

notice includes the following information to allow FAA to associate an unmanned aircraft to a responsible person:

(1) An indication whether the person operating the foreign registered civil unmanned aircraft in the United States is an organization or an individual.

(2) The name of the person operating the foreign registered civil unmanned aircraft in the United States, and, if applicable, the person's authorized representative.

(3) The physical address of the person operating the foreign registered civil unmanned aircraft in the United States, and, if applicable, the physical address for the person's authorized representative. If the operator or authorized representative does not receive mail at the physical address, a mailing address must also be provided.

(4) The telephone number(s) where the person operating the foreign registered civil unmanned aircraft in the United States, and, if applicable, the person's authorized representative can be reached while in the United States.

(5) The email address of the person operating the foreign registered civil unmanned aircraft in the United States, and, if applicable, the email address of the person's authorized representative.

(6) An indication whether the unmanned aircraft is a standard remote identification unmanned aircraft or has a remote identification broadcast module.

(7) The unmanned aircraft manufacturer and model name.

(8) The serial number of the unmanned aircraft or remote identification broadcast module.

(9) The country of registration of the unmanned aircraft.

(10) The registration number.

Once a person submits an online notice of identification, the FAA will issue a confirmation of identification. A person operating a foreign-registered unmanned aircraft in the United States must maintain the confirmation of identification at the unmanned aircraft's control station and must produce it when requested by the FAA or a law enforcement officer.

The holder of a confirmation of identification must ensure the information provided under § 89.130(a) remains accurate and is updated prior to operating a foreign registered civil unmanned aircraft with remote identification in the United States. The confirmation of identification expires after one year and can be cancelled or renewed online at FAA Drone Zone.

Respondents: Operators of foreign-registered civil unmanned aircraft with remote identification, as needed (prior

to operating in the airspace of the United States) are mandated to report information to this collection. The FAA uses information provided by operators of foreign-registered civil unmanned aircraft operating in the airspace of the United States to identify those aircraft.

Frequency: As needed prior to operation of a foreign-registered civil unmanned aircraft in the United States.

Estimated Average Burden per

Response: 6 minutes per response.

Estimated Total Annual Burden: 6 minutes per respondent, 797 hours per year total for all respondents.

Issued in Washington, DC on November 1, 2023.

Federal Railroad Administration

[Docket No. FRA-2023-0002-N-27]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of information collection; request for comment.

SUMMARY: Under the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, FRA seeks approval of the Information Collection Request (ICR) summarized below. Before submitting this ICR to the Office of Management and Budget (OMB) for approval, FRA is soliciting public comment on specific aspects of the activities identified in the ICR.

DATES: Interested persons are invited to submit comments on or before January 5, 2024.

ADDRESSES: Written comments and recommendations for the proposed ICR should be submitted on *regulations.gov* to the docket, Docket No. FRA-2023-0002. All comments received will be posted without change to the docket, including any personal information provided. Please refer to the assigned OMB control number (2130-0564) in any correspondence submitted. FRA will summarize comments received in a subsequent 30-day notice and include them in its information collection submission to OMB.

FOR FURTHER INFORMATION CONTACT: Ms. Arlette Mussington, Information

Collection Clearance Officer, at email: arlette.mussington@dot.gov or telephone: (571) 609-1285 or Ms. Joanne Swafford, Information Collection Clearance Officer, at email: joanne.swafford@dot.gov or telephone: (757) 897-9908.

SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501-3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days' notice to the public to allow comment on information collection activities before seeking OMB approval of the activities. *See* 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. Specifically, FRA invites interested parties to comment on the following ICR regarding: (1) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways for FRA to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology. *See* 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

FRA believes that soliciting public comment may reduce the administrative and paperwork burdens associated with the collection of information that Federal regulations mandate. In summary, comments received will advance three objectives: (1) reduce reporting burdens; (2) organize information collection requirements in a "user-friendly" format to improve the use of such information; and (3) accurately assess the resources expended to retrieve and produce information requested. *See* 44 U.S.C. 3501.

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

Title: Locomotive Crashworthiness.

OMB Control Number: 2130-0564.

Abstract: Under 49 CFR part 229, subpart D, FRA prescribes minimum crashworthiness standards for certain locomotives. These crashworthiness standards are intended to help protect locomotive cab occupants in the event of a train collision or derailment. FRA uses this collection of information to ensure railroads operate locomotives that meet the prescribed minimum performance standards and design load

requirements for newly manufactured and re-manufactured locomotives.

In this 60-day notice, FRA makes adjustments that decrease the previously approved estimated total annual burden hours from 507 hours to 407 hours. These estimate adjustments reflect that FRA anticipates a decrease in the annual petition submissions for approval of substantive and non-substantive changes to locomotive

crashworthiness design standards and alternative design standards under the following sections:

- Under § 229.207(c), FRA is decreasing the estimated annual burden hours by 33.50 hours.
- Under § 229.207(d), FRA is decreasing the estimated annual burden hours by 33.50 hours.
- Under § 229.209(b), FRA is decreasing the estimated annual burden hours by 33.50 hours.

Type of Request: Extension without change (with changes in estimates) of a currently approved collection.

Affected Public: Businesses/Public/Interested Parties.

Form(s): N/A.

Respondent Universe: 783 railroads, 4 locomotive manufacturers.

Frequency of Submission: On occasion; one-time.
