DEPARTMENT OF LABOR

Employment and Training Administration

Labor Surplus Area Classification Under Executive Orders 12073 and 10582

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice

SUMMARY: The purpose of this notice is to announce the annual list of labor surplus areas for Fiscal Year (FY) 2016.

DATES: *Effective Date:* The annual list of labor surplus areas is effective October 1, 2015, for all states, the District of Columbia, and Puerto Rico.

FOR FURTHER INFORMATION CONTACT: Samuel Wright, Office of Workforce Investment, Employment and Training Administration, 200 Constitution Avenue NW., Room C-4514, Washington, DC 20210. Telephone: (202) 693-2870 (This is not a toll-free number).

SUPPLEMENTARY INFORMATION: The Department of Labor's regulations implementing Executive Orders 12073 and 10582 are set forth at 20 CFR part 654, subpart A. These regulations require the Employment and Training Administration (ETA) to classify jurisdictions as labor surplus areas pursuant to the criteria specified in the regulations, and to publish annually a list of labor surplus areas. Pursuant to those regulations, ETA is hereby publishing the annual list of labor surplus areas. In addition, the regulations provide exceptional circumstance criteria for classifying labor surplus areas when catastrophic events, such as natural disasters, plant closings, and contract cancellations are expected to have a long-term impact on labor market area conditions, discounting temporary or seasonal factors.

Eligible Labor Surplus Areas

A Labor Surplus Area (LSA) is a civil jurisdiction that has a civilian average annual unemployment rate during the previous two calendar years of 20 percent or more above the average annual civilian unemployment rate for all states during the same 24-month

reference period. ETA uses only official unemployment estimates provided by the Bureau of Labor Statistics in making these classifications. The average unemployment rate for all states includes data for the Commonwealth of Puerto Rico. LSA classification criteria stipulate a civil jurisdiction must have a "floor unemployment rate" of 6.0% or higher to be classified a LSA. Any civil jurisdiction that has a "ceiling unemployment rate" of 10% or higher is classified a LSA.

Civil jurisdictions are defined as follows:

1. A city of at least 25,000 population on the basis of the most recently available estimates from the Bureau of the Census; or

2. A town or township in the States of Michigan, New Jersey, New York, or Pennsylvania of 25,000 or more population and which possess powers and functions similar to those of cities.

3. All counties, except for the following:

(a) those counties which contain any type of civil jurisdictions defined in "1" or "2" above,

(b) a county in the States of Connecticut, Massachusetts, and Rhode Island.

4. A "balance of county" consisting of a county less any component cities and townships identified in "1" or "2" above; or

5. A county equivalent which is a town in the States of Connecticut, Massachusetts, and Rhode Island, or a municipio in the Commonwealth of Puerto Rico.

Procedures for Classifying Labor Surplus Areas

The Department of Labor (DOL) issues the LSA list on a fiscal year basis. The list becomes effective each October 1, and remains in effect through the following September 30. The reference period used in preparing the current list was January 2013 through December 2014. The national average unemployment rate (including Puerto Rico) during this period was rounded to 6.82 percent. Twenty percent higher than the national unemployment rate is 8.18 percent. Therefore, areas included on the FY 2016 LSA list had a rounded unemployment rate for the reference period of 8.18 percent or higher. To ensure that all areas classified as labor surplus meet the requirements, when a city is part of a county and meets the unemployment qualifier as a LSA, that city is identified in the LSA list, the balance of county, not the entire county, will be identified as LSAs if the balance of county also meets the LSA unemployment criteria. The FY 2016

LSA list, statistical data on the current and some previous year's LSAs, and the list of LSAs in Puerto Rico are available at ETA's LSA Web site <http://www.doleta.gov/programs/lsa.cfm>.

Petition for Exceptional Circumstance Consideration

The classification procedures also provide criteria for the designation of LSAs under exceptional circumstances criteria. These procedures permit the regular classification criteria to be waived when an area experiences a significant increase in unemployment which is not temporary or seasonal and which was not reflected in the data for the 2-year reference period. Under the program's exceptional circumstance procedures, LSA classifications can be made for civil jurisdictions, Metropolitan Statistical Areas or Combined Statistical Areas, as defined by the U.S. Office of Management and Budget. In order for an area to be classified as a LSA under the exceptional circumstance criteria, the state workforce agency must submit a petition requesting such classification to the Department of Labor's ETA. The current criteria for an exceptional circumstance classification are,

(1) an area's unemployment rate is at least 8.18 percent for each of the three most recent months;

(2) a projected unemployment rate of at least 8.18 percent for each of the next 12 months; and

(3) documentation that the exceptional circumstance event has occurred. The state workforce agency may file petitions on behalf of civil jurisdictions, Metropolitan Statistical Areas, or Micropolitan Statistical Areas.

The addresses of state workforce agencies are available on the ETA Web site at: <http://www.doleta.gov/programs/lsa.cfm> and https://winwin.workforce3one.org/view/Labor_Surplus_Area_List_Issued/info. State Workforce Agencies may submit petitions in electronic format to wright.samuel.e@dol.gov, or in hard copy to the U.S. Department of Labor, Employment and Training Administration, Office of Workforce Investment, 200 Constitution Avenue NW., Room C-4514, Washington, DC 20210, Attention Samuel Wright. Data collection for the petition is approved under OMB 1205-0207, expiration date March 31, 2016.

Portia Wu,

Assistant Secretary for Employment and Training Administration.

SUPPLEMENTARY INFORMATION:

I. Background: In June 2014, ODEP announced the availability of funds for two cooperative agreements to conduct pilot projects to research, develop, test and, in coordination with DOL, evaluate innovative systems models for providing inclusive integrated education and career development services to youth and young adults with disabilities. In September of 2014, ODEP competitively selected Onondaga Community College and Pellissippi State Community College for the Pathways to Careers Grant Program. The program models are designed to (1) increase credential and job attainment of students with disabilities, (2) increase their job placement, and (3) decrease the wage earning differential between students with and without disabilities, and between students with different types of disabilities.

The grantees are expected to design approaches that work to shift practice and policy across the institution. This involves transforming the entire college's approach for providing services, as opposed to a single division, and enlisting support from and engagement of administrators, deans, department chairs, faculty, student services, and other divisions that have a role in ensuring students' success. It is expected that grantees will leverage their partnerships and relationships with national affiliates, association members or business organizations, and a variety of other entities including the public workforce system. Grantees are also required to capture and use data to assess and manage their program performance, and to participate in an independent evaluation.

ODEP has oversight responsibility for the Pathways to Careers Grant Program. The Chief Evaluation Office of DOL is conducting the evaluation of the Pathways to Careers Grant Program. The evaluation consists of an implementation study and a descriptive outcomes study. The implementation study will document the institutional change at the two colleges; assess the fidelity of the implemented programs to the intended program model; assess the models for replicability and scalability; and determine the extent to which the grantees used Universal Design for Learning (UDL) principles and the Guideposts for Success in the development and operation of their programs. The outcomes study will document PTC participant outcomes, examine the extent to which the
