

attempted and completed Group A crimes; provides crimes against society; includes victim-to-offender data, circumstance, drug-related offenses, offenders suspected use of drugs, and expanded computer crime; and provides updated reports tied directly to the original incident. The Group A offense categories include animal cruelty; arson; assault offenses; bribery; burglary/breaking and entering; commerce violations;* counterfeiting/forgery; destruction/damage/vandalism of property; drug/narcotic offenses; embezzlement; espionage;* extortion/blackmail; fraud offenses; fugitive offenses;* gambling offenses; homicide offenses; human trafficking; immigration violations;* kidnapping/abduction; larceny/theft offenses; motor vehicle theft; pornography/obscene material; prostitution offenses; robbery; sex offenses; stolen property offenses; treason;* and weapon law violations. The 13 Group B offense categories, for which only arrest data are collected, include bad checks; bond default;* curfew/loitering/vagrancy violations; disorderly conduct; driving under the influence; drunkenness; family offenses, nonviolent; federal resource violation;* liquor law violations; peeping tom; perjury;* trespass of real property; and all other offenses. (Offense categories followed by an asterisk (*) denote those reported by federal and tribal LEAs only.) In 2019, the NIBRS began collecting additional data values to capture information on domestic violence, cargo theft, and negligent manslaughter.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated number of LEAs submitting data to the FBI UCR Program via NIBRS is 8,656. The FBI designed NIBRS to generate data as a byproduct of federal, state, and local automated RMS. Many LEAs have RMS capable of producing a myriad of statistics to meet their particular needs. LEAs forward only the data required by NIBRS to participate in the FBI UCR Program. Each month, it takes approximately two hours for an average respondent to respond, which is an annual burden of 24 hours. Two hours is the time required for a law enforcement agency's RMS to download the NIBRS data and send the information to the state UCR program (if applicable). The state UCR program then forwards the data to the FBI.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated annual public burden associated with the NIBRS data collection is 207,744 hours (8,656 LEAs

× 24 hours annually = 207,744 total annual hours).

Notice of a Change in Status of an Extended Benefit (EB) Program for Utah and Alabama

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

This notice announces a change in benefit period eligibility under the EB program for Utah and Alabama.

The following change has occurred since the publication of the last notice regarding the States' EB status:

- Utah's 13-week insured unemployment rate (IUR) for the week ending August 22, 2020, was 4.10 percent, falling below the 5.00 percent threshold necessary to remain "on" EB. The state will remain in an "off" period for a minimum of 13 weeks.

- Alabama's 13-week IUR for the week ending September 5, 2020, was 4.55 percent, falling below the 5.00 percent threshold necessary to remain "on" EB. Therefore, the EB period for Alabama will end on September 26, 2020. The state will remain in an "off" period for a minimum of 13 weeks.
