DEPARTMENT OF ENERGY

Notice of Intent and Request for Information: Designation of National Interest Electric Transmission Corridors

AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of intent (NOI); request for information (RFI).

SUMMARY: Pursuant to the Federal Power Act (“FPA”), the U.S. Department of Energy (“DOE” or the “Department”) Grid Deployment Office (“GDO”) is issuing this Notice of Intent (“NOI”) to establish a process to designate “route-specific” National Interest Electric Transmission Corridors (“NIETCs,” pronounced \NIT-sees\). Through this

process, DOE intends to invite interested entities to propose for designation as a NIETC a potential route where one or more potential transmission projects could be located within a geographic area where the Department has identified transmission need(s) (*i.e.*, present or expected electric transmission capacity constraints or congestion that adversely affects consumers) and where the Department has made other statutory findings. DOE intends to develop final guidelines and procedures for interested entities to propose that DOE designate a NIETC. In this NOI, DOE identifies certain key program design elements that it believes should form the basis of an applicant-driven, route-specific process to designate NIETCs. In the accompanying RFI, DOE seeks comments from the public and interested parties on these identified program elements and any additional program elements that should be included to assist in developing final guidelines, procedures, and evaluation criteria for the applicant-driven, route-specific NIETC designation process.

DATES: Written comments and information are requested on or before June 29, 2023.

ADDRESSES: Interested parties may submit comments through the Federal eRulemaking Portal at www.regulations.gov. For detailed instructions on submitting comments and additional information on this process, see the **SUPPLEMENTARY INFORMATION** section of this document.
