act applies to Federal agencies, it does not govern types of awards that recipients and subrecipients make, whether or not they are lower-tier awards under a Federal prime grant or cooperative agreement. That statute therefore does not require a recipient or subrecipient to:

1. Consider any award it makes at a lower tier under a Federal assistance award as a grant or cooperative agreement. Therefore, at its option, a recipient or subrecipient may consider all of its lower-tier awards to be "contracts."

2. Associate an "assistance" relationship, as that term is defined in this part and used in this chapter, with any lower-tier transaction that it makes.

B. However, the DoDGARs in this chapter do distinguish between two classes of lower-tier transactions that recipients and subrecipients make: Subawards and procurement transactions. The distinction promotes uniformity in requirements for lower-tier transactions under DoD grants and cooperative agreements. It is based on a long-standing distinction in OMB guidance to Federal agencies, currently at 2 CFR part 200, which DoD implements in this chapter.

C. The distinction between a subaward and procurement transaction is based on the primary purpose of that transaction.

1. The transaction is a subaward if a recipient or subrecipient enters into it with another entity at the next lower tier in order to transfer—for performance by that lower-tier entity—a portion of the substantive program for which the prime DoD grant or cooperative agreement provided financial assistance to the recipient. Because the Federal Grant and Cooperative Agreement Act does not apply to the recipient or subrecipient, it may make a subaward as defined in this part using an instrument that it considers a contract.

2. The transaction is a procurement transaction if the recipient or subrecipient enters into it in order to purchase goods or services from the lower-tier entity that the recipient or subrecipient needs to perform its portion of the substantive program supported by the prime DoD award.
