

River in Utah as partial mitigation for these Bonneville Unit impacts. Approximately 4,807 acres of land composed of 3,215 acres of Ute Indian Tribal trust lands, and 1,592 acres of fee lands to be acquired by the Federal Government, would be acquired and developed into three cohesive wetlands management units. A portion of the water currently managed by the Bureau of Indian Affairs for the Ute Indian Tribe under the existing Uinta Indian Irrigation Project would be utilized, along with water that may be acquired with fee land acquisitions, to create, restore and enhance wetlands throughout the LDWP area. Lands acquired in fee title (except lands acquired by eminent domain) would be transferred to the Ute Indian Tribe. All LDWP lands (leased Tribal trust and acquired lands) would be managed for project purposes by the Ute Indian Tribe under management agreements with the Joint Lead Agencies to achieve the prescribed wetlands-associated fish and wildlife benefits, and for other wetland/wildlife related tribal benefits. A Notice of Intent to initiate public scoping and prepare a Draft EIS for the LDWP was published in the **Federal Register** on April 25, 2001 (66 FR 20827). Scoping was accomplished by means of three public meetings convened in Ft. Duchesne, Roosevelt and Salt Lake City, Utah in May 2003. Joint Lead Agencies filed the DEIS with the EPA on November 17, 2003. Notice of Availability of the DEIS was announced in the **Federal Register** on November 24, 2003 (68 FR 65943). Three public meetings were held in Ft. Duchesne, Roosevelt and Salt Lake City, Utah in December 2003, to receive public comment on the DEIS. Comments received during the public comment period from November 17, 2003 to February 17, 2004, were considered in preparation of the FEIS.
