Creatine Monohydrate From the People's Republic of China: Revocation of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 3, 2005, the Department of Commerce ("the Department") initiated the sunset review of the antidumping duty order on creatine monohydrate from the People's Republic of China (70 FR 75). Because the domestic interested parties did not participate in this sunset review, the Department is revoking this antidumping duty order.

DATES: *Effective Date:* February 4, 2005.

FOR FURTHER INFORMATION CONTACT:

Hilary E. Sadler, Esq., Office of Policy, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4340.

SUPPLEMENTARY INFORMATION:

Scope of the Order

The product covered by this order is creatine monohydrate, which is commonly referred to as "creatine." The chemical name for creatine monohydrate is N (aminoiminomethyl)-N-methylglycine monohydrate. The Chemical Abstracts Service ("CAS") registry number for this product is 6020-87-7. Creatine monohydrate in its pure form is a white, tasteless, odorless powder, that is a naturally occurring metabolite found in muscle tissue. Creatine monohydrate is provided for in subheading 2925.20.90 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheading and the CAS registry number are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Background

On February 4, 2000, the Department issued an antidumping duty order on creatine monohydrate from People's Republic of China (65 FR 5583). Pursuant to section 751(c) of the Tariff Act of 1930, as amended, ("the Act") and 19 CFR 351, the Department initiated the sunset review of this order by publishing the notice of the initiation in the **Federal Register** at 70 FR 75 (January 3, 2005). As a courtesy to interested parties, the Department sent letters, via certified and registered mail, to each party listed on the Department's most current service list for this proceeding to inform them of the automatic initiation of a sunset review of this order.

We received no response from the domestic industry by the deadline dates (*see* 19 CFR 351.218(d)(1)(i)). As a result, the Department determined that no domestic party intends to participate in this sunset review, and on January 27, 2005, we notified the International Trade Commission, in writing, that we intended to issue a final determination revoking this antidumping duty order. *See* 19 CFR 351.218(d)(1)(iii)(B).

Determination To Revoke

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.218(d)(1)(iii)(B)(3), if no domestic interested party responds to the notice of initiation, the Department shall issue a final determination, within 90 days after the initiation of the review, revoking the order. Because no domestic interested party filed a notice of intent or substantive response, the Department finds that no domestic interested party is participating in this review of this antidumping duty order, and we are revoking this antidumping duty order effective February 4, 2005, the fifth anniversary of the date the order was issued, consistent with 19 CFR 351.222(i)(2)(i) and section 751(d)(2) of the Act.

Effective Date of Revocation

Pursuant to sections 751(c)(3)(A) and 751(d)(2) of the Act, and 19 CFR 351.222(i)(2)(i), the Department will instruct U.S. Customs and Border Protection to terminate the suspension of liquidation of the merchandise subject to this order entered, or withdrawn from warehouse, on or after February 4, 2005. Entries of subject merchandise prior to the effective date of revocation will continue to be subject to suspension of liquidation and antidumping duty deposit requirements. The Department will complete any pending administrative reviews of this

order and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

This five-year ("sunset") review and notice are in accordance with sections 751(c) and 777(i)(1) of the Act.

Dated: April 4, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Certain Hot-Rolled Carbon Steel Flat Products from the Netherlands; Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On December 3, 2004, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from the Netherlands. *See Certain Hot-Rolled Carbon Steel Flat Products from the Netherlands; Preliminary Results of Antidumping Duty Administrative Review*, 69 FR 70226 (December 3, 2004) (*Preliminary Results*). This review covers imports of subject merchandise from Corus Staal BV (Corus Staal) to the United States during the period November 1, 2002, to October 31, 2003. Based on our analysis of the comments received, we have made changes to the margin calculation. Therefore, the final results differ from the preliminary results. The final weighted-average dumping margin for the reviewed firm is listed below in the section entitled "Final Results of Review."

EFFECTIVE DATE: April 11, 2005.

FOR FURTHER INFORMATION CONTACT:

David Cordell or Robert James, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482-0409 or (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 3, 2004, the Department published in the **Federal Register** the

Preliminary Results of the administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from the Netherlands for the period November 1, 2002 to October 31, 2003. In response to the Department's invitation to comment on the preliminary results of this review, Corus (respondent) and United States Steel Corporation (USSC) (petitioner) filed their case briefs on January 19, 2005.¹ USSC submitted a rebuttal brief on January 28, 2005. The deadline for the final results of the review is April 2, 2005. Because this date falls on a Saturday, *i.e.*, a non-business day, the signature date for these final results is April 4, 2005.

Period of Review

The period of review (POR) is November 1, 2002, to October 31, 2003.

Scope of the Order

For purposes of this order, the products covered are certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4.0 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of the order. Specifically included within the scope of this order are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The

substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTS), are products in which: (i) Iron predominates, by weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or
2.25 percent of silicon, or
1.00 percent of copper, or
0.50 percent of aluminum, or
1.25 percent of chromium, or
0.30 percent of cobalt, or
0.40 percent of lead, or
1.25 percent of nickel, or
0.30 percent of tungsten, or
0.10 percent of molybdenum, or
0.10 percent of niobium, or
0.15 percent of vanadium, or
0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, ASTM specifications A543, A387, A514, A517, A506).
- Society of Automotive Engineers (SAE)/American Iron and Steel Institute (AISI) grades of series 2300 and higher.
- Ball bearings steels, as defined in the HTS.
- Tool steels, as defined in the HTS.
- Silico-manganese (as defined in the HTS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTS.

The merchandise subject to this order is classified in the HTS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30,

7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90. Certain hot-rolled flat-rolled carbon steel flat products covered by this order, including: vacuum degassed fully stabilized; high strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTS subheadings are provided for convenience and U.S. Customs purposes, the written description of the scope of this order is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this administrative review are addressed in the "Issues and Decision Memorandum" (Decision Memorandum) from Barbara E. Tillman, Acting Deputy Assistant Secretary Operations, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated April 4, 2004, which is hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded, all of which are in the Decision Memorandum, is attached to this notice as an appendix. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum, which is on file in the Central Records Unit, room B-099 of the main Department building. In addition, a complete version of the Decision Memorandum can be accessed directly via the Internet at www.ia.ita.doc.gov. The paper copy and electronic version of the Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on our analysis of the comments received, we have made the

¹ Corus and USSC were unable to deliver the case briefs on January 18, 2005, when they were originally due, because of an unforeseen external event that prevented access to the Department. As a result, the Department granted a one-day extension to both companies.

following changes to the margin calculation:

- We revised the U.S. warehousing expenses and inventory carrying costs reported by Corus for its JIT sales. We based the calculation on the transaction-specific number of inventory carrying days rather than the reported order-wide average number of inventory carrying days.
- We corrected a clerical error involving adjustments to U.S. expenses incurred in euros.
- We have amended our draft liquidation instructions to correct a clerical error concerning shipments produced by Corus, and imported by other importers.

These changes are discussed in the relevant sections of the Decision Memorandum.

Final Results of Review

We determine that the following weighted-average percentage margin exists for the period November 1, 2002, to October 31, 2003:

Manufacturer / Exporter	Weighted Average Margin (percentage)
Corus Staal BV	4.42

Assessment

The Department shall determine and U.S. Customs and Border Protection (CBP) shall assess antidumping duties on all appropriate entries. Thus, in accordance with 19 C.F.R. § 351.212(b)(1), we will calculate an importer-specific *ad valorem* assessment rate for merchandise based on the ratio of the total amount of antidumping duties calculated for the examined sales made during the POR to the total customs value of the sales used to calculate those duties. Where the importer-specific assessment rate is above *de minimis*, we will instruct CBP to assess duties on all appropriate entries of subject merchandise by that importer. This rate will be assessed uniformly on all entries of that particular importer made during the period of review. The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of the final results of review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of these final results for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of these final results of

administrative review, as provided by section 751(a)(1) of the Tariff Act: (1) the cash deposit rate for the reviewed company will be the rate listed above; (2) for previously-reviewed producers and exporters, the cash deposit rate will be the company-specific rate established for the most recent period for which they were reviewed; (3) if the exporter is not a firm covered in this review, a prior review, or the original less than fair value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be the “all others” rate of 2.59 percent, which is the “All Others” rate established in the LTFV investigation. *See Notice of Amended Final Determination of Sales at Less Than Fair Value; Certain Hot-Rolled Carbon Steel Flat Products From The Netherlands*, 66 FR 55637 (November 2, 2001). These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Interested Parties

This notice also serves as a final reminder to importers of their responsibility under 19 C.F.R. § 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 C.F.R. § 351.305, that continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 4, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

International Trade Administration

[A-588-605, A-580-507]

Malleable Cast Iron Pipe Fittings From Japan and the Republic of Korea: Revocation of Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 3, 2005, the Department of Commerce (“the Department”) initiated the second sunset review of the antidumping duty orders on malleable cast iron pipe fittings from Japan and the Republic of Korea (70 FR 75). Because the domestic interested parties did not participate in this sunset review, the Department is revoking these antidumping duty orders.

EFFECTIVE DATE: February 28, 2005.

FOR FURTHER INFORMATION CONTACT: Hilary E. Sadler, Esq., Office of Policy, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4340.

SUPPLEMENTARY INFORMATION: The merchandise subject to these orders is certain malleable cast iron pipe fittings, other than grooved and alloy cast iron, from Japan and the Republic of Korea. In the original orders, the merchandise was classified in the Tariff Schedules of the United States, Annotated, under item numbers 610.7000 and 610.7400. The merchandise is currently classified under item numbers 7307.19.90.30, 7307.19.90.60 and 7307.19.90.80 of the Harmonized Tariff Schedule of the United States (“HTS”). The HTS number is provided for convenience and customs purposes. The written description remains dispositive.
