

and Michaud Allotments. If livestock grazing is reauthorized, the responsible official will also decide on basic elements of an allotment management plan: livestock management objectives, practices (including maximum amount of use to meet management objectives), structural and non-structural improvements necessary to meet management objectives, and a monitoring plan to determine whether management objectives are being met and adaptive management measures needed.

Preliminary Issues

Preliminary issues identified include the rate of improvement on riparian and upland vegetation, aquatic resources, and recreation conflict use.

Scoping Process

This notice of intent initiates the official notice and comment period. Previous public scoping for this project occurred in December 2010.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

Dated: January 8, 2014.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Monthly Retail Trade Survey provides estimates of monthly retail sales, end-of-month merchandise inventories, and quarterly e-commerce sales of retailers in the United States by selected kinds of business. Also, it provides monthly sales of food service establishments. The Bureau of Economic Analysis (BEA) uses this information to prepare the National Income and Products Accounts and to benchmark the annual input-output

tables. Statistics provided from the Monthly Retail Trade Survey are used to calculate the gross domestic product (GDP).

Estimates produced from the Monthly Retail Trade Survey are based on a probability sample. The sample design consists of one fixed panel where all cases are requested to report sales, e-commerce sales, and/or inventories each month. The sample is drawn from the Business Register, which contains all Employer Identification Numbers (EINs) and listed establishment locations.

There are approximately 10,305 respondents contacted each month for the survey. The sample is updated quarterly to reflect employer business "births" and "deaths"; adding new employer businesses identified in the Business and Professional Classification Survey and deleting firms and EINs when it is determined they are no longer active.
