

information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Wendy Hoffman, Office of Emergency Management, Mail Code 5104A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-8794; email address: hoffman.wendy@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through September 30, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

This notice allows 60 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <https://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate forms of information technology. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Information collection for on-site documentation of Risk Management Plans (RMPs) is authorized by Clean Air Act (CAA) sections 112(r)(7)(B)(i) and (ii), which state, "The Administrator shall promulgate reasonable regulations and appropriate

guidance to provide . . . for the prevention and detection of accidental releases of regulated substances" and, "The regulations . . . shall require the owner or operator . . . to prepare and implement a risk management plan to detect and prevent or minimize accidental releases" Information collection for submitting an RMP is authorized under CAA section 112(r)(7)(B)(iii), which states in relevant part, "The owner or operator of each stationary source . . . shall register a risk management plan . . . with the Administrator before the effective date of the regulations . . . in such form and manner as the Administrator shall, by rule, require . . . and shall be available to the public under section 114(c)." Information collection for on-site documentation and submittal of RMPs also is authorized by CAA section 114(a)(1). State and local authorities use the information in RMPs to modify and enhance their community response plans. The agencies implementing the Risk Management Program use RMPs to evaluate compliance with the Chemical Accident Provisions in 40 CFR part 68 and to identify sources for inspection that may pose significant risks to the community. Citizens may use the information to assess chemical hazards in their communities.

This request for comments relates to the renewal of the existing approved ICR. The burden estimates, numbers and types of respondents, wage rates, and unit and total costs for this ICR renewal will be revised and updated, if needed, based on comments received during the 60-day comment period.

Form numbers: None.

Respondents/affected entities:

Stationary sources that manufacture, react, mix, store, or use substances in processes that require equipment designed, constructed, installed, operated, or maintained in specific ways to prevent accidental releases and ensure safe operations.

Respondent's obligation to respond: Mandatory under CAA section 112(r)(7)(B)(iii).

Estimated number of respondents: 14,513 (total).

Frequency of response: Sources are required to register and submit an RMP once every five years unless there are significant changes in the information provided.

Total estimated burden: 667,639 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$52,611,420 (per year), which includes \$36,792 annual operation & maintenance costs.

Changes in the estimates: There is a decrease of 109,098 hours in the total

estimated respondent burden compared with the ICR currently approved by OMB due to two reasons. First, the burden varies from one ICR renewal to the next due to sources' different resubmission and other regulatory deadlines. Therefore, the burden changes each year depending on how many sources must submit their RMP and comply with certain prevention program requirements. Second, the number of regulated sources fluctuates. It is lower than in the previous ICR (12,074 vs. 12,341) due to the net change in the number of sources, as well as a lower number of new facilities anticipated to become subject to the RMP requirements during the three-year renewal period.

Shanna Ratnesar-Shumate,

Deputy Director, Office of Emergency Management.

Proposed Information Collection Request; Comment Request: Information Collection Request Submitted to OMB for Review and Approval; Notification of Episodic Releases of Oil and Hazardous Substances (Renewal) EPA ICR Number 1049.16, OMB Control Number 2050-0046

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), Notification of Episodic Releases of Oil and Hazardous Substances (Renewal) (EPA ICR Number 1049.16, OMB Control Number 2050-0046) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through November 30, 2025. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before June 16, 2025.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-SFUND-2013-0549, to: EPA online using <https://www.regulations.gov> (our preferred method), by email to superfund.docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and OMB via email to oira_submission@omb.eop.gov. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Wendy Hoffman, Office of Emergency Management, Mail Code 5104A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-8794; email address: hoffman.wendy@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov> or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <https://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the

comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Section 103(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, requires the person in charge of a facility or vessel to immediately notify the National Response Center (NRC) of a hazardous substance release into the environment if the amount of the release equals or exceeds the substance's reportable quantity (RQ) limit. The RQs for the hazardous substance can be found in table 302.4 of 40 CFR 302.4. Section 311 of the Clean Water Act (CWA) as amended, requires the person in charge of a facility or vessel to immediately notify the NRC of an oil spill into U.S. navigable waters if the spill causes a sheen, violates applicable water quality standards, or causes a sludge or emulsion to be deposited beneath the surface of the water or upon adjoining shorelines. The reporting of a hazardous substance release that is at or above the substance's RQ allows the Federal government to determine whether a Federal response action is required to control or mitigate any potential adverse effects to public health or welfare or the environment. Likewise, the reporting of oil spills allows the Federal government to determine whether cleaning up the oil spill is required to mitigate or prevent damage to public health or welfare or the environment. The hazardous substance release and oil discharge information collected under CERCLA section 103(a) and CWA section 311 also is available to EPA program offices and other Federal agencies that use the information to evaluate the potential need for additional regulations, new permitting requirements for specific substances or sources, or improved emergency response planning. Release notification information, which is stored in WebEOC, a web-based crisis management system which supports response management for significant incidents and daily operations in the Regional Response Centers and EPA's Headquarters Emergency Operations Center (EOC), is available to state and local government authorities as well as the general public. State and local government authorities and the regulated community use release information for purposes of local emergency response planning. Members

of the general public, who have access to release information through the Freedom of Information Act, may request release information for purposes of maintaining an awareness of what types of releases are occurring in different localities and what actions, if any, are being taken to protect public health and welfare and the environment.

The burden estimates, numbers and types of respondents, wage rates and unit and total costs for this ICR renewal will be revised and updated if needed during the 60-day comment period while the ICR Supporting statement is undergoing review at OMB.

Form numbers: None.

Respondents/affected entities:

Facilities and vessels that may have releases of any hazardous substances or oil at or above its RQ.

Respondent's obligation to respond: Mandatory under CERCLA section 103(a).

Estimated number of respondents: 21,789.

Frequency of response: As releases occur from a facility or a vessel.

Total estimated burden: 22,225 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,486,297 (per year), which includes no capital or operation and maintenance costs associated with this ICR.

Changes in estimates: Any change in burden or cost resulting from the 60-day OMB review period will be described and explained in this section when the updated ICR Supporting Statement is completed.

Shanna Ratnesar-Shumate,

Deputy Director, Office of Emergency Management.
