**Abstract:** The authority for EPA’s oil pollution prevention requirements is derived from section 311(j)(1)(C) of the Clean Water Act, as amended by the Oil Pollution Act of 1990. EPA’s regulation is codified at 40 CFR part 112. An SPCC Plan will help an owner or operator identify the necessary procedures, equipment, and resources to prevent an oil spill and to respond to an oil spill in a timely manner. Although the owner or operator is the primary data user, EPA may also require the owner or operator to submit data to the Agency in certain situations to ensure facilities comply with the SPCC regulation and to help allocate response resources. State and local governments may use the data, which are not generally available elsewhere and can assist local

emergency preparedness planning efforts.

*Form Numbers:* None.*Respondents/affected entities:*

Owners or operators of facilities required to have Spill Prevention, Control, and Countermeasure (SPCC) plans under the Oil Pollution Prevention regulation (40 CFR part 112) and which, because of their location, could reasonably be expected to cause substantial harm to the environment.

*Respondent’s obligation to respond:* Mandatory.

*Estimated number of respondents:* 549,785 (total).

*Frequency of response:* Facilities must prepare and implement an SPCC Plan before beginning operations and review, evaluate and update the SPCC Plan every five years. In the event of certain discharges of oil into navigable waters, a facility owner or operator must submit certain information to the Regional Administrator within 60 days.

*Total estimated burden:* 6,309,523 hours (per year). This figure will be updated as needed during the 60-day OMB review period. Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$857,835,543 (per year), includes \$201,002,128 annualized capital or operation & maintenance (O&M) costs. These figures will be updated with most recent available wage rates from the Bureau of Labor Statistics and to account for any changes in O&M costs, burden and number of respondents.

*Changes in Estimates:* The above burden estimates are based on the current approved ICR, OMB Control No. 0328.18. In the final notice for the renewal ICR, EPA will publish revised burden estimates based on updates to respondent data and unit costs. Any change in burden will be described and explained in this section when the updated ICR Supporting Statement is completed during the 60-day OMB review period.
