[WC Docket No. 02-112; FCC 02-336]

Section 272(f)(1) Sunset of the BOC Separate Affiliate and Related Requirements

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document addresses certain issues concerning the scope of the section 272(f)(1) sunset provisions and interprets section 272(f)(1) of the Act as providing for a state-by-state sunset of the separate affiliate and certain other requirements that apply to BOC provision of in-region, interLATA telecommunications services. It concludes that the meaning of section 272(f)(1) concerning the scope of the sunset is not clear and unambiguous and finds that this section is most reasonably interpreted as providing for a state-by-state sunset of the section 272 separate affiliate and related requirements. This approach is most consistent with the state-by-state in-region, interLATA authorization provisions in section 271 and the general structure of the Act.

Synopsis of the Memorandum Opinion and Order

1. In a rulemaking initiated in May of 2002, the Commission sought comment on whether the separate affiliate and related safeguards of section 272, that apply to Bell Operating Company (BOC) provision of in-region, interLATA telecommunications services, should sunset as provided in the statute or be extended by the Commission. It also sought comment on possible alternative safeguards for BOC provision of in-region, interLATA services after sunset of the 272 structural and related requirements. In this Order, the Commission addresses certain issues concerning the scope of the section 272(f)(1) sunset provisions raised by parties to this proceeding. The Commission interprets section 272(f)(1) of the Act as providing for a state-by-state sunset of the separate affiliate and certain other requirements that apply to BOC provision of in-region, interLATA telecommunications services. The Commission concludes that the meaning of section 272(f)(1) concerning the scope of the sunset is ambiguous and that this section is best interpreted as providing for a state-by-state sunset because this approach is consistent with the state-by-state in-region, interLATA authorization provisions in section 271 and the general structure of the Act.

2. *Background.* The section 272(f)(1) sunset language that the Commission addresses in this Order is part of the Act's provisions for allowing the BOCs to enter the in-region, interLATA long distance telecommunications market once they have opened their local exchange markets to competition. Prior to entering the in-region, interLATA market in a particular state, a BOC must demonstrate compliance with the requirements of section 271 in that state, and obtain Commission authorization to provide such services. Among other things, Section 271 requires that a BOC applying for in-region, interLATA entry demonstrate that it will provide the authorized interLATA service in compliance with the requirements of section 272. Section 272(a), among other things, provides that a BOC may not provide originating in-region, interLATA telecommunications services, subject to certain limited exceptions, unless it provides that service through one or more affiliates that are separate from the incumbent BOC. The separate affiliate and other related requirements of section 272 sunset as provided in section 272(f)(1).

3. In this Order, the Commission applies to section 272(f)(1) a two step process for statutory analysis. First, it

finds that the meaning of section 272(f)(1) is not clear and unambiguous. Then, after a careful review of other closely related provisions of the Act, its underlying purposes, and its legislative history, the Commission concludes that section 272(f)(1) is most reasonably interpreted as providing for a state-by-state sunset of the section 272 separate affiliate and related requirements. The Commission therefore rejects the contentions advanced by Verizon, BellSouth and USTA that section 272(f)(1) unambiguously provides for a region-wide sunset of the separate affiliate and related requirements three years after the first BOC or an affiliate, including another affiliated BOC within the region, receives its first section 271 authorization. For the same reasons, the Commission cannot accept SBC's narrower argument that this language unambiguously requires a BOC-by-BOC sunset three years after an individual BOC or its affiliated interexchange carrier receives its first section 271 authorization.

4. Section 272(f)(1) cannot properly be viewed as unambiguous so as to foreclose the interpretation the Commission adopts in this Order. Both of the readings of section 272(f)(1) advocated by the BOCs and USTA produce anomalous results when considered in conjunction with the requirements of section 271, which specifically references section 272. The anomalous results produced by both the region-wide and BOC-by-BOC interpretations of the sunset provisions in section 272(f)(1) flow from the interaction of the sunset provisions and the requirements of section 271. Both of the purported “plain language” readings of section 272(f)(1) would effectively read the requirement for a showing of compliance with the requirements of section 272 out of section 271 to a large extent. Under the region-wide sunset approach, this section 271 requirement would effectively be eliminated three years after a BOC received section 271 authority for the first state in the region, regardless of whether it had obtained section 271 authority in all of its other in-region states. The BOC-by-BOC approach could potentially have produced similarly anomalous results. In addition, the BOC-by-BOC and region-wide interpretations of the section 272 sunset appear to produce arbitrary results when applied in conjunction with the definition of a BOC contained in the Act. In particular, under this reading, the scope of the sunset turns on matters of corporate structure, which are subject to control by the BOCs. In contrast, the language
