constitute a completed combination loan-grant or loan application. Also, see 7 CFR 1703 Subpart F for combination loan-grants and 7 CFR 1703 Subpart G for loans:

(i) Applicant's financial ability to compete the project;

(ii) Project feasibility;

(iii) Applicant's financial information;

(iv) Projects sustainability;

(v) Ability to repay the loan portion of a combination loan-grant, including revenue sources;

(vi) Collateral for which the applicant has perfected a security interest; and

(vii) Adequate security for a loan or the loan portion of a combination loangrant.

b. Services to be provided by the project.

c. Project cost.

d. Project design.

e. Other characteristics.

D. As a courtesy, RUS will examine, provide comment, and return applications that include items that would disqualify them from further consideration for modification, if the applications are submitted by March 31, 2004. If you want RUS to examine your application in this manner, please submit your application on paper. Grants.gov does not currently support this kind of pre-application review.

E. Selection Process

1. *Grants.* Grant applications are ranked by final score, and by application purpose (education or medical). RUS selects applications based on those rankings, subject to the availability of funds. RUS may allocate grant awards between medical and educational purposes, but is not required to do so. In addition, RUS has the authority to limit the number of applications selected in any one State during a fiscal year. See 7 CFR 1703.127.

2. Combination loan-grants and loans. Based on the review standards listed above and in the DLT Program regulation, RUS will process successful loan applications on a first-in, first-out basis, dependent upon the availability of funds. Please see 7 CFR 1703.135 for combination loan-grant application processing and selection; and 7 CFR 1703.145 for loan application processing and selection.

VI. Award Administration Information

A. Award Notices

RUS recognizes that each funded project is unique, and therefore may attach conditions to different projects' award documents.

1. *Grants.* RUS generally notifies applicants whose projects are selected for awards by faxing an award letter. RUS follows the award letter with a grant agreement that contains all the terms and conditions for the grant. An applicant must execute and return the grant agreement, accompanied by any additional items required by the grant agreement, within 120 days of the selection date.

2. Combination loan-grants and loans. a. RUS generally sends a letter defining the characteristics of a loan (or the loan portion of a combination loangrant) such as the term, interest rate and any conditions on the loan. An applicant must communicate agreement with the characteristics of the loan to RUS before a loan or combination loangrant moves into the approval process. b. After receiving the applicant's agreement on the loan characteristics, RUS supplies an approval letter to the applicant. Loan documents (and a grant agreement, if applicable) are then sent by RUS. The applicant has 120 days to sign and return the documents, along with any additional material required by the loan or grant documents.

B. Administrative and National Policy Requirements

The items listed in paragraph IV.B.2.g of this notice, and the DLT Program regulation, application guides and accompanying materials implement the appropriate administrative and national policy requirements.

C. Reporting

1. *Performance reporting.* All recipients of DLT financial assistance

must provide annual performance activity reports to RUS until the project is complete and the funds are expended. A final performance report is also required; the final report may serve as the last annual report. The final report must include an evaluation of the success of the project in meeting DLT Program objectives. See 7 CFR 1703.107.

2. *Financial reporting.* All recipients of DLT financial assistance must provide an annual audit, beginning with the first year a portion of the financial assistance is expended. Audits are governed by United States Department of Agriculture audit regulations. Please see 7 CFR 1703.108.

VII. Agency Contacts

A. Web site: *http://www.usda.gov/rus/ telecom/dlt/dlt.htm*. The RUS' DLT Web site maintains up-to-date resources and contact information for DLT programs.

- B. Phone: 202–720–0413.
- C. Fax: 202-720-1051.
- D. E-mail: *dltinfo@usda.gov*.
- E. Main point of contact: Orren E.

O'Neil & Associates, Inc	495 Byers Road, Miamisburg, OH 45342.	2/29/2004	Technical, scientific and professional books.

The petitions were submitted pursuant to section 251 of the Trade Act of 1974 (19 U.S.C. 2341). Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm. Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by Trade Adjustment Assistance, Room 7315, Economic Development Administration, U.S. Department of Commerce, Washington, DC 20230, no later than the close of business of the tenth calendar day following the publication of this notice. The Catalog of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.313, Trade Adjustment Assistance.

Dated: February 23, 2004.

Anthony J. Meyer,

Coordinator, Trade Adjustment and Technical Assistance. [FR Doc. 04–4423 Filed 2–27–04; 8:45 am] BILLING CODE 3510–24–P

Foreign-Trade Zones Board

[Docket 4-2004]

Foreign-Trade Zone 39—Dallas/Fort Worth, TX, Application for Subzone, Turbomeca U.S.A. (Helicopter Engine Repair and Maintenance); Grand Prairie, TX

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Dallas/Fort Worth International Airport, grantee of FTZ 39, requesting special-purpose subzone status for the manufacturing and warehousing facilities of Turbomeca U.S.A. (Turbomeca), located in Grand Prairie, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on February 20, 2004.

The Turbomeca facility (11 acres, 200 employees) is located at 2709 Forum Drive, Grand Prairie, Texas. The facility will be used for the repair and maintenance of helicopter engines (HTS 8411.81 duty-free). Components and materials sourced from abroad (representing 100% of all parts used in the manufacturing process) include: O-Rings and seals, maintenance manuals, mechanical fittings, unions, sleeves and couplings, connection hardware, springs, tools for assembly, engines and engine kits, parts of engines, fuel and oil pumps, filters and filter elements, valves, gears, electrical switches, control boxes, electrical wiring and harness, measuring tools, fuel control units, pressure transmitters, parts of fuel control units, fire detectors, speed sensing devices, electrical test equipment (duty rate ranges from dutyfree to 9%) and bearings (HTS 8482.10 and 8482.50, duty rate ranges from 5.8-9%). The application indicates that bearings would be admitted in privileged-foreign status.
