

contained at 49 CFR part 222 (Use of Locomotive Horns at Public Highway-Rail Grade Crossings). The relevant Docket Number is FRA-2020-0038.

Specifically, the City and Metrolink (Petitioners) jointly seek relief from the requirements of 49 CFR 222.59(a)(1), to continue use of a Pedestrian Audible Warning System (PAWS), which is similar to a wayside horn, when approaching seven highway-rail grade crossings, instead of a locomotive horn. Petitioners also request to extend relief from certain provisions of 49 CFR part 222, appendix E (Paragraphs 4 and 6), to allow a minimum sound level of 80 dB(A) and direction of the PAWS. The seven crossings that are the subject of this request are:

- Dije Court—USDOT Number 922847D—MP 203.95—pedestrian—3 PAWS
- El Portal—USDOT Number 922848K—MP 204.04—pedestrian—2 PAWS
- Corto Lane—USDOT Number 026977D—MP 204.56—pedestrian—3 PAWS
- Pier Service Road—USDOT Number 026997P—MP 204.73—private—4 PAWS
- T Street—USDOT Number 922849S—MP 205.16—pedestrian—3 PAWS
- Lost Winds—USDOT Number 922850L—MP 205.56—pedestrian—2 PAWS
- Calafia—USDOT Number 026637S—MP 206.00—pedestrian—2 PAWS

In support of its request, Petitioners submitted maintenance, communication, and malfunction/response plans for the PAWS.

In its February 26, 2024, addendum, Petitioners note their plans to augment the existing fencing system along “the beach trail from Mile Post 203.71 . . . to Mile Post 206.00.” They explain that the plan “is in response to the current deficiency in fencing elevation along certain portions of the trail and is intended to improve the public safety of the area.”

[Docket Number FRA-2007-28454]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on January 23, 2024, and February 13, 2024, Union Pacific Railroad Company (UPRR) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 232 (Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment; End-of-Train Devices). The relevant Docket Number is FRA-2007-28454.

Specifically, UPRR requests to extend its existing waiver in this docket, which provides conditional relief from the requirements for performing the single car air brake test (SCABT) as prescribed in 49 CFR 232.305(b)(2), *Single car air*

brake tests. The relief allows UPRR to replace non-FRA condemnable wheelsets on railcars as part of an in-train wheelset replacement program at North Platte, Nebraska; South Morrill, Nebraska; and Roseville, California, without the need to also perform the SCABT as required, if the car has not received a SCABT within the previous 12 months.

In support of its request, UPRR states that the in-train repair “wheel change outs have allowed for a reduced stress state[,] resulting in fewer derailments attributed to broken rails, joint bars, and other track infrastructure deterioration.” UPRR also asserts that there has been a “41% reduction in wheel, axle, and bearing related incidents” on UPRR.

[Docket Number FRA-2024-0029]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on February 12, 2024, Strasburg Rail Road Company (SRC) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 240 (Qualification and Certification of Locomotive Engineers). FRA assigned the petition Docket Number FRA-2024-0029.

Specifically, SRC requests relief from § 240.201, which requires that only certified persons operate locomotives and trains. The relief would allow noncertified persons to operate a historic locomotive as part of a visitor experience program, under the supervision of qualified personnel. In support of its petition, SRC notes that the relief would only apply to persons participating in the program, and that participants would be 18 years of age or older and under the direct supervision of a certified and qualified locomotive engineer. Further, all movements would take place during daylight hours and at restricted speed on approximately one mile of track, and no public grade crossings will be traversed.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
