Abstract: This OMB package requests clearance for data collection instruments to be used in a four-year evaluation of Lessons in Character (LIC) program. This study is based on an experimental design that utilizes the random assignment. LIC is an English Language Arts (ELA)-based character

education curriculum that is expected to have positive impacts on student academic performance, attendance, school motivation, and endorsement of universal values consistent with character education. The evaluation will be conducted by REL West, one of the National Regional Education Laboratories administered by the Institute of Education Sciences of the U.S. Department of Education. Evaluation measures include student archived data (e.g., state mandated standardized test scores); follow-up surveys for students; teacher and parent rating/observation on various student aspects (e.g., student social skills); baseline and follow-up surveys for teachers; and teacher/administrator interviews. Baseline data collection will take place in 2007; follow-up data collection will take place in 2008, 2009, and 2010.

Title: Education Longitudinal Study (ELS) 2002 Third Follow-up 2011 Field Test Batch Tracing.

Frequency: Annually.

Affected Public: Individuals or household.

Reporting and Recordkeeping Hour Burden:

Burden Hours: 558.

Abstract: The Education Longitudinal Study of 2002 (ELS:2002) is a nationally representative longitudinal study of two high school grade cohorts (spring 2002 tenth-graders and spring 2004 twelfth-graders) comprising over 16,000 sample members. The study focuses on achievement growth, and its correlates, in the high school years; the family and school social context of secondary education; and transitions from high school to postsecondary education and/or the labor market. Major issues for the postsecondary years include postsecondary educational access and choice, and persistence and baccalaureate and sub-baccalaureate attainment, as well as the work experiences of the non-college-bound, and other markers of adult status, such as family formation and civic participation. Data collections took place in 2002, 2004, 2006 (two years out of high school), and now a final data collection will take place in 2012, when most sample members are around 26 years of age. This submission requests OMB's approval for batch tracing for the third follow-up 2011 field test and 2012 full scale respondents.

Federal Energy Regulatory Commission

[Docket No. CP10-152-000]

Columbia Gas Transmission, LLC, and D&B Resources; Notice of Application

April 28, 2010.

Take notice that on April 22, 2010, Columbia Gas Transmission, LLC (Columbia Gas) 5151 San Felipe, Suite 2500, Houston, Texas 77056, and D&B Resources (D&B), Rt. 4 Box 232, Cameron, West Virginia 26033, filed with the Commission a joint application under section 7(b) of the Natural Gas Act (NGA) for authorization for Columbia Gas to abandon by sale to D&B certain storage and pipeline facilities located in Greene County, Pennsylvania. Applicants also request a determination that upon abandonment, D&B's ownership and operation of the subject facilities will be exempt from the Commission's jurisdiction under section 1(b) of the NGA, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions regarding the petition should be directed to Fredric J. George, Senior Counsel Columbia Gas Transmission, LLC, P.O. Box 1273, Charleston, West Virginia 25325; telephone (304) 357-2359, fax (304) 357-3206, or Steven T. Taylor, Esquire or Eric M. Gordon, Esquire, counsel for D&B Resources at 514 Seventh Street, Moundsville, West Virginia 26041; telephone (304) 845-9055.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list

maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a
