SUPPLEMENTARY INFORMATION:

Title of Collection: Equal Credit Opportunity Act (Regulation B).

OMB Control Number: 3170–0013.

Type of Review: Extension of a currently approved information collection.

Affected Public: Private sector: businesses or other for-profits.

Estimated Number of Respondents: 82,666,000.

Estimated Total Annual Burden Hours: 1,220,992.

Abstract: The Equal Credit Opportunity Act (ECOA) was enacted to ensure that credit is made available to all creditworthy applicants without discrimination on the basis of sex, marital status, race, color, religion, national origin, age, or other prohibited bases under the ECOA. The ECOA allows for creditors to collect information for self-testing against these criteria, while not allowing creditors to use this information in making credit decisions of applicants. For certain mortgage applications, the ECOA requires creditors to ask for some of the prohibited information for monitoring

purposes. Additionally, for certain mortgage applications, creditors are required to send a copy of any appraisal or written valuation used in the application process to the applicant in a timely fashion.

The ECOA also prescribes creditors must inform applicants of decisions made on credit applications. Particularly where creditors make adverse actions on credit applications or existing accounts, creditors must inform consumers as to why the adverse action was taken such that credit applicants can challenge errors or learn how to become more creditworthy. Creditors must retain all application information for 25 months including notices that they sent, and any information related to adverse actions. The ECOA requires creditors who furnish applicant information to a consumer reporting agency to reflect participation of the applicant's spouse if the spouse is permitted to use or is contractually liable on the account.

Type of Review: Extension of a currently approved information collection.

Affected Public: State, Local, and Tribal Governments; Federal Government.

Estimated Number of Respondents: 60.

Estimated Total Annual Burden Hours: 14.

Abstract: Section 1013(b)(3)(A) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act or Act) requires the Bureau to "facilitate the centralized collection of, monitoring of, and response to consumer complaints regarding consumer financial products or

services.”¹ The Act also requires the Bureau to “share consumer complaint information with prudential regulators, the Federal Trade Commission, other Federal agencies, and State agencies.”² To facilitate the collection of complaints, the Bureau accepts consumer complaints submitted by members of Congress on behalf of their constituents with the consumer’s express written authorization for the release of their personal information. In furtherance of its statutory mandates related to consumer complaints, the Bureau uses Government and Congressional Portal Boarding Forms (*i.e.*, Boarding Forms) to register users for access to secure, web-based portals. The Bureau has developed separate portals for congressional users and other government users as part of its secure web portal offerings (the Government Portal and the Congressional Portal, respectively).³

Through the Government Portal, government users can view consumer complaint information in a user-friendly format that allows easy review of complaints currently active in the Bureau process, complaints referred to a prudential Federal regulator, and other closed/archived complaints.

Through the Congressional Portal, members of Congress and authorized congressional office staff can view data associated with consumer complaints they submit on behalf of their constituents with the consumer’s express written authorization for the release of their personal information. The Congressional Portal only displays information about complaints submitted by the individual congressional office.

Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. - The voluntary standard is or will be in effect not later than June 27, 2022; and
- The voluntary standard is developed by ASTM International or such other standard development organization that the Commission determines to have met the intent of the PFCSA.
