BILLING CODE 6210-01-S

GENERAL SERVICES ADMINISTRATION

Request for Comments on Proposed Federal Emergency Travel Guide

AGENCY: Office of Governmentwide Policy, General Services Administration (GSA).

ACTION: Notice of intent and request for comments.

SUMMARY: The General Services Administration (GSA) is proposing to create a Federal Emergency Travel Guide in the event of evacuation, catastrophic event or natural disaster. The guide is intended to prepare the Federal Government to continue official travel operations in an emergency situation while safeguarding Federal employees officially away from their official or temporary duty stations. The guide, non-regulatory in nature, will serve as a supplement to the Federal Travel Regulation (FTR) (41 CFR chapters 300-304).

DATES: Please submit comments by September 18, 2007.

ADDRESSES: Written comments should be sent to Ms. Jane Groat, Travel Policy Management (MTT), Office of Governmentwide Policy, General Services Administration, 1800 F Street, NW., Washington, DC 20405. E-mail comments may be sent to perdiem@gsa.gov. Please entitle your letter or e-mail with "Federal Emergency Travel Guide comments".

FOR FURTHER INFORMATION CONTACT: Jane Groat, Travel Policy Management (MTT), telephone 202-501-4318.

SUPPLEMENTARY INFORMATION: To access the draft guide, you may visit <http://www.gsa.gov/travelpolicy> (click Library). A hard copy of the draft guide is not available.

GSA is interested to learn from Federal, (1) how to improve the draft guide; (2) whether Federal agencies and employees agree that the guide will be a useful tool; (3) what Federal agencies already have related policies in place (and identify a web site)—employees on site in support of an incident of National significance are generally under the effect of a National Response Plan and follow those established guides; (4) what kinds of things need to be added to the guide for governmentwide benefit; and (5) any other related comment/suggestion.

If you comment, please include your name, title, your capacity (i.e., an employee, an official, or an Emergency Response Team), telephone, agency, email and hard addresses. Are you commenting from personal experience as a traveler, a supervisor/manager, or an Emergency Response Team? Have you had a need for emergency guides? If you survived a horrific event or emergency, what help/assistance was needed the most, where did expectations and support fall short, and what would your recommendations be?

If you are a private sector travel or transportation service provider to the Government, we will also welcome your comments.

Dated: July 16, 2007.

Patrick Mc Connell,

Acting Director, Travel Policy Management.

BILLING CODE 6820-14-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10224, CMS-10240 and CMS-10052]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed

collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* New collection; *Title of Information Collection:* HCPCS Level II Code Modification Request Process; *Use:* For Medicare and other health insurance programs to ensure that claims are processed in an orderly and consistent manner, standardized coding systems are essential. The Healthcare Common Procedure Coding System (HCPCS) Level II Code Set is one of the standard code sets used for this purpose. Level II of the HCPCS, also referred to as alpha-numeric codes, is a standardized coding system that is used primarily to identify products, supplies, and services not included in the Current Procedural Terminology (CPT) codes, such as ambulatory services and durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) when used in the home or outpatient setting. As technology evolves and new products are developed, there are continuous changes to the HCPCS codeset. Modifications to the HCPCS are initiated via application form submitted by any interested stakeholder. These applications have been received on an on-going basis with an annual deadline for each cycle. In October 2003, the Secretary of Health and Human Services delegated CMS authority to maintain and distribute HCPCS Level II Codes. As a result, the National Panel was delineated and CMS continued with the decision-making process under its current structure, the CMS HCPCS Workgroup.

CMS' Council on Technological Innovation (CTI) has instituted a number of improvements to the HCPCS process. Specific process refinements include public notification of CMS' preliminary decisions, and a new opportunity to respond to CMS' preliminary decisions at a public meeting before a final decision is reached by the workgroup. CMS has streamlined the form into a user-friendly application. The content of the material is the same, but the questions
