

aggregating the dumping margins we calculated for all U.S. sales to each importer and dividing this amount by the total entered value of those sales.

The Department clarified its "automatic assessment" regulation on May 6, 2003. This clarification will apply to entries of subject merchandise during the period of review produced by Far Eastern New Century Corporation for which it did not know its merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. For a full discussion of this clarification, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

The Department intends to issue assessment instructions directly to CBP 15 days after publication of these final results of review.

Cash-Deposit Requirements

The following deposit requirements will be effective upon publication of this notice of final results of administrative review for all shipments of PSF from Taiwan entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(1) of the Act: (1) The cash-deposit rate for Far Eastern New Century Corporation will be 2.92 percent; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in the original less-than-fair-value investigation or previous reviews, the cash-deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) the cash-deposit rate for all other manufacturers or exporters will continue to be 7.31 percent, the all-others rate established in *Notice of Amended Final Determination of Sales at Less Than Fair Value: Certain Polyester Staple Fiber From the Republic of Korea and Antidumping Duty Orders: Certain Polyester Staple Fiber From the Republic of Korea and Taiwan*, 65 FR 33807 (May 25, 2000). These cash-deposit requirements shall remain in effect until further notice.

Notifications

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to the administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results and this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: September 13, 2011.

Ronald K. Lorentzen,
Deputy Assistant Secretary for Import Administration.

International Trade Administration

Renewable Energy and Energy Efficiency Executive Business Development Mission; Clarification and Amendment

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice.

SUMMARY: The United States Department of Commerce, International Trade Administration, U.S. and Foreign Commercial Service (CS) is publishing this supplement to the Notice of the Renewable Energy and Energy Efficiency Executive Business Development Mission, 76 FR, No. 140, July 21, 2011, to clarify eligibility and amend the Notice to revise the dates and provide for selection of applicants on a rolling basis.

SUPPLEMENTARY INFORMATION:

Amendments To Revise the Dates and Provide for Selection of Applicants on a Rolling Basis

Background

Recruitment for this Mission began at the end of June, and some pending applicants have indicated a need to finalize their schedules and travel arrangements for upcoming holidays and end of fiscal 2011 year financial reports. Rather than wait until after the October 17, 2011 deadline to vet all applicants and make selection decisions, CS is amending the Notice to allow for vetting and selection decisions on a rolling basis beginning September 1, 2011, until the maximum of 20 participants is selected. Although applications will be accepted through October 17th (and after that date if space remains and scheduling constraints permit), interested U.S. renewable energy firms and trade organizations which have not already submitted an application are encouraged to do so as soon as possible.

Amendments

1. For the reasons stated above, the Timeframe for Recruitment and Applications section of the Notice of the Renewable Energy and Energy Efficiency Executive Business Development Mission, 76 FR, No. 140, July 21, 2011, is amended to read as follows:

Timeframe for Recruitment and Applications

Mission recruitment will be conducted in an open and public manner, including publication in the **Federal Register**, posting on the Commerce Department trade mission calendar (<http://export.gov/trademissions>) and other Internet Web sites, press releases to general and trade media, direct mail, notices by industry trade associations and other multiplier groups, and publicity at industry meetings, symposia, conferences, and trade shows. Recruitment for this mission will conclude no later than October 17, 2011. The U.S. Department of Commerce will review applications and make selection decisions on a rolling basis beginning August 31, 2011. We will inform all applicants of selection decisions on a rolling basis. Applications received after the October 17 deadline will be considered only if space and scheduling constraints permit.

National Oceanic and Atmospheric Administration

RIN 0648-XL85

Notice of Availability of a Draft Supplemental Environmental Impact Statement for Replacement of NOAA Southwest Fisheries Science Center in La Jolla, CA

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of the Draft Supplemental Environmental Impact Statement (SEIS); Request for comments.

SUMMARY: NOAA announces the public release of the Draft SEIS in accordance with the National Environmental Policy Act of 1969, the Council on Environmental Quality Regulations, and NOAA Administrative Order 216-6 *Environmental Review Procedures for Implementing the National Environmental Policy Act*. Since completion of the Final Environmental Impact Statement/Environmental Impact Report (EIS/EIR) in April of 2009, substantial changes to the proposed action are being considered by NOAA within portions of the project area containing the 2.5-acre property currently occupied by Southwest Fisheries Science Center (SWFSC) and managed by NOAA under long-term lease from the University of California Office of the President (UCOP). These newly proposed actions were not previously analyzed in the Final EIS/EIR and involve additional demolition activities, substantial excavation and grading, installation of a geohazard soil stabilization system, structural upgrade to remaining structures, and other site alterations. These proposed actions were deemed necessary by NOAA based on additional geotechnical information and design recommendations received since approval of the Final EIS/EIR. The SEIS evaluates each environmental topic addressed in the Final EIS/EIR, and focuses on the newly proposed action and its potential effects to the human environment. The No-Action Alternative was analyzed and assumes

the newly proposed actions would not be implemented.

DATES: Written comments and input will be accepted on or before October 31, 2011.

ADDRESSES: Written comments should be sent to Robb Gries, Project Engineer, NOAA, Project Planning & Management—Western Region, 7600 Sand Point Way NE., BIN C15700, Seattle, WA 98115; e-mail robb.gries@noaa.gov.

FOR FURTHER INFORMATION CONTACT:

Contact Mr. Robb Gries, NOAA Project Engineer, at the address provided above. A copy of the Draft SEIS can be viewed or downloaded at http://www.seco.noaa.gov/HTML_Blue/OCAO_NEPA.html.

SUPPLEMENTARY INFORMATION: The proposed action evaluated in the April 2009 Final EIS/EIR consisted of the demolition of Buildings B and C and the construction of a new SWFSC building on a property across La Jolla Shores Drive from the existing NOAA facilities. Currently, construction of the SWFSC building at the preferred site is underway. Demolition of Buildings B and C at the existing NOAA property would not occur until construction of the new SWFSC building has been completed.

A Notice of Intent to prepare SEIS was published in the **Federal Register** on June 30, 2011. Consistent with 40 CFR 1502.9(c)(1)(i), this SEIS focuses on the environmental effects of the proposed changes and feasible alternatives including the no-action alternative, and analyzes the potential effects to affected resources such as: geological conditions, hydraulic processes, construction noise, traffic/pedestrian circulation, air emissions, and protected wildlife. Separately, the University of California—San Diego (UCSD) and UCOP intend to determine what additional CEQA documentation is necessary, such as an Addendum to the Final EIS/EIR, based on the findings of the SEIS and other factors.

NOAA has submitted the Draft SEIS to the U.S. Environmental Protection Agency for review and comment, in conformance with NEPA implementing regulations. Copies of this document have been made available to persons who participated in the Final EIS/EIR scoping process, to other individuals expressing interest, and to local libraries in order to be accessible to the general public. NOAA is accepting comments on the Draft SEIS during a 45-day official comment period beginning September 19, 2011, and ending on October 31, 2011.

Dated: August 26, 2011.

William F. Broglie,

Chief Administrative Officer, National Oceanic and Atmospheric Administration.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Amendment 11 to the Fishery Management Plan for Spiny Lobster Resources of the Gulf of Mexico and South Atlantic; Intent To Prepare a Supplemental Environmental Impact Statement (SEIS); Request for Comments

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Intent (NOI).

SUMMARY: NMFS, Southeast Region, in collaboration with the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils) intends to prepare a SEIS to describe and analyze a range of alternatives for management actions to be included in Amendment 11 to the Fishery Management Plan for the Spiny Lobster Resources of the Gulf of Mexico and South Atlantic (FMP). These actions will consider closed areas for lobster fishing to protect *Acropora* corals and lobster trap line-marking requirements. The purpose of this NOI is to solicit public comments on the scope of issues to be addressed in the SEIS.

DATES: Written comments on the scope of issues to be addressed in the SEIS must be received by NMFS by October 19, 2011.

ADDRESSES: You may submit comments, identified by NOAA-NMFS-2011-0223, by any of the following methods:

- *Electronic submissions:* Submit electronic comments via the Federal e-Rulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Mail:* Susan Gerhart, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not
