

**List of Subjects in 50 CFR Part 622**

Commercial, Fisheries, Fishing, Gulf, Permits, Shrimp.

Dated: September 27, 2017.

**Samuel D. Rauch III,**

*Deputy Assistant Administrator for  
Regulatory Programs, National Marine  
Fisheries Service.*

For the reasons set out in the preamble, 50 CFR part 622 is proposed to be amended as follows:

**PART 622—FISHERIES OF THE  
CARIBBEAN, GULF, AND SOUTH  
ATLANTIC**

- 1. The authority citation for part 622 continues to read as follows:

**Authority:** 16 U.S.C. 1801 *et seq.*

- 2. In § 622.50, revise paragraph (b)(3)(ii), and add paragraphs (b)(3)(iii) and (e) to read as follows:

**§ 622.50 Permits, permit moratorium, and endorsements.**

\* \* \* \* \*

- (b) \* \* \*  
(3) \* \* \*

- (ii) Except as provided for in paragraph (b)(3)(iii) of this section, a

commercial vessel moratorium permit for Gulf shrimp that is not renewed will be terminated and will not be reissued during the moratorium. A permit is considered to be not renewed when an application for renewal, as required, is not received by the RA within 1 year of the expiration date of the permit.

(iii) When NMFS has determined that the number of commercial vessel moratorium permits for Gulf shrimp has reached the threshold number of permits as described in the FMP, then a commercial vessel moratorium permit for Gulf shrimp that is not renewed will be converted to a Gulf shrimp reserve pool permit and held by NMFS for possible reissuance. Gulf shrimp reserve pool permits will not be issued until eligibility requirements are developed and implemented through subsequent rulemaking.

\* \* \* \* \*

(e) *Gulf shrimp transit provision.* A vessel that does not have a valid Gulf shrimp moratorium permit, as described in paragraphs (a) and (b) of this section, may possess Gulf shrimp when in transit in the Gulf EEZ provided that the shrimp fishing gear is appropriately

stowed. For the purposes of this paragraph, transit means non-stop progression through the Gulf EEZ. Fishing gear appropriately stowed means trawl doors and nets must be out of the water and the bag straps must be removed from the net.

- 3. Amend § 622.55 by:

- a. Designating the table in paragraph (b) as Table 1 to paragraph (b);  
■ b. Revising paragraph (c)(1);  
■ c. Designating the table after paragraph (d)(2) as Table 3 to paragraph (d), the table after paragraph (d)(3) as Table 4 to paragraph (d), and the table after paragraph (d)(4) as Table 5 to paragraph (d);  
■ d. In paragraph (e) designating the table as Table 6 to paragraph (e).

The revision to read as follows:

**§ 622.55 Closed area.**

\* \* \* \* \*

(c) \* \* \*

(1) The Tortugas shrimp sanctuary is closed to trawling. The Tortugas shrimp sanctuary is that part of the EEZ off Florida shoreward of rhumb lines connecting, in order, the following points:

TABLE 1 TO PARAGRAPH (C)(1)

Point	North lat.	West long.
N <sup>1</sup> .....	25°52'54"	81°37'56"
F .....	24°50'42"	81°51'18"
G <sup>2</sup> .....	24°40'00"	82°26'39"
H <sup>3</sup> .....	24°34'44"	82°35'27"
P <sup>4</sup> .....	24°35'00"	82°08'00"

<sup>1</sup> Coon Key Light.

<sup>2</sup> New Ground Shoals Light.

<sup>3</sup> Rebecca Shoals Light.

<sup>4</sup> Marquesas Keys.

\* \* \* \* \*

- 4. In § 622.73, add paragraph (c) to read as follows:

**§ 622.73 Prohibited species.**

\* \* \* \* \*

(c) Wild live rock may not be harvested or possessed in or from the Gulf EEZ.

**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric  
Administration****50 CFR Part 660**

[Docket No. 170630616–7875–01]

RIN 0648–BH00

**Magnuson-Stevens Act Provisions;  
Fisheries Off West Coast States;  
Pacific Coast Groundfish Fishery;  
Commercial Management Measures**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Advanced notice of proposed rulemaking; request for comments.

**SUMMARY:** This advanced notice of proposed rulemaking provides

information on a request by the Pacific Fishery Management Council (Council) to announce deliberations of potential accumulation limits for Catcher Processor Permit use or ownership in the Pacific Coast groundfish fishery. The Council may not count any acquisition and usage of Catcher Processor permits and/or usage of Catcher Processor allocation after the date of June 13, 2017, in any decision setting accumulation limits. NMFS invites comments on this document.

**DATES:** Written comments must be received by November 3, 2017.

**ADDRESSES:** You may submit comments on the proposed rule identified by “NOAA–NMFS–2017–0109” by either of the following methods:

- *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to [www.regulations.gov/](http://www.regulations.gov/)

*#!docketDetail;D=NOAA-NMFS-2017-0109*, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Frank Lockhart, NMFS West Coast Regional Office, 7600 Sand Point Way NE., Seattle, WA 98115.

**Instructions:** Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on [www.regulations.gov](http://www.regulations.gov) without change. All personal identifying information (*e.g.*, name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

**FOR FURTHER INFORMATION CONTACT:**

Frank Lockhart, NMFS West Coast Regional Office, telephone: 206–526–6142, or email: [frank.lockhart@noaa.gov](mailto:frank.lockhart@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The Pacific Fishery Management Council (Council) recommended and the National Marine Fisheries Service (NMFS) implemented the Pacific Coast groundfish trawl catch share program (Program) off Washington, Oregon and California, starting on January 11, 2011.

The Program changed management of harvest in the trawl fishery from a trip limit system with cumulative vessel trip limits to a quota system in which each quota share could generally be harvested at any time during an open season. The Program has increased fishermen’s flexibility in making decisions on when and how much quota to fish.

The Magnuson-Stevens Act requires that councils undertake reviews within 5 years after implementation of limited access privilege programs such as the Pacific Coast groundfish trawl catch share program. The Council initiated its review in 2016, and expects to recommend changes to the Program in the coming months.

One of the issues that the Council is considering is accumulation limits for the Catcher Processor (CP) sector. In establishing the initial Program, the Council addressed accumulation limits for the ownership or control within the shoreside IFQ sector and the mothership sector, but not the CP sector. The accumulation limits were meant to prevent consolidation at levels that could result in an excessive share being acquired by a single entity. At the June 2017 Council meeting, the Council began considering whether or not similar accumulation limits on ownership or control should be applied to the CP sector as well, and it recommended that NMFS announce the start of these deliberations in the **Federal Register**.

In advance of a rulemaking on changes to the Program, this document announces that the Council may not count any activities related to acquisition and usage of CP permits and/or usage of CP allocation after the date of June 13, 2017, when establishing accumulation limits for the CP sector. This is intended to discourage increased acquisition and usage of CP permits and/or usage of CP allocation for the purpose of economic speculation while the Council develops and considers changes to the Program.

This announcement does not commit the Council or the NMFS to any particular outcome. The Council may or may not make use of this date as part of any deliberations and decisions on acquisition and usage of CP permits and/or usage of CP allocation. Fishery participants are not guaranteed future participation in the program, regardless of their entry date or level of participation in the fishery before or after June 13, 2017. It is important to note that continuation of levels of accumulation that predate June 13, 2017 are not guaranteed. The Council also may choose to take no further action.

**Authority:** 16 U.S.C. 1801 *et seq.*
