Title: FERC–583, Annual Kilowatt Generating Report (Annual Charges).

OMB Control No.: 1902–0136.

Type of Request: Three-year extension of the FERC–583 information collection requirements with no changes to the existing collection.

Abstract: Section 10(e) of the Federal Power Act (FPA) ¹ requires the Federal

Energy Commission (FERC or Commission) to collect annual charges from entities that generate electricity with hydropower in accordance with Commission authorization. Such charges reimburse the federal government for the cost of administering Part I of the FPA,² the use of Tribal lands, the use of Federal lands, and the use of Federal dams.

The regulations at 18 CFR 11.1(c)(5) and 11.1(d)(4) require annual kilowatt generating reports from licensees and exemptees. The Commission’s Financial Services Division uses the reports to determine the amount of annual charges to be assessed each licensee and exemptee.

The Commission published a 60-day notice in the **Federal Register** on August 9, 2023 under Docket No. IC23–13–000 and received no comments.

Types of Respondent: (1) Hydropower licensees of projects more than 1.5 megawatts of installed capacity; (2) Holders of exemptions under section 30 of the FPA;³ and (3) exemptees under sections 405 and 408 of the Public Utility Regulatory Policy Act.⁴

Estimate of Annual Burden:⁵ The following table shows the estimated annual burden and cost:

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of

the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
