

**DEPARTMENT OF LABOR****Employment and Training  
Administration****[NAFTA-06295]****Sun Belt Interplex, Inc., Tamarac, FL;  
Notice of Termination of Investigation**

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182) concerning transitional adjustment assistance, hereinafter called (NAFTA-TAA), and in accordance with section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), an investigation was initiated on April 22, 2002, in response to a petition filed by a company official on behalf of workers at Sun Belt Interplex, Inc., Tamarac, Florida.

The petitioner has requested that the petition be withdrawn. Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC, this 15th day of July, 2002.

**BILLING CODE 4510-30-P****DEPARTMENT OF LABOR****Employment and Training  
Administration****[NAFTA-6329]****Tyco International, White City, OR;  
Notice of Termination of Investigation**

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182) concerning transitional adjustment assistance, hereinafter called NAFTA-TAA and in accordance with section 250(a), subchapter D, chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), an investigation was initiated on May 30, 2001, in response to a petition filed by the company on behalf of workers at Tyco International, White City, Oregon.

The investigation revealed that this petition is a copy of the petition for which the Department issued a negative determination on November 7, 2001 (NAFTA-4935). Consequently, further investigation in this case would serve no purpose; and the investigation has been terminated.

Signed in Washington, DC, this 15th day of July, 2002.

**BILLING CODE 4510-30-P****NUCLEAR REGULATORY  
COMMISSION****[Docket Nos. 50-528, 50-529, and 50-530]****Arizona Public Service Company, Palo  
Verde Nuclear Generating Station,  
Units 1, 2, and 3; Notice of  
Consideration of Approval of Transfer  
of Facility Operating Licenses and  
Conforming Amendments and  
Opportunity for a Hearing**

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Facility Operating Licenses Nos. NPF-41, NPF-51, and NPF-74 for the Palo Verde Nuclear Generating Station, Units 1, 2, and 3 (Palo Verde) to the extent held by Arizona Public Service Company (APS), as a co-owner

(29.1 percent interest) and the licensed operator of Palo Verde. The transfer would be to Pinnacle West Energy Corporation (PWE). The Commission is also considering amending the licenses, including the antitrust conditions attached thereto, for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by APS, PWE would acquire APS's current 29.1 percent ownership interest in Palo Verde and become responsible for the operation and maintenance of Palo Verde, following approval of the proposed license transfers. The remaining 70.9 percent ownership interest in Palo Verde would remain with the following six other current licensees of Palo Verde: Salt River Project Agriculture Improvement and Power District (17.49 percent interest), El Paso Electric Company (15.80 percent interest), Southern California Edison Company (15.80 percent interest), Public Service Company of New Mexico (10.20 percent interest), Southern California Public Power Authority (5.91 percent interest), and Los Angeles Department of Water and Power (5.70 percent interest). No physical or operational changes to Palo Verde are being proposed in the application. The present plant organization, the oversight organizations, and the engineering and support organizations will be transferred from APS to PWE essentially intact.

The proposed amendments would generally replace references to APS in the licenses, including the antitrust conditions attached thereto, with references to PWE to reflect the proposed transfer.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific
