B. Walter and Company, Wabash, IN;
Notice of Revised Determination on
Reconsideration

By application dated May 26, 2008, a petitioner requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA), applicable to workers and former workers of the subject firm.

The initial investigation initiated on March 17, 2008, resulted in a negative

determination issued on May 15, 2008, was based on the finding that imports of metal stampings did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred. The denial notice was published in the **Federal Register** on May 29, 2008 (73 FR 30978).

In the request for reconsideration, the petitioner provided new information regarding a customer of the subject firm, which was recently certified eligible for TAA.

Upon further investigation it was determined that B. Walter and Company, Wabash, Indiana supplied metal stampings that were used in the production of wooden furniture, and a loss of business with domestic manufacturers (whose workers were certified eligible to apply for adjustment assistance) contributed importantly to the workers separation or threat of separation. The parts supplied were related to the articles that were the basis of certification.

In accordance with Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as
