Notice of Inventory Completion: U.S. Department of Agriculture, Forest Service, Grey Towers National Historic Site, Milford, PA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the U.S. Department of Agriculture, Forest Service, Grey Towers National Historic Site has completed an inventory of human remains and has determined that there is no lineal descendant and no Indian Tribe or Native Hawaiian organization with cultural affiliation.

DATES: Upon request, repatriation of the human remains in this notice may occur on or after June 13, 2025.

ADDRESSES: Joseph Koloski, U.S. Dept. of Agriculture, FS, Grey Towers National Historic Site, 151 Grey Towers Drive, Milford, PA 18337, telephone (570) 296-9630, email joseph.koloski@usda.gov.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Grey Towers National Historic Site, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The

National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing, at least, one individual have been identified. No associated funerary objects are present. The cranium, incomplete right femur, incomplete right tibia, and incomplete left tibia of an adult probable male was located at Grey Towers NHS. Geographical location of removal, date of removal, and acquisition history are unknown. There is no indication these remains were treated with potentially hazardous materials.

Consultation

Invitations to consult were sent to the Delaware Nation, Oklahoma; Delaware Tribe of Indians; and the Stockbridge Munsee Community, Wisconsin.

Cultural Affiliation

The following types of information about the cultural affiliation of the human remains in this notice are available: biological and expert opinion. The information, including the results of consultation, identified:

1. No earlier group can be identified as connected to the human remains.
2. No Indian Tribe or Native Hawaiian organization can be identified as connected to the human remains.
3. No relationship of shared group identity between the earlier group and the Indian Tribe or Native Hawaiian organization that can be reasonably traced through time.

Determinations

The Grey Towers National Historic Site has determined that:

- The human remains described in this notice represent the physical remains of one individual of probable Native American ancestry.
- No known lineal descendant who can trace ancestry to the human remains in this notice has been identified.
- No Indian Tribe or Native Hawaiian organization with cultural affiliation to the human remains in this notice has been clearly or reasonably identified.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Upon request, repatriation of the human remains described in this notice may occur on or after June 13, 2025. If competing requests for repatriation are received, the Grey Towers National Historic Site must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The Grey Towers National Historic Site is responsible for sending a copy of this notice to any consulting lineal descendant, Indian Tribe, or Native Hawaiian organization.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: April 30, 2025.

Notice of Inventory Completion: Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Peabody Museum of Archaeology and Ethnology, Harvard University (PMAE) has completed an inventory of human remains and has determined that there is a known lineal descendant connected to the human remains in this notice.

DATES: Repatriation of the human remains in this notice may occur on or after June 13, 2025.

ADDRESSES: Jane Pickering, Peabody Museum of Archaeology and Ethnology, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-2374, email jpickering@fas.harvard.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the PMAE, and additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records. The

National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Based on the information available, human remains representing one individual have been reasonably identified. No associated funerary objects are present. The human remains were collected at the Sherman Institute, Riverside County, CA, and are hair clippings collected from one individual, Dan Walker, who was recorded as being 16 years old and identified as "Fox Sauk." Samuel H. Gilliam took the hair clippings at the Sherman Institute between 1930 and 1933. Gilliam sent the hair clippings to George Woodbury, who donated the hair clippings to the PMAE in 1935.

Lineal Descendant

Based on the information available and the results of consultation, a lineal descendant is connected to the human remains described in this notice.

Determinations

The PMAE has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Herbert Walker is connected to the human remains described in this notice.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under

ADDRESSES. Requests for repatriation may be submitted by:

1. The known lineal descendant connected to the human remains.
2. Any other lineal descendant not identified who shows, by a preponderance of the evidence, that the requestor is a lineal descendant.

Repatriation of the human remains in this notice to a requestor may occur on or after June 13, 2025. If competing requests for repatriation are received, the PMAE must determine the most appropriate requestor prior to repatriation. The PMAE is responsible for sending a copy of this notice to the lineal descendant and any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Notice of Inventory Completion: Cincinnati Museum Center, Cincinnati, OH

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Cincinnati Museum Center has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after June 13, 2025.

ADDRESSES: Tyler Swinney, Cincinnati Museum Center, 1301 Western Avenue, Cincinnati, OH 45203, telephone (513) 287-7000 Ext. 7287, email tswinney@cincymuseum.org.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Cincinnati Museum Center, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing, at least, 107 individuals have been identified. The 1,148 lots of associated funerary objects are three circular incised marine shell gorgets, (Fairfield Style), a circular un-incised marine shell gorget, a crescent-shaped marine shell gorget, rectangular gorgets (marine shell, slate and animal bone), a young canid burial, an elbow-shaped limestone smoking pipe, a cut and polished wolf mandible segment, a muscovite mica mirror, a marine shell bead, a small copper pin, an unmodified concretion, cut/modified box turtle carapaces, drilled black bear and elk teeth, complete and partial domestic tools (flint, ground stone, and animal bone), animal bone ornaments and beads, muscovite mica fragments, freshwater mussel shells, terrestrial

gastropods, carbonized botanical material, soil samples, thermally altered and unmodified stone, sandstone and rock abraders, grit and limestone tempered ceramics, burned and unburned animal bone, flint debitage, daub, copper-stained stone and animal bone, and intrusive historic material. These human remains and cultural objects originated from the Glenn/Oberting Mounds (12D24-25) in Dearborn County, Indiana, and the Hawkins Ridge Mounds (33Ha11[182] & 33Ha583) and Newtown Firehouse site (33Ha419) in Hamilton County, Ohio. The Cincinnati Museum Center has no records indicating that these human remains or cultural objects were exposed to any hazardous substances while in the stewardship of the Museum.

During the early 1980s, Richard Scamyhorn conducted several amateur excavations at the Glenn/Oberting Mounds. The Scamyhorn collection was donated to the Museum in 2013.

In late 1989, the Cincinnati Museum of Natural History conducted emergency salvage excavations (Acc. 1990.11) at the Hawkins Ridge Mounds before the site was destroyed by residential development. Collections that were surface collected from Hawkins Ridge Mounds in 1976 and 1977 by Eric Matchette were donated to the Museum in 1992 (Acc. 1992.75).

In 1980/1981, the Miami Purchase Association for Historic Preservation, mitigated a series of inadvertent discoveries at the Newtown Firehouse site; these collections were transferred to the Museum in 1990 (Acc. 1990.58). Emergency salvage excavations were also conducted at the Newtown Firehouse site by the Cincinnati Museum Center in 2006 (Acc. 2006.196) prior to urban development and in 2015 (Acc. 2015.71) following an inadvertent discovery during the installation of fiber-optics and telecommunication utilities.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the human remains and associated funerary objects described in this notice.

Determinations

The Cincinnati Museum Center has determined that:

- The human remains described in this notice represent the physical remains of 107 individuals of Native American ancestry.
- The 1,148 lots of objects described in this notice are reasonably believed to
