BILLING CODE 4310-10-M

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Docket Number FV-02-335]

United States Standards for Grades of Apple Juice from Concentrate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Reopening and extension of the comment period.

SUMMARY: Notice is hereby given that the comment period on the proposed notice to create a new United States Standard for Grades of Apple Juice from Concentrate is reopened and extended.

DATES: Comments may be submitted on or before April 19, 2002.

ADDRESSES: Written comments may be submitted to: Lydia E. Berry, Processed Products Branch, Fruit and Vegetable Programs, Agricultural Marketing Service, U.S. Department of Agriculture, STOP 0247, 1400 Independence Avenue, SW., Washington, DC 20250-0247; fax (202) 690-1087; or e-mail lydia.berry@usda.gov. Comments should reference the date and page of this issue of the **Federal Register**. All comments received will be made available for public inspection at the address listed above during regular business hours and on the Internet.

The draft of the United States Standards for Grades of Apple Juice from Concentrate is available either through the address cited above or by accessing the AMS Home Page on the Internet at: www.ams.usda.gov/fv/ppb.html. Any comments received, regarding this proposed standard will also be posted on that site.

FOR FURTHER INFORMATION CONTACT: Lydia E. Berry at (202) 720-5021 or e-mail at lydia.berry@usda.gov.

SUPPLEMENTARY INFORMATION: A notice was published in the **Federal Register** (66 FR 58430 to 58431; November 21, 2001) requesting comments on a proposal to create a United States Standard for Grades of Apple Juice From Concentrate. The action would create grade standards for apple juice

from concentrate that will include a description of the product, style, grades, ascertaining the grade by sample, and ascertaining the grade by lot. The proposed standard would provide a common language for trade, a means of measuring value in the marketing of apple juice from concentrate, and provide guidance in the effective utilization of apple juice from concentrate.

Congressional representatives representing a major apple producing area requested that additional time be provided for interested persons to comment on the proposed standard. The Congressmen believe that extending the comment period will enable the many growers and processors in their districts that have voiced their concern to their offices to respond to our solicitation for comments.

After reviewing the request, the Department is reopening and extending the common period in order to allow sufficient time for all interested persons to file comments.

This notice provides for a 30 day comment period for interested parties to comment on changes to the standards.

Dated: March 14, 2002.

A.J. Yates,

Administrator, Agricultural Marketing Services.

BILLING CODE 3410-02-M

DEPARTMENT OF AGRICULTURE

Forest Service

Lost Cabin Mine, Medicine Bow-Routt National Forests, Carbon County, WY

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service will prepare an Environmental Impact Statement (EIS) to assess and disclose the environmental effects of lode and placer exploration at the Lost Cabin Mine. The Lost Cabin Mine is located in Township 14 North, Range 86 West, Sections 1 and 12 in Carbon County, Wyoming. Mining operations would include repairing three existing shafts and obtaining ore samples from four un-patented lode claims. A small loader and track-hoe would be used to obtain the samples, and samples would be crushed on-site and transported from the area using four-wheel and six-wheel all terrain vehicles (ATV's). Approximately 1.6 miles of an existing, closed road (Way 4170) that historically accessed the mine area would need to

be widened and repaired to allow access to the site. Roughly 1/8 mile of road would also need to be constructed to link the four un-patented lode claim sites.

An historical search of Government Land Office plats indicate that a "wood road" accessed the mine site as early as 1899. By 1901, an "improved road" that accessed Vulcan Mountain from Saratoga, Wyoming was in place. This road also provided a direct link with the Southern Wyoming Tramway which carried mined ore to a smelter in Encampment, Wyoming. It further provided access to other major mining communities in the near vicinity. Although the road is depicted on Forest Service maps through 1956, more recent maps do not indicate that it is still a part of the Forest Transportation System.

The Lost Cabin Mine is located in the Mowry Peak inventoried roadless area, as described in Appendix G to the Final EIS for the Medicine Bow National Forest Land and Resource Management Plan. If the project is approved as proposed, the proponent would be allowed to widen and repair two miles of an existing, closed road and construct roughly 1/8 mile of road within the roadless area boundary. The EIS will comply with the requirements of the National Environmental Policy Act (42 U.S.C. sections 4321-4370a), the National Forest Management Act (16 U.S.C. 1600-1614), and the U.S. Mining Laws (30 U.S.C. 21-54), and their implementing regulations.

PROJECT PURPOSE: The purpose of the Lost Cabin Mine analysis is to determine how the surface use connected with operations authorized by the United States mining laws (30 U.S.C. 21-54), which grant a statutory right to enter upon public lands to search for mineral deposits, shall be conducted to minimize adverse environmental impacts on National Forest System surface resources. It is not the purpose of the analysis to determine management of mineral resources. The responsibility for that determination lies with the Secretary of the Interior.

DATES: Comments concerning the proposal and the scope of the analysis will be accepted and considered at any time after publication of this notice in the **Federal Register** and prior to a decision being made. All comments and suggestions are welcome.

ADDRESSES: Send written comments to Melissa Martin, Medicine Bow-Routt National Forest Supervisor's Office, 2468 Jackson Street, Wyoming 82070. Electronic mail (e-mail) may be sent to mmmartin@fs.fed.us and FAX may be
