EU Notification as the measures taken to comply with the recommendations and rulings of the DSB for purposes of Article 21.5 of the DSU, the United States considers that (i) these measures are insufficient to remove the adverse effects or withdraw the subsidies, and (ii) certain of these measures taken to comply introduce new inconsistencies with the SCM Agreement. In addition, French, German, Spanish, and UK LA/ MSF for the A350XWB (i) are measures closely related to the measures the EU has identified as taken to comply and to the EU measures the DSB found to be inconsistent with the SCM Agreement and (ii) replace or continue the LA/MSF for twin-aisle aircraft covered by the recommendations and rulings of the DSB. The United States considers these LA/MSF measures for the A350XWB to be inconsistent with the SCM Agreement.

Additional details are provided in the panel request, which may be found at *www.wto.org* contained in a document designated as WT/DS316/23.
