

divest the entirety of the Fiagon business and assets to Hemostasis. Hemostasis is an established participant in the ENT medical device segment and has the expertise, sales infrastructure, and resources to restore the competition that otherwise would have been lost pursuant to the Acquisition. The parties must divest all facilities and equipment, intellectual property, business information, and other assets used with and related to the Fiagon business. Hemostasis also intends to retain Fiagon employees. Because Hemostasis will acquire all assets related to the Fiagon business, and the parties are required to obtain all third-party consents before the divestiture transaction is consummated, Hemostasis will be able to begin manufacturing its own supply of ENT navigation systems and balloon sinus dilation products from day one.

The proposed Order contains additional provisions designed to ensure the effectiveness of the relief. For example, the proposed Order requires the Respondents to assist and cooperate in the defense against any intellectual property litigation related to the Fiagon assets. Respondents are required to provide Hemostasis with transition assistance for up to one year following the divestiture of the assets and must cooperate with and assist Hemostasis to evaluate and offer employment to employees involved in the business and assets subject to divestiture. Respondents have also agreed not to enforce any employee noncompete or confidentiality agreements against Hemostasis relating to employees that interview or accept employment with Hemostasis. The proposed Order and the Order to Maintain Assets further require Medtronic to operate and maintain the divestiture assets in the ordinary course of business, including maintaining the economic viability, marketability, and competitiveness of the Fiagon business until the divestiture transaction takes place.

The Commission will appoint Jeryl Hilleman to act as an independent Monitor to oversee the Respondents' compliance with the requirements of the Order, and to keep the Commission informed about the status of the transfer of the Fiagon business to Hemostasis. The proposed Order requires that the divestiture to Hemostasis be completed no later than 10 days after Medtronic consummates the Acquisition.

In addition to requiring the divestiture of the Fiagon assets and business, the proposed Order requires Respondents to obtain prior approval from the Commission before making certain future acquisitions in the relevant markets for a period of ten

years from the date the Order is issued. The proposed Order also requires Hemostasis to obtain prior approval from the Commission before transferring any of the divested assets to any buyer for the first three years after Hemostasis acquires the divestiture assets. For the seven years following the initial three-year period, the proposed Order requires Hemostasis to obtain prior approval from the Commission before transferring any of the divested assets to any buyer engaged in the research, development, manufacture, marketing, or sale of any balloon sinus dilation products or ENT navigation systems.

The purpose of this analysis is to facilitate public comment on the Consent Agreement, and the Commission does not intend this analysis to constitute an official interpretation of the proposed Order or to modify its terms in any way.

By direction of the Commission.

April J. Tabor,

Secretary.

BILLING CODE 6750–01–P

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090–0297; Docket No. 2022–0001; Sequence No. 2]

Submission for OMB Review; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: General Services Administration (GSA).

ACTION: Notice of request for an extension to an existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a previously approved information collection requirement regarding the Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

DATES: Submit comments on or before June 21, 2022.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Ms. Camille Tucker, Office of Customer Experience, GSA, at 202–603–2666, or via email at customer.experience@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study.

This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance.

Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study.

Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results. The Digital Government Strategy released by the White House in May, 2012 drives

agencies to have a more customer-centric focus. Because of this, GSA anticipates an increase in requests to use this generic clearance, as the plan states that: A customer-centric principle charges us to do several things: conduct research to understand the customer's business, needs and desires; "make content more broadly available and accessible and present it through multiple channels in a program-and device-agnostic way; make content more accurate and understandable by maintaining plain language and content freshness standards; and offer easy paths for feedback to ensure we continually improve service delivery.

The customer-centric principle holds true whether our customers are internal (e.g., the civilian and military federal workforce in both classified and unclassified environments) or external (e.g., individual citizens, businesses, research organizations, and state, local, and tribal governments)."

B. Annual Reporting Burden

Respondents: 500,000.

Responses per Respondent: 1.

Total Annual Responses: 500,000.

Hours per Response: 60.446 minutes.

Total Burden Hours: 32,970.72.

C. Public Comments

A 60-day notice published in the **Federal Register** at 87 FR 14532 on March 15, 2022. No comments were received.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division, by calling 202-501-4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 3090-0297, Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery, in all correspondence.

Beth Anne Killoran,

Deputy Chief Information Officer.

BILLING CODE 6820-34-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; State Access and Visitation Grant Application (OMB #0970-0482)

AGENCY: Office of Child Support Enforcement (OCSE), Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The federal Office of Child Support Enforcement (OCSE), Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) is requesting a 3-year extension of the State Access and Visitation Grant Application (OMB #0970-0482, expiration 5/31/2022. There are changes requested to the form.

DATES: *Comments due within 30 days of publication.* OMB must make a decision about the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. You can also obtain copies of the proposed collection of information by emailing infocollection@acf.hhs.gov. Identify all emailed requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 created the "Grants to States for Access and Visitation" program (AV grant program). Funding for the program began in fiscal year 1997 with a capped, annual entitlement of \$10 million. The statutory goal of the program is to provide funds to states that will enable them to provide services for the purpose of increasing noncustodial parent access to and visitation with their children. State governors decide which state entity will be responsible for implementing the AV grant program in addition to determining who will be served, what services will be provided, and whether the services will be statewide or in local jurisdictions. The statute specifies certain activities which may be funded, including voluntary and mandatory mediation, counseling, education, the development of parenting plans, supervised visitation, and the development of guidelines for visitation and alternative custody arrangements. Even though OCSE manages this program, funding for the AV grant is

separate from funding for federal and state administration of the Child Support program.

Section 469B(e)(3) of the Social Security Act (Pub. L. 104-193) requires that each state receiving an AV grant award shall monitor, evaluate, and report on such programs in accordance with regulations. Additionally, the Catalog of Federal Domestic Assistance states that there is an application requirement for Grants to States for Access and Visitation Programs (93.597). The application process assists OCSE in complying with this requirement and emphasizes program efficiency, coordination of services, building support for parenting time services, and ensuring the safety of parents and children.

Specifically, the application requires states to submit a detailed program plan indicating how they anticipate spending their funds within the program statute and regulations. The applications cover 3 fiscal years and any changes made to the plan during the 3-year period will require a notification of change to OCSE.

OCSE will review the applications to ensure that planned services meet the requirements laid out in section 469B(e)(3) of the Social Security Act (Pub. L. 104-193. This review will include monitoring of program compliance and the safe delivery of services. In addition to monitoring, the report will also assist in OCSE's ability to provide technical assistance to states that request assistance.

The State Access and Visitation Grant Application is proposing changes to the application itself, including requirements for states and territories to:

- Address disparities in access;
- ensure the proactive identification of systemic barriers to AV grant services for people of color and other underserved populations;
- describe how grant activities will redress such barriers; and
- describe how outreach and recruitment efforts will promote equity in access for underserved or marginalized populations.
