

180 days after the date on which the new shipper review was initiated and final results of a review within 90 days after the date on which the preliminary results were issued. The Department may, however, extend the deadline for completion of the preliminary results of a new shipper review to 300 days if it determines that the case is extraordinarily complicated (19 CFR 351.214 (i)(2)). The Department has determined that this case is extraordinarily complicated, and the preliminary results of this new shipper review cannot be completed within the statutory time limit of 180 days. Specifically, the Department needs additional time because of the complexity of some of the issues, including valuing raw honey and several packaging inputs, as well as issuing supplemental questionnaires requesting additional information. Given the issues in this case, the Department finds that this case is extraordinarily complicated, and cannot be completed within the statutory time limit.

Accordingly, the Department is extending the time limit for the completion of the preliminary results by 90 days, from January 26, 2005, to April 26, 2005, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2). The final results will, in turn, be due 90 days after the date of issuance of the preliminary results, unless extended.

Dated: December 10, 2004.

Barbara E. Tillman,

Acting Deputy Assistant Secretary for Import Administration.

Extension of Time Limit for Final Results

Pursuant to section 751(a)(3)(A) of the Act, as amended, the Department may extend the deadline for completion of the final results of an administrative review if it determines that it is not practicable to complete the final results within the statutory time limit of 120 days from the date on which the preliminary results were published. The Department has determined that due to

the complexity of the issues in this review, including (1) the evaluation of cost data, and (2) questions concerning appropriate model matching designations, it is not practicable to complete this review within the time limits mandated by section 751(a)(3)(A) of the Act and section 19 CFR 351.213(h)(1) of the Department's regulations. Therefore, the Department is extending the time limit for the completion of these final results by 30 days. Accordingly, the final results of this review will now be due on February 4, 2005.
