Further, any other party engaged on behalf of the JPMC Affiliated QPAMs and the JPMC Related QPAMs who had responsibility for, or exercised authority in connection with the management of plan assets did not receive direct compensation, or knowingly receive indirect compensation, in connection with the conduct underlying the DPA.

(w) With respect to an asset manager that becomes a JPMC Affiliated QPAM after the effective date of this exemption by virtue of being acquired (in whole or in part) by JPMC or a subsidiary or affiliate of JPMC (a “newly-acquired JPMC Affiliated QPAM”), the newly-acquired JPMC Affiliated QPAM would not be precluded from relying on the exemptive relief provided by PTE 84–14 notwithstanding the Conviction as of the closing date for the acquisition; however, the operative terms of the exemption shall not apply to the newly-acquired JPMC Affiliated QPAM until a date that is six (6) months after the closing date for the acquisition. To that end, the newly-acquired JPMC Affiliated QPAM will initially submit to an audit pursuant to Section III(i) of this exemption as of the first audit period that begins following the closing date for the acquisition. The period covered by the audit must begin on the date on which the JPMC Affiliated QPAM was acquired.

**Effective Date:** This exemption is effective for a period of four years, beginning on January 10, 2023, and ending on January 9, 2027.

Accordingly, after considering the entire record developed in connection with the Applicant’s exemption application, the Department has determined to grant the exemption described above.

Signed at Washington, DC.

### SUPPLEMENTARY INFORMATION:

#### I. Introduction

The NRC has received, by letter dated March 9, 2022, an application from PG&E for renewal of SNM License No. SNM–2511 for the Diablo Canyon ISFSI for an additional 40 years (ADAMS Accession No. ML22068A189). The license currently authorizes PG&E to receive, possess, transfer, and store spent fuel from the DCNPP in the Diablo

Canyon ISFSI, located at the DCNPP site in San Luis Obispo County, California until the license term expires on March 22, 2024. This license renewal, if approved, would authorize PG&E to continue to store spent fuel at the Diablo Canyon ISFSI for an additional 40 years beyond its initial expiration, under the provisions of part 72 of title 10 of the Code of Federal Regulations (10 CFR), “Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater Than Class C Waste.”

Following an NRC administrative completeness review, documented in a letter to PG&E dated September 8, 2022 (ADAMS Accession No. ML22238A239), the NRC staff has determined that the renewal application contains sufficient information for the NRC staff to begin its technical review and is acceptable for docketing. The application has been docketed in Docket No. 72–26, the existing docket for SNM License No. SNM–2511. If the NRC approves the renewal application, the approval will be documented in the renewal of SNM License No. SNM–2511. The NRC will approve the license renewal application if it determines that the application meets the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the NRC’s regulations. These findings will be documented in a safety evaluation report. The NRC will complete an environmental evaluation, in accordance with 10 CFR part 51, to determine if the preparation of an environmental impact statement is warranted or if an environmental assessment and finding of no significant impact are appropriate. This action will be the subject of a subsequent notice in the **Federal Register**.

## II. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any person (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. If a petition is filed, the presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

Petitions must be filed no later than 60 days from the date of publication of this notice in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this

document. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii).

A State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h) no later than 60 days from the date of publication of this notice. Alternatively, a State, local governmental body, Federally recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

For information about filing a petition and about participation by a person not a party under 10 CFR 2.315, see ADAMS Accession No. ML20340A053 (<https://adamswebsearch2.nrc.gov/webSearch2/main.jsp?AccessionNumber=ML20340A053>) and on the NRC’s public website at <https://www.nrc.gov/about-nrc/regulatory/adjudicatory/hearing.html#participate>.

## III. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings including documents filed by an interested State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof that requests to participate under 10 CFR 2.315(c), must be filed in accordance with 10 CFR 2.302. The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases, to mail copies on electronic storage media, unless an exemption permitting an alternative filing method, as further discussed, is granted. Detailed guidance on electronic submissions is located in the “Guidance for Electronic Submissions to the NRC” (ADAMS Accession No. ML13031A056) and on the NRC’s public website at <https://www.nrc.gov/site-help/e-submittals.html>.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at [Hearing.Docket@nrc.gov](mailto:Hearing.Docket@nrc.gov), or by telephone at 301–415–1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other

adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC’s public website at <https://www.nrc.gov/site-help/e-submittals/getting-started.html>. After a digital ID certificate is obtained and a docket created, the participant must submit adjudicatory documents in Portable Document Format. Guidance on submissions is available on the NRC’s public website at <https://www.nrc.gov/site-help/electronic-sub-ref-mat.html>. A filing is considered complete at the time the document is submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E Filing system no later than 11:59 p.m. ET on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email that provides access to the document to the NRC’s Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC’s adjudicatory E-Filing system may seek assistance by contacting the NRC’s Electronic Filing Help Desk through the “Contact Us” link located on the NRC’s public website at <https://www.nrc.gov/site-help/e-submittals.html>, by email to [MSHD.Resource@nrc.gov](mailto:MSHD.Resource@nrc.gov), or by a toll-free call at 1 866 672–7640. The NRC Electronic Filing Help Desk is available between 9:00 a.m. and 6:00 p.m., ET, Monday through Friday, except Federal holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)–(d). Participants filing

adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is publicly available at <https://adams.nrc.gov/ehd>, unless excluded pursuant to an order of the presiding officer. If you do not have an NRC-issued digital ID certificate as previously described, click "cancel" when the link requests certificates and you will be automatically directed to the NRC's electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their filings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants should not include copyrighted materials in their submission.

Dated: January 5, 2023.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-073; NRC-2022-0173]

### GE-Hitachi Nuclear Energy Americas, LLC; GE-Hitachi Nuclear Test Reactor

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License renewal application; docketing; opportunity to request a hearing and to petition for leave to intervene; order imposing procedures.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) staff accepts,

dockets, and is considering an application for the renewal of Facility Operating License No. R-33, submitted by GE-Hitachi Nuclear Energy Americas, LLC (the licensee), dated November 19, 2020, as supplemented. The renewed license would authorize the licensee to operate the GE-Hitachi Nuclear Test Reactor at a maximum steady-state thermal power of 100 kilowatts for an additional 20 years from the date of issuance. The GE-Hitachi Nuclear Test Reactor is located at the GE Hitachi Nuclear Energy, Vallecitos Nuclear Center in Sunol, California. Because this application contains sensitive unclassified non-safeguards information (SUNSI), an order imposes procedures to obtain access to SUNSI for contention preparation.

**DATES:** A request for a hearing or petition for leave to intervene must be filed by March 13, 2023. Any potential party as defined in section 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR) who believes access to SUNSI is necessary to respond to this notice must request document access by January 20, 2023.

#### SUPPLEMENTARY INFORMATION:

### I. Introduction

On November 19, 2020, as supplemented by various letters referenced in the "Availability of Documents" section of this document, GE-Hitachi Nuclear Energy Americas, LLC filed with the NRC pursuant to Section 104 of the Atomic Energy Act of 1954, as amended, and part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," an application to renew Facility Operating License No. R-33 for the GE-Hitachi Nuclear Test Reactor located in Sunol, California.

Based on its initial review of the application, as supplemented, the NRC staff has determined that the licensee has submitted sufficient information in accordance with 10 CFR 50.33 and 50.34 to enable the staff to undertake a review of the application, and that the application is therefore acceptable for docketing. The current Docket No. 50-073 for Facility Operating License No. R-33 will be retained. The determination to accept the application for docketing does not constitute a determination that a renewed license should be issued and does not preclude the NRC staff from requesting additional information as the review proceeds. Prior to a decision to renew the license, the NRC will make the findings required by the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations.
