BILLING CODE 9110–05–P

DEPARTMENT OF HOMELAND SECURITY**Transportation Security Administration****Intent to Request Extension From OMB of One Current Public Collection of Information: TSA Airspace Waiver Program**

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-Day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652–0033, that we will submit to OMB for an extension in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection of information allows TSA to conduct security threat assessments (STAs) of individuals who operate manned aircraft and unmanned aircraft systems (UAS) in restricted airspace pursuant to

an airspace waiver or flight authorization.

DATES: Send your comments by August 1, 2025.

ADDRESSES: Comments may be emailed to TSAPRA@tsa.dhs.gov or delivered to the TSA PRA Officer, Information Technology, TSA–11, Transportation Security Administration, 6595 Springfield Center Drive, Springfield, VA 20598–6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227–2062.

SUPPLEMENTARY INFORMATION:**Comments Invited**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652–0033; TSA Airspace Waiver Program. TSA is seeking approval to extend this collection of information. The airspace waiver program allows U.S. and foreign general aviation aircraft operators to apply for approval to operate in U.S. restricted airspace, including flying over the United States and its territories. This program includes both processing of applications for airspace waivers and flight authorizations for flights operating under the Ronald Reagan Washington National Airport Access Standard Security Program (*see* subpart B of 49 CFR part 1562), which requires name-based STAs for all passengers, flight crews and armed security officers operating manned aircraft and UAS.

TSA uses the information to conduct STAs of persons on these flights to protect against and mitigate threats to transportation or national security.

TSA collects information from applicants applying for a waiver or flight authorization either online via <https://waivers.faa.gov>, or by completing a waiver or flight authorization form, which can be requested via facsimile. To ensure adequate time to process the information and obtain approval, TSA recommends that applicants submit the request electronically within, at a minimum, five business days before the start-date of the flight.

The type of information collected depends upon the purpose of the application; however, both waiver and flight authorization requests must include the purpose of the flight, the aircraft type and registration number, including aircraft operator's company name and address, and the proposed itinerary. To enable TSA to conduct STAs, the aircraft operator must provide the name, sex, date and place of birth, and Social Security or passport number for each individual onboard manned aircraft, including all pilots, passengers, crew and armed security officers, and on individuals who conduct UAS flight operations.

The estimated number of respondents is 9,687, and the annual reporting burden is 7,173 hours.

Dated: May 28, 2025.

Information Collection Requirement

Title: Pipeline Operator Security Information.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652–0055.

Forms(s): CISA ¹ Reporting System form.

Affected Public: Pipeline system operators.

Abstract: In addition to TSA’s broad responsibility and authority for “security in all modes of transportation” under 49 U.S.C. 114(d), TSA is statutorily required to develop and transmit to pipeline operators security recommendations for natural gas and hazardous liquid pipelines and pipeline facilities. *See* sec. 1557 of the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110–53 (121 Stat. 266; August 3, 2007), codified at 6 U.S.C. 1207.

Voluntary Collection. Consistent with these requirements, TSA produced Pipeline Security Guidelines in December 2010, and April 2011, with an update published in April 2021. As the lead federal agency for pipeline security and consistent with its statutory authorities, TSA requests to be notified of all (1) incidents that may indicate a deliberate attempt to disrupt pipeline operations; and (2) activities that could be precursors to such an attempt.

Mandatory collection. In May 2021 in response to a ransomware attack on the Colonial Pipeline Company, TSA issued a security directive series with requirements for owner/operators of hazardous liquid and natural gas pipelines and liquefied natural gas facilities that TSA designated as critical. The security directive series included two mandatory information collections, reporting pipeline security incidents, and providing contact information for the cybersecurity coordinator(s) and alternate(s).
