DOVS was established to evaluate prospective applicants' systems for assurance that only domestic products are delivered under USDA contracts, and to establish procedures for applicant system evaluations as well as acceptance and rejection criteria.

**Title:** "Regulations Governing Inspection and Certification of Processed Fruits and Vegetables and Related Products—7 CFR 52."

**OMB Number:** To be assigned.

**Expiration Date of Approval:** To be announced.

*Type of Request:* New information collection.

*Abstract:* The Agricultural Marketing Act of 1946 (7 U.S.C. 1621-*et seq.*) (AMA) directs and authorizes the Department to develop standards of quality, grades, grading programs, and other services to facilitate trading of agricultural products and assure consumers of quality products, which are graded and identified under USDA programs. Section 203(h) of the AMA specifically directs and authorizes the Secretary of Agriculture to inspect, certify, and identify the grade, class, quality, quantity, and condition of agricultural products under such rules and regulations as the Secretary may prescribe, including assessment and collection of fees for the cost of the service. The regulations for such services for processed fruits and vegetables and related products may be found at 7 CFR Part 52. AMS also provides other types of voluntary services under the same regulations, e.g., contract and specification acceptance services, facility assessment services, and certifications of quantity and quality. Grading services are available on a resident basis or a lot-fee basis. Respondents may request resident service on a continuous basis or on an as-needed basis. The user (user-fee) pays for the service. The AMA and these regulations do not mandate the use of these services; they are provided only to those entities that request or apply for a specific service. In order for the Agency to satisfy those requests for service, the Agency must request certain information from those who apply for service. The information collected is used only by Agency personnel and is used to administer services requested by the respondents. Affected public may include any partnership, association, business trust, corporation, organized group, and state, county, or municipal government, and any authorized agent that has a financial interest in the commodity involved and requests service.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 2.25 hours per response (225 total hours divided by 100 total annual responses).

*Respondents:* Applicants who are applying for grading and inspection services.
