RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review, Request for Comments

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Railroad Retirement Board (RRB) is forwarding an Information Collection Request (ICR) to the Office of Information and Regulatory Affairs (OIRA), Office of Management and Budget (OMB). Our ICR describes the information we seek to collect from the public. Review and approval by OIRA ensure that we impose appropriate paperwork burdens.

The RRB invites comments on the proposed collections of information to determine (1) the practical utility of the collections; (2) the accuracy of the estimated burden of the collections; (3)

ways to enhance the quality, utility, and clarity of the information that is the subject of collection; and (4) ways to minimize the burden of collections on respondents, including the use of automated collection techniques or other forms of information technology. Comments to the RRB or OIRA must contain the OMB control number of the ICR. For proper consideration of your comments, it is best if the RRB and OIRA receive them within 30 days of the publication date.

1. *Title and purpose of information collection*: RUIA Investigations and Continuing Entitlement; OMB 3220–0025.

Under Section 1(k) of the Railroad Unemployment Insurance Act (RUIA) (45 U.S.C. 231), unemployment and sickness benefits are not payable for any day remuneration is payable or accrues to the claimant. Also, Section 4(a–1) of the RUIA provides that unemployment or sickness benefits are not payable for any day the claimant receives the same benefits under any law other than the RUIA. Under Railroad Retirement Board (RRB) regulation 20 CFR 322.4(a), a claimant's certification or statement on an RRB-provided claim form, that he or she did not work on any day claimed and did not receive income such as vacation pay or pay for time lost, shall constitute sufficient evidence unless there is conflicting evidence. Further, under 20 CFR 322.4(b), when there is a question raised as to whether or not remuneration is payable or has accrued to a claimant with respect to a claimed day(s), an investigation shall be made with a view to obtaining information sufficient for a finding. The RRB utilizes the following three forms to obtain information from railroad employers, nonrailroad employers, and claimants, that is needed to determine whether a claimed day(s) of unemployment or sickness were improperly or fraudulently claimed: Form ID–5i, Request for Employment Information; Form ID–5R (SUP), Report of Employees Paid RUIA Benefits for Every Day in Month Reported as Month of Creditable Service; and Form UI–48, Statement Regarding Benefits Claimed for Days Worked. Completion is voluntary. One response is requested of each respondent.

To qualify for unemployment or sickness benefits payable under Section 2 of the Railroad Unemployment Insurance Act (RUIA), a railroad employee must have certain qualifying earnings in the applicable base year. In addition, to qualify for *extended* or *accelerated* benefits under Section 2 of the RUIA, a railroad employee who has exhausted his or her rights to normal

benefits must have at least 10 years of railroad service (under certain conditions, military service may be credited as months of railroad service). Accelerated benefits are unemployment or sickness benefits that are payable to a railroad employee before the regular July 1 beginning date of a benefit year if an employee has 10 or more years of service and is *not* qualified for benefits in the current benefit year.

During the RUIA claims review process, the RRB may determine that unemployment or sickness benefits cannot be awarded because RRB records show insufficient qualifying service and/or compensation. When this occurs, the RRB allows the claimant the opportunity to provide additional information if they believe that the RRB service and compensation records are incorrect.

Depending on the circumstances, the RRB provides the following forms to obtain information needed to determine if a claimant has sufficient service or compensation to qualify for unemployment or sickness benefits. Form UI–9, *Statement of Employment and Wages*; Form UI–44, *Claim for Credit for Military Service*; Form ID–4U, *Advising of Service/Earnings Requirements for Unemployment Benefits*; and Form ID–4X, *Advising of Service/Earnings Requirements for Sickness Benefits*. Completion of these forms is required to obtain or retain a benefit. One response is required of each respondent.

Previous Requests for Comments: The RRB has already published the initial 60-day notice (89 FR 2259 on January 12, 2024) required by 44 U.S.C. 3506(c)(2). That request elicited no comments.

Information Collection Request (ICR)

Title: RUIA Investigations and Continuing Entitlement.

OMB Control Number: 3220–0025.

Forms submitted: UI–9, UI–44, UI–48, ID–4U, ID–4X, ID–5I, ID–5R (SUP).

Type of request: Revision of a currently approved collection.

Affected public: Private Sector; Businesses or other for profits.

Abstract: The information collection has two purposes. When RRB records indicate that railroad service and/or compensation is insufficient to qualify a claimant for unemployment or sickness benefits, the RRB obtains information needed to reconcile the compensation and/or service on record with that claimed by the employee. Other forms in the collection allow the RRB to determine whether unemployment or sickness benefits were improperly obtained.

Changes proposed: The RRB proposes no changes to Form UI-9, UI-44, ID-4U, ID-4X, and UI-48.

The RRB proposes the following changes to Form ID-5i:

- add a 30-day time sensitive response on page 1,
- page 2 modification to earnings sentence to include “if still employed, include earnings up to the current employment date.”,

- remove auto update of RRB letterhead address, phone number and email address,
- update RRB address to headquarters address,
- update RRB phone number to Unemployment and Programs Support Division,
- update RRB fax number to Unemployment and Programs Support Division,

- update RRB email address to Unemployment and Programs Support Division, and
- update RRB office hours.

The RRB proposes the following changes to ID-5R (SUP):

- change PRA/PA notice to update the officer title and
- update RRB zip code.

The burden estimate for the ICR is as follows:

Form No.	Annual responses	Time (minutes)	Burden (hours)
UI-9	69	10	11
UI-44	10	5	1
UI-48	14	12	3

ID-5i	** 50		12
ID-5R (SUP)	400	10	67
Total	1,603	349

* Private sector.

** State/local/etc.

2. Title and Purpose of information collection: Pension Plan Reports; OMB 3220-0089. Under Section 2(b) of the Railroad Retirement Act (RRA) (45 U.S.C. 231a), the Railroad Retirement Board (RRB) pays supplemental annuities to qualified RRB employee annuitants. A supplemental annuity, which is computed according to Section 3(e) of the RRA, can be paid at age 60 if the employee has at least 30 years of creditable railroad service or at age 65 if the employee has 25-29 years of railroad service. In addition to 25 years of service, a “current connection” with the railroad industry is required. Eligibility is further limited to employees who had at least 1 month of rail service before October 1981 and were awarded regular annuities after June 1966. Further, if an employee’s 65th birthday was prior to September 2, 1981, he or she must not have worked in rail service after certain closing dates (generally the last day of the month following the month in which age 65 is attained). Under Section 2(h)(2) of the RRA, the amount of the supplemental annuity is reduced if the employee receives monthly pension payments, or a lump-sum pension payment from a private pension from a railroad employer to the extent the payments are based on contributions from that

employer. The employee’s own contribution to their pension account does not cause a reduction. A private railroad employer pension is defined in 20 CFR 216.42.

The RRB requires the following information from railroad employers to calculate supplemental annuities: (a) the current status of railroad employer pension plans and whether such plans cause reductions to the supplemental annuity; (b) whether the employee receives monthly payments from a private railroad employer pension, elected to receive a lump sum in lieu of monthly pension payments from such a plan, or was required to receive a lump sum from such a plan due to the plan’s small benefit provision; and (c) the amount of the payments attributable to the railroad employer’s contributions. The requirement that railroad employers furnish pension information to the RRB is contained in 20 CFR 209.2.

The RRB currently utilizes Form G-88p and G-88p (internet), *Employer’s Supplemental Pension Report*, and Form G-88r, *Request for Information About New or Revised Employer Pension Plan*, to obtain the necessary information from railroad employers. One response is requested of each respondent. Completion is mandatory.

Previous Requests for Comments: The RRB has already published the initial 60-day notice (89 FR 2260 on January 12, 2024) required by 44 U.S.C. 3506(c)(2). That request elicited no comments.

Information Collection Request (ICR)

Title: Pension Plan Reports.

OMB Control Number: 3220-0089.

Forms submitted: G-88p and G-88r.

Type of request: Extension without change of a currently approved collection.

Affected public: Businesses or other for-profits.

Abstract: The Railroad Retirement Act provides for payment of a supplemental annuity to a qualified railroad retirement annuitant. The collection obtains information from the annuitant’s employer to determine (a) the existence of railroad employer pension plans and whether such plans, if they exist, require a reduction to supplemental annuities paid to the employer’s former employees and (b) the amount of supplemental annuities due railroad employees.

Changes proposed: The RRB proposes no changes to G-88P and G-88P (internet), and G-88R.

The burden estimate for the ICR is as follows:

Form No.	Annual responses	Time (minutes)	Burden (hours)
G-88p	100	8	13
G-88p (internet)	200	6	20

3. Title and Purpose of information collection: Job Information Report, OMB 3220-0193.

The Railroad Retirement Board (RRB) occupational disability standards allow the RRB to request job information from railroad employers to determine an applicant's eligibility for an occupational disability.

To determine an occupational disability, the RRB must obtain the employee's work history and establish if the employee is precluded from performing his or her regular railroad occupation. This is accomplished by comparing the restrictions caused by the impairment(s) against the employee's ability to perform his or her job duties.

To collect the information needed to determine the effect of a disability on an employee applicant's ability to work, the RRB utilizes Form G-251, *Vocational Report* (OMB 3220-0141) which is completed by the applicant.

Form G-251A, Railroad Job Information, requests railroad employers to provide information regarding whether the employee has been medically disqualified from their railroad occupation; a summary of the employee's duties; the machinery, tools and equipment used by the employee; the environmental conditions under which the employee performs their duties; all sensory requirements (vision, hearing, speech) needed to perform the employee's duties; the physical actions and amount of time (frequency) allotted for those actions that may be required by the employee to perform their duties during a typical work day; any permanent working accommodations an employer may have made due to the employee's disability; as well as any other relevant information they may choose to include. Completion is voluntary.

Previous Requests for Comments: The RRB has already published the initial

60-day notice (89 FR 2260 on January 12, 2024) required by 44 U.S.C. 3506(c)(2). That request elicited no comments.

Title: Job Information Report.

OMB Control Number: 3220-0193.

Form(s) submitted: G-251A.

Type of request: Revision of a currently approved collection.

Affected public: Businesses or other for profits.

Abstract: The collection obtains information used by the Railroad Retirement Board (RRB) to assist in determining whether a railroad employee is disabled from his or her regular occupation. It provides railroad employers with the opportunity to provide information to the RRB regarding the employee applicant's job duties.

Changes proposed: The RRB proposes no changes to Form G-251A.

The burden estimate for the ICR is as follows:

Form No.	Annual responses	Time (minutes)	Burden (hours)
G-251A	436	60	436

4. Title and Purpose of information collection: Self-Employment/Corporate Officer Work and Earnings Monitoring; OMB 3220-0202.

Section 2 of the Railroad Retirement Act (RRA) (45 U.S.C. 231) provides for the payment of disability annuities to qualified employees. Section 2 also provides that if the Railroad Retirement Board (RRB) receives a report of an annuitant working for a railroad or earning more than prescribed dollar amounts from either nonrailroad employment or self-employment, the annuity is no longer payable, or can be reduced, for the months worked. The regulations related to the nonpayment or reduction of the annuity by reason of work are prescribed in 20 CFR 220.160-164.

Some activities claimed by the applicant as "self-employment" may actually be employment for someone else (e.g., training officer, consultant, salesman). 20 CFR 216.22(c) states, for example, that an applicant is considered an employee, and not self-employed, when acting as a corporate officer, since the corporation is the applicant's

employer. Whether the RRB classifies a particular activity as self-employment or as work for an employer depends upon the circumstances in each case. The circumstances are prescribed in 20 CFR 216.21-216-23.

Certain types of work may actually indicate an annuitant's recovery from disability. Regulations related to an annuitant's recovery from disability for work are prescribed in 20 CFR 220.17-220-20.

In addition, the RRB conducts continuing disability reviews (also known as a CDR), to determine whether the annuitant continues to meet the disability requirements of the law. Payment of disability benefits and/or a beneficiary's period of disability will end if medical evidence or other information shows that an annuitant is not disabled under the standards prescribed in Section 2 of the RRA. Continuing disability reviews are generally conducted if one or more of the following conditions are met: (1) the annuitant is scheduled for a routine periodic review, (2) the annuitant returns to work and successfully

completes a trial work period, (3) substantial earnings are posted to the annuitant's wage record, or (4) information is received from the annuitant or a reliable source that the annuitant has recovered or returned to work. Provisions relating to when and how often the RRB conducts disability reviews are prescribed in 20 CFR 220.186.

To enhance program integrity activities, the RRB utilizes Form G-252, *Self-Employment/Corporate Officer Work and Earnings Monitoring*. Form G-252 obtains information from a disability annuitant who either claims to be self-employed or a corporate officer, or who the RRB determines to be self-employed or a corporate officer after a continuing disability review. The continuing disability review may be prompted by a report of work, return to railroad service, an allegation of a medical improvement or a routine disability review call-up. The information gathered is used to determine entitlement and/or continued entitlement to, and the amount of, the disability annuity, as prescribed in 20

CFR 220.176. Completion is required to retain benefits. One response is required of each respondent.

Previous Requests for Comments: The RRB has already published the initial 60-day notice (89 FR 2260 on January 12, 2024) required by 44 U.S.C. 3506(c)(2). That request elicited no comments.
