

and technological innovation. In undertaking these duties, the Commission seeks to identify and examine specific bioethical, legal, and social issues related to potential scientific and technological advances; examine diverse perspectives and possibilities for international collaboration on these issues; and recommend legal, regulatory, or policy actions as appropriate.

The Commission has begun a review of the current rules and standards for protecting human subjects in scientific studies supported by the Federal Government. The President requested this study on November 24, 2010, following revelations that the U.S. Public Health Service supported research on sexually transmitted diseases in Guatemala from 1946 to 1948 involving the intentional infection of vulnerable populations. President Obama asked the Commission Chair "to convene a panel to conduct * * * a thorough review of human subjects protection to determine if Federal regulations and international standards adequately guard the health and well-being of participants in scientific studies supported by the Federal Government."

The President charged the Commission to seek the insights and perspective of international experts and consult with counterparts in the global community. The Commission will provide the President with a report of its findings and recommendations later this year.

To implement this mission, the Commission wishes to develop a thorough understanding of the current U.S. and international standards for protecting the health and well-being of participants in scientific studies supported by the Federal Government. To this end, the Commission is inviting interested parties to provide input and advice through written comments. Among other issues, the Commission is interested in receiving comments on the existing standards for protecting human subjects, both domestically and internationally; how the current system of global research works in practice; and the ethical and social justice issues that emerge from the current research system. Comments concerning the benefits of medical research; differences across global norms and standards; standards for ancillary care and post-trial access to treatment; trial design; duties to participants; challenges, if any, faced by U.S.-funded researchers working internationally, or international researchers collaborating on U.S.-funded research; and other specific information are all especially welcome.

The Commission is under a very tight deadline and would appreciate comments within 60 days.

Please address comments by e-mail to info@bioethics.gov, or by mail to the following address: Public Commentary, The Presidential Commission for the Study of Bioethical Issues, 1425 New York Ave. NW., Suite C-100, Washington, DC 20005. Comments will be publicly available, including any personally identifiable or confidential business information that they contain. Trade secrets should not be submitted.

Dated: February 17, 2011.

Valerie H. Bonham,

Executive Director, The Presidential Commission for the Study of Bioethical Issues.

BILLING CODE 4154-06-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Subcommittee on Procedures Review, Advisory Board on Radiation and Worker Health (ABRWH), National Institute for Occupational Safety and Health (NIOSH)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following meeting for the aforementioned subcommittee:

Time and Date: 9 a.m.–5 p.m., March 22, 2011.

Place: Cincinnati Airport Marriott, 2395 Progress Drive, Hebron, KY 41018. Telephone (859) 334-4611, Fax (859) 334-4619.

Status: Open to the public, but without a public comment period. To access by conference call dial the following information: (866) 659-0537, Participant Pass Code 9933701.

Background: The ABRWH was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the compensation program. Key functions of the ABRWH include providing advice on the development of probability of causation guidelines that have been promulgated by the Department of Health and Human Services (HHS) as a final rule; advice on methods of dose reconstruction which have also been promulgated by HHS as a final rule; advice on the scientific validity and quality of dose estimation and

reconstruction efforts being performed for purposes of the compensation program; and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC).

In December 2000, the President delegated responsibility for funding, staffing, and operating the ABRWH to HHS, which subsequently delegated this authority to CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3, 2001, renewed at appropriate intervals, and will expire on August 3, 2011.

Purpose: The ABRWH is charged with (a) Providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is a reasonable likelihood that such radiation doses may have endangered the health of members of this class. The Subcommittee on Procedures Review was established to aid the ABRWH in carrying out its duty to advise the Secretary, HHS, on dose reconstructions. The Subcommittee on Procedures Review is responsible for overseeing, tracking, and participating in the reviews of all procedures used in the dose reconstruction process by the NIOSH Division of Compensation Analysis and Support (DCAS) and its dose reconstruction contractor.

Matters to be Discussed: The agenda for the Subcommittee meeting includes discussion of the following ORAU and OCAS procedures: ORAUT-RPRT-0044 ("Analysis of Bioassay Data with a Significant Fraction of Less-Than Results"), OCAS TIB-0013 ("Special External Dose Reconstruction Considerations for Mallinckrodt Workers"), OTIB-014 ("Rocky Flats Internal Dosimetry Co-Worker Extension"), OTIB-019 ("Analysis of Coworker Bioassay Data for Internal Dose Assignment"), OTIB-0029 ("Internal Dosimetry Coworker Data for Y-12"), OTIB-0047 ("External Radiation Monitoring at the Y-12 Facility During the 1948-1949 Period"), OTIB-0049 ("Estimating Doses for Plutonium Strongly Retained in the Lung"), OTIB-0052 ("Parameters to Consider When Processing Claims for Construction Trade Workers"), OTIB-0054 ("Fission and Activation Product Assignment for Internal Dose-Related Gross Beta and Gross Gamma Analyses"), and OTIB-

0070 ("Dose Reconstruction During Residual Radioactivity Periods at Atomic Weapons Employer Facilities"); and a continuation of the comment-resolution process for other dose reconstruction procedures under review by the Subcommittee.

The agenda is subject to change as priorities dictate.

This meeting is open to the public, but without a public comment period. In the event an individual wishes to provide comments, written comments may be submitted. Any written comments received will be provided at the meeting and should be submitted to the contact person below in advance of the meeting.

SUPPLEMENTARY INFORMATION:

I. Background

The purpose of the meeting is to assist and advise the Secretary and the

Congress on the Department's strategy to foster the creation of qualified nonprofit health insurance issuers. Specifically, the Committee shall advise the Secretary and the Congress concerning the award of grants and loans related to section 1322 of the Affordable Care Act, which provides for a Federal program to assist establishment and operation of nonprofit, member run health insurance issuers. In these matters, the Committee shall consult with all components of the Department, other Federal entities, and non-Federal organizations, as appropriate; and examine relevant data sources to assess the grant and loan award strategy to provide recommendations to CCIIO.

II. Meeting Agenda

The Committee will hear comments from the public and then begin deliberations on proposed recommendations presented by the work groups from the Committee. CCIIO intends to make background material available to the public no later than two (2) business days prior to the meeting. If CCIIO is unable to post the background material on its Web site prior to the meeting, it will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on CCIIO's Web site after the meeting, at <http://hhs.gov/CCIIO>.

Oral comments from the public will be scheduled between approximately 8:30 a.m.-9:30 a.m. Individuals or organizations that wish to make a 3-minute oral presentation on an agenda topic should submit a written copy in Word format of the oral presentation to the designated federal official (DFO) at the address listed in the **ADDRESSES** section of this notice by the date listed in the **DATES** section of this notice. The number of oral presentations may be limited by the time available. Persons attending CCIIO's advisory committee meetings are advised that the agency is not responsible for providing access to electrical outlets. If the number of speakers requesting to comment is greater than can be reasonably accommodated during the scheduled open public comment session, CCIIO will take written comments after the meeting until close of business. Individuals not wishing to make a presentation may submit written comments in Word format to the DFO at the address listed in the **ADDRESSES** section of this notice by the date listed in the **DATES** section of this notice.

Individuals requiring sign language interpretation or other special accommodations must contact the DFO via the contact information specified in
