Subject

(d) Air Transport Association of America (ATA) Code 35: Oxygen.

Unsafe Condition

(e) This AD was prompted by the reported rupture of a high-pressure gaseous oxygen cylinder, which had insufficient strength characteristics due to improper heat treatment. We are issuing this AD to prevent an oxygen cylinder from rupturing, which, depending on the location, could result in structural damage and rapid decompression of the airplane, damage to adjacent essential flight equipment, deprivation of the necessary oxygen supply for the flightcrew, and injury to cabin occupants or other support personnel.

Compliance

(f) To address this problem, you must do the following, unless already done:

(1) Within 60 days after the effective date of this AD, inspect the oxygen cylinder installed in the airplane to determine the serial number. The serial number is stamped into the steel cylinder near the neck. A review of airplane records is acceptable in lieu of this inspection if the serial number of the oxygen cylinder can be positively determined from that review. For any oxygen cylinder that has a serial number identified in Table 1 of this AD, before further flight, remove it from the airplane and replace it with a serviceable oxygen cylinder. Do the inspection and removal following B/E Aerospace Service Bulletin 176000–35–01, dated November 2, 2009; and Zodiac Aerospace AVOX Systems, Inc. Service Bulletin 6084–34–35–01, Revision 1, dated December 9, 2009, as applicable.

(2) As of the effective date of this AD, do not install on any airplane a United States Department of Transportation Type 3HT oxygen cylinder that has a serial number identified in Table 1 of this AD.

Note: United States Department of Transportation hazardous materials regulations apply to the shipping of oxygen cylinders.

Alternative Methods of Compliance (AMOCs)

(g) The Manager, Standards Office, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. Send information to ATTN: David Hirt, Aerospace Engineer, FAA, Small Airplane Directorate, 901 Locust, Room 301, Kansas City, Missouri 64106; telephone: (816) 329–4130; fax: (816) 329–4090; e-mail: david.hirt@faa.gov. Before using any approved AMOC on any airplane to which the AMOC applies, notify your appropriate principal inspector (PI) in the FAA Flight Standards District Office (FSDO), or lacking a PI, your local FSDO.

FEDERAL TRADE COMMISSION**16 CFR Ch. I****Notice of Intent To Request Public Comments**

AGENCY: Federal Trade Commission.

ACTION: Notice of intent to request public comments.

SUMMARY: As part of its systematic review of all Federal Trade Commission rules and guides, the Commission gives notice that, during 2010, it intends to request public comments on the rules listed below (“Rules”). The Commission will request comments on, among other things, the economic impact of and the continuing need for the Rules; possible conflict between the Rules and state, local, or other federal laws or regulations; and the effect of any technological, economic, or other industry changes on the Rules. Further, the Commission gives notice that, based on its current ongoing review proceedings, it is postponing regulatory review for certain rules previously scheduled for 2010 review. In addition, the Commission announces that it is accelerating its review of the Labeling Requirements for Alternative Fuels and Alternative Fueled Vehicles Rule to 2010. No Commission determination on the need for, or the substance of, the Rules should be inferred from the notice of intent to publish requests for comments. Finally, the Commission announces a revised 10-year regulatory review schedule.

DATES: Comments must be submitted on or before April 16, 2010.

FOR FURTHER INFORMATION CONTACT: Further details may be obtained from the contact person listed for the particular Rule.

SUPPLEMENTARY INFORMATION: The Commission intends to initiate a review of, and solicit public comments on, the following Rules during 2010:

Agency Contact: Janice Podoll Frankle, (202) 326–3022, Federal Trade Commission, Bureau of Consumer Protection, Division of Enforcement, 600

The Commission is accelerating its review of the Labeling Requirements for Alternative Fuels and Alternative Fueled Vehicles Rule, previously scheduled for review in 2014, to ensure that FTC-required vehicle labels are consistent with the Environmental Protection Agency fuel economy labeling requirements. Additionally, because the Commission has ongoing reviews relating to a number of its rules and guides and other rulemaking proceedings, it is postponing review of the following matters previously scheduled for 2010 review: Regulations Under the Fair Packaging and Labeling Act, *et al.*, 16 CFR 500-503; the Credit Practices Rule, 16 CFR 444; the Guides

for the Advertising of Warranties and Guarantees, 16 CFR 239; and the Interpretations of the Magnuson-Moss Warranty Act, *et al.*, 16 CFR 700-703.

A copy of the Commission's revised regulatory review schedule for 2011 through 2020 is appended. The Commission, in its discretion, may modify or reorder the schedule in the future to incorporate new rules, or to respond to external factors (such as changes in the law) or other considerations.
