Tivoly, Inc., Derby Line, VT; Notice of
Negative Determination on
Reconsideration

On November 16, 2009, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The notice was published in the **Federal Register** on December 8, 2009 (74 FR 64,711).

The initial investigation resulted in a negative determination based on the finding that imports of cutting tools did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred.

In the request for reconsideration, the International Association of Machinists and Aerospace Workers, Local Lodge 1829, requested that additional customer surveys be done beyond the two that had been completed during the earlier investigation.

In response to that request, the Department of Labor conducted a survey of five more major declining customers of the subject firm regarding their purchases of cutting tools, taps, and reamers during 2007, 2008, and during the months of January through May 2008 and January through May 2009.

Those five surveys, added to the two surveys completed during the investigation, included customers who accounted for 89 percent of the subject firm's total sales during 2007 and 2008, and customers who accounted for 65 percent of the total subject firm's total sales during the period January through May 2009.

The customers surveyed also accounted for 89 percent of the decline in total subject firm sales from 2007 to 2008, and 88 percent of the decline in

total subject firm sales during the period January through May 2009 as compared with the same five months in 2008.

Those surveys showed customer imports of cutting tools, taps, and reamers to be insignificant as a percent of total subject firm sales during 2007 and 2008, and showed that there were no customer imports of cutting tools during the period January through May 2009.

Conclusion

After reconsideration, I affirm the original notice of negative determination of eligibility to apply for worker adjustment assistance for workers and former workers of Tivoly, Inc., Derby Line, Vermont.

Signed at Washington, DC this 27th day of May 2010.

Paris Accessories, Inc., Including On-Site Leased Workers From Job Connections, New Smithville, PA; Notice of Revised Determination on Reconsideration

By application dated April 1, 2010, a worker requested administrative reconsideration of the negative determination applicable to the subject firm. The denial was based on the finding that neither increased imports nor a shift in production to a foreign country contributed importantly to worker separations at the subject firm. The workers are engaged in employment related to the assembly and packaging of accessories. The Department's notice of negative determination was issued on February 25, 2010 and published in the **Federal Register** on April 23, 2010 (75 FR 21363).

In the request for reconsideration, the petitioner stated that the subject firm had begun performing offshore the

kinds of operations that had been carried out by the worker group.

Based on additional information provided by the subject firm during the reconsideration investigation, the Department determines that the subject firm has acquired from a foreign source services like or directly competitive with the assembly and packaging services formerly performed by the subject workers.

Conclusion

After careful review of the additional facts obtained on reconsideration, I determine that workers of Paris Accessories, Inc., New Smithville, Pennsylvania, including on-site leased workers from Job Connections, who are engaged in employment related to the assembly and packaging of accessories, meet the worker group certification criteria under Section 222(a) of the Act, 19 U.S.C. 2272(a). In accordance with Section 223 of the Act, 19 U.S.C. 2273, I make the following certification:

All workers of Paris Accessories, Inc., New Smithville, Pennsylvania, including on-site leased workers from Job Connections, who became totally or partially separated from employment on or after May 27, 2008, through two years from the date of this certification, and all workers in the group threatened with total or partial separation from employment on date of certification through two years from the date of certification, are eligible to apply for adjustment assistance under Chapter 2 of Title II of the Trade Act of 1974, as amended.

Signed in Washington, DC, this 27th day of May, 2010.
