

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701–7772), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Code of Federal Regulations, § 352.30 addresses the movement into or through the United States of untreated oranges, tangerines, and grapefruit from Mexico that transit the United States en route to foreign countries.

Need and Use of the Information: The Animal and Plant Health Inspection Service (APHIS) is taking action to provide additional protection against the possible introduction of fruit flies via untreated oranges, tangerines, and grapefruit from Mexico that transit the United States. Untreated oranges, tangerines, and grapefruit from Mexico transiting the United States for export to another country must be shipped in sealed, refrigerated container and insect-proof packaging. A transportation and exportation permit must be issued by an inspector for shipments of untreated oranges, tangerines, and grapefruit from Mexico. Without the information, APHIS would not be able to allow the movement of untreated citrus to transit the United States to foreign countries.

Description of Respondents: Business or other for-profit; Individual or households.

Number of Respondents: 25.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 13.

SUPPLEMENTARY INFORMATION:

Title: Supplemental Nutrition Assistance Program: State Agency Options.

OMB Number: 0584–0496.

Form Number: None.

Expiration Date: 10/31/2010.

Type of Request: Extension without change of a currently approved information collection.

Abstract: This collection is an extension without change for the State

Agency Options, Standard Utility Allowance and Self Employment Costs, burden calculations for SNAP, formerly known as the Food Stamp Program. The program's name was changed by the Food, Conservation, and Energy Act of 2008 (Pub. L. 110–246) (FCEA) on October 1, 2008, to reflect the fact that participants no longer receive stamps or coupons to make food purchases and to emphasize the nutritional aspect of the program. To comply with current law, FNS is using the new program name SNAP in this extension of information collection for OMB No. 0584–0496. It should be noted, however, that the program regulations at 7 CFR parts 271–285 have not yet been revised to reflect the new name.

The SNAP regulations at 7 CFR part 273 contain the requirements for the application, certification and continued eligibility for SNAP benefits. On January 29, 2010, FNS published a final rule in the **Federal Register** (75 FR 4912), which codified the eligibility and certification provisions of the Farm Security and Rural Investment Act of 2002 (FSRIA). This notice extends the collection burden, which was recently revised and approved by OMB on March 26, 2010, to account for changes required by the final FSRIA rule.

Establishing and reviewing standard utility allowances. The regulations at 7 CFR 273.9(d)(6)(iii) allow State agencies to establish standard utility allowances (SUA) in place of the actual utility costs incurred by a household. Once SUAs are established, State agencies are required to review and adjust SUAs annually to reflect changes in the costs of utilities. Many State agencies already have one or more approved standards, which they update annually. State agencies may use information already available from case files, quality control reviews or other sources and from utility companies. State agencies may make adjustments based on cost-of-living increases. The information will be used to establish standards to be used in place of actual utility costs in the computation of the excess shelter deduction. State agencies are required to submit the amounts of these standards and methodologies used in developing and updating the standards to FNS when they are developed or changed.

Estimates of burden: Currently 52 State agencies have a standard that includes heating or cooling costs and 41 have a standard for utility costs other than heating or cooling. In addition, 51 State agencies have a telephone allowance standard. We estimate a minimum of 2.5 hours annually to make this review and adjustment (2.5 hours × 52 State agencies = 130 hours). Total

burden for this provision is estimated to be 130 hours per year.

Self-employment costs. The regulations at 7 CFR 273.11(b) allow self-employment gross income to be reduced by the cost of producing such income. The regulations allow the State agencies, with approval from FNS, to establish the methodology for offsetting the costs of producing self-employment income, as long as the procedure does not increase program costs. State agencies may submit a request to FNS to use a method of producing a reasonable estimate of the costs of producing self-employment income in lieu of calculating the actual costs for each household with such income. Different methods may be proposed for different types of self-employment. The proposal shall include a description of the proposed method, the number and type of households and percent of the caseload affected, and documentation

indicating that the proposed procedure will not increase program costs. State agencies may collect this data from household case records or other sources that may be available.

Estimates of burden: We estimate that 10 State agencies will submit a request of this type each year for the next three years. It is estimated that these States will incur a one-time burden of at least 10 working hours gathering and analyzing data, developing the methodology, determining the cost implication, and submitting a request to FNS for a total burden of 100 hours annually (10 State agencies × 10 working hours = 100 burden hours). State agencies are not required to periodically review their approved methodologies. We do not anticipate that State agencies will voluntarily review their methodologies for change on a regular basis, thus burden is not being assessed for this purpose.

Recordkeeping burden only: Each State agency would be required to keep a record of the information gathered and submitted to FNS for the SUA and self-employment costs. We estimate this to be 7 minutes or .1169 hours per year for the 53 State agencies to equal a total of 6 burden hours annually (53 State agencies × .1169 hours = 6 hours annual burden).

Summary of burden hours:

Affected Public: State agencies and local governments administering the SNAP.

Estimated Number of Respondents: 53.

Estimated Number of Responses Per Respondent: 1.

Estimated Number of Responses: 115.

Estimated Hours per Response: 12.6.

Estimated Total Annual Burden on Respondents: 236.
