DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Proposed Agency Information Collection

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice and Request for Comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the

methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Comments regarding this proposed information collection must be received on or before December 13, 2010. If you anticipate difficulty in submitting comments within that period, contact the person listed in **ADDRESSES** as soon as possible.

ADDRESSES: Written comments may be sent to DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 725 17th Street, NW., Washington, DC 20503 and Tyler Huebner, EE-2K, U.S. Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585, Fax # (202) 586-1233, tyler.huebner@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Tyler Huebner, EE-2K, U.S. Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585, Fax # (202) 586-1233, tyler.huebner@ee.doe.gov.

Reporting requirements concerning the Sustainable Energy Resources for Consumers (SERC) projects are available for review at the following Web site: http://www1.eere.energy.gov/wip/serc_reporting.html.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) OMB No. "1910-"; (2) *Information Collection Request Title:* "Weatherization Assistance Program, Sustainable Energy Resources for Consumers Grants"; (3) *Type of Review:* New; (4) *Purpose:* To collect information on the status of grantee SERC activities, expenditures, and results, to ensure that program funds are being used appropriately, effectively and expeditiously (especially important for Recovery Act funds); (5) *Annual Estimated Number of Respondents:* 27; (6) *Annual Estimated Number of Total Responses:* 108; (7) *Annual Estimated Number of Burden Hours:* 1,296; (8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* 0.

Authority: Title IV, Section 411(b) of the Energy Independence and Security Act (EISA), Pub. L. 110-140.

Issued in Washington, DC, on October 6, 2010.

Cathy Zoi,

Assistant Secretary, Energy Efficiency and Renewable Energy.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP10-468-000]

Northern Border Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Princeton Lateral Project

October 5, 2010.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Princeton Lateral Project proposed by Northern Border Pipeline Company (Northern Border) in the above referenced docket. Northern Border requests authorization to construct pipeline facilities to transport natural gas from Northern Border's existing pipeline system in Bureau County, Illinois to an interconnection with Central Illinois Light Company d/b/a/ AmerenCILCO (CILCO) near Princeton, Illinois.

The EA assesses the potential environmental effects of the construction and operation of the Princeton Lateral Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Princeton Lateral Project includes the following facilities:

- 8.65 miles of 16-inch-diameter natural gas lateral ¹ pipeline;
- a pig ² launcher assembly located adjacent to the Northern Border Kasbeer side valve site; and
- metering and associated facilities at the CILCO delivery location.

The EA has been placed in the public files of the FERC and is available for public viewing on the FERC's Web site at <http://www.ferc.gov> using the

¹ A lateral is a segment of pipeline that is usually of smaller diameter which branches off the mainline to connect with or serve a specific customer or group of customers.

² A "pig" is a tool that is inserted into and moves through the pipeline, and is used for cleaning the pipeline, internal inspections, or other purposes.
