Public Transportation Emergency Relief Program

The Moving Ahead for Progress in the 21st Century Act (MAP-21, Pub. L. 112-141) authorized the Emergency Relief Program at 49 U.S.C. 5324. FTA's Emergency Relief program enables FTA to provide assistance to public transit operators in the aftermath of an emergency or major disaster. This program helps States and public transportation systems pay for protecting, repairing, and/or replacing equipment and facilities that may suffer or have suffered serious damage as a result of an emergency, including natural disasters such as floods, hurricanes, and tornadoes. The program can fund capital projects to protect, repair, or replace facilities or equipment that are in danger of suffering serious damage, or have suffered serious damage as a result of an emergency. The program can also fund the operating costs of evacuation, rescue operations, temporary public transportation service, or reestablishing, expanding, or relocating service before, during or after an emergency.

The **Federal Register** notice with a 60-day comment period soliciting comments for the Public Transportation Emergency Relief Program was published on April 5, 2016 (Citation 81 FR 19711). No comments were received from that notice.

DATES: Comments must be submitted before September 1, 2016. A comment to OMB is most effective, if OMB receives it within 30 days of publication.

SUPPLEMENTARY INFORMATION:

Title: Public Transportation Emergency Relief Program (OMB Number: 2132-0575).

Abstract: As a result of Hurricane Sandy, President Obama declared a major disaster in late 2012 for areas of 12 States and the District of Columbia affected by Hurricane Sandy. Public transportation agencies in the counties specified in the disaster declaration were eligible for financial assistance under FTA's Public Transportation Emergency Relief Program. Under the Disaster Relief Appropriations Act (Pub. L. 113-2), Congress provided \$10.9 billion for FTA's Emergency Relief Program for recovery, relief and

resilience efforts in areas affected by Hurricane Sandy. Approximately \$10.2 billion remained available after implementation of the Balanced Budget and Emergency Deficit Control Act of 2011 (Pub. L. 112-25) and after intergovernmental transfers to other bureaus and offices within DOT. FTA allocated approximately \$9.27 billion in multiple tiers for response, recovery and rebuilding, for locally prioritized resilience projects, and for competitively selected resilience projects. In addition, FTA has reserved approximately \$817 million for remaining unfunded recovery expenses.

Estimated Total Burden: 3,600 hours.

ADDRESSES: All written comments must refer to the docket number that appears at the top of this document and be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503, Attention: FTA Desk Officer.

Comments are Invited On: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

49 U.S.C. Section 5317—New Freedom Program (OMB Number 2132-0565)

Abstract: The purpose of the New Freedom program was to make grants available to assist states and designated recipients to reduce barriers to transportation services and expand the transportation mobility options available to people with disabilities beyond the requirements of the Americans with Disabilities Act (ADA) of 1990. The New Freedom program was repealed in 2012 with the enactment of the Moving Ahead for Progress in the 21st Century Act (MAP-21). However, funds previously authorized for programs repealed by MAP-21 remain available for their originally authorized purposes until the period of availability expires, the funds are fully expended, the funds are rescinded by Congress, or the funds are otherwise reallocated. To meet program oversight responsibilities, FTA must continue to collect information until the period of availability expires, the funds are fully expended, the funds are rescinded by Congress, or the funds are otherwise reallocated. Grant recipients are required to make information available to the public and to publish a program of projects which identifies the sub-recipients and projects for which the State or designated recipient is applying for financial assistance. FTA uses the information to monitor the grantees' progress in implementing and completing project activities. FTA collects performance information annually from designated recipients in rural areas, small urbanized areas, other direct recipients for small urbanized areas, and designated recipients in urbanized areas of 200,000 persons or greater. FTA collects milestone and financial status reports from designated recipients in large urbanized areas on a quarterly basis. The information submitted ensures FTA's compliance with applicable federal laws and OMB Uniform Administrative Requirements (Super Circular). The **Federal Register** notice with a 60-day comment period soliciting comments for the 49 U.S.C. Sections 5317—New Freedom Program was published on April 5, 2016 (Vol. 81, No. 65) pages 19710-19711). No comments were received from that notice.

Estimated Total Burden: 14,640 hours.

[Docket No. NHTSA–2016–0059; Notice 1]

Notice of Receipt of Petition for Decision That Nonconforming Model Year 2014 Bentley Flying Spur Saloon/Continental Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Receipt of petition.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that model year (MY) 2014 Bentley Flying Spur 4-door (Saloon) and 2-Door (Continental) passenger cars (PC's) that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards (FMVSS), are eligible for importation into the United States because they are substantially similar to vehicles that were originally manufactured for sale in the United States and that were certified by their manufacturer as complying with the safety standards (the U.S.-certified version of the 2014 Bentley Flying Spur Saloon/Continental PC's) and they are

capable of being readily altered to conform to the standards.

DATES: The closing date for comments on the petition is September 1, 2016.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J. K. Technologies, LLC (JK), Inc. of Baltimore, Maryland (Registered Importer R–90–006) has petitioned NHTSA to decide whether nonconforming MY 2014 Bentley Flying Spur PC's are eligible for importation into the United States. The vehicles which JK believes are substantially similar are MY 2014 Bentley Flying Spur PC's sold in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared the subject non-U.S. certified MY 2014 Bentley Flying Spur PC's to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

JK submitted information with its petition intended to demonstrate that the subject non-U.S. certified MY 2014 Bentley Flying Spur PC's, as originally manufactured, conform to many applicable FMVSS in the same manner as their U.S.-certified counterparts, or are capable of being readily altered to conform to those standards. Specifically, the petitioner claims that the subject non U.S.-certified MY 2014 Bentley Flying Spur PC's, as originally manufactured, conform to: Standard
