AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

Scope of the Orders

The products covered by these orders are cold-drawn mechanical tubing of carbon and alloy steel (cold-drawn mechanical tubing) of circular cross-section, 304.8 mm or more in length, in actual outside diameters less than 331mm, and regardless of wall thickness, surface finish, end finish or industry specification. The subject cold-drawn mechanical tubing is a tubular product with a circular cross-sectional shape that has been cold-drawn or otherwise cold-finished after the initial tube formation in a manner that involves a change in the diameter or wall thickness of the tubing, or both. The subject cold-drawn mechanical tubing may be produced from either welded (e.g., electric resistance welded, continuous welded, etc.) or seamless (e.g., pierced, pilgered or extruded, etc.) carbon or alloy steel tubular products. It may also be heat treated after cold working. Such heat treatments may include, but are not limited to, annealing, normalizing, quenching and tempering, stress relieving or finish annealing. Typical cold-drawing methods for subject merchandise include, but are not limited to, drawing over mandrel, rod drawing, plug drawing, sink drawing and similar processes that involve reducing the outside diameter of the tubing with a die or similar device, whether or not controlling the inside diameter of the tubing with an internal support device such as a mandrel, rod, plug or similar device. Other cold-finishing operations that may be used to produce subject merchandise include cold-rolling and cold-sizing the tubing.

Subject cold-drawn mechanical tubing is typically certified to meet industry specifications for cold-drawn tubing including but not limited to:

(1) American Society for Testing and Materials (ASTM) or American Society of Mechanical Engineers (ASME) specifications ASTM A-512, ASTM A-513 Type 3 (ASME SA513 Type 3), ASTM A-513 Type 4 (ASME SA513 Type 4), ASTM A-513 Type 5 (ASME SA513 Type 5), ASTM A-513 Type 6 (ASME SA513 Type 6), ASTM A-519 (cold-finished);

(2) SAE International (Society of Automotive Engineers) specifications SAE J524, SAE J525, SAE J2833, SAE J2614, SAE J2467, SAE J2435, SAE J2613;

(3) Aerospace Material Specification (AMS) AMS T-6736 (AMS 6736), AMS 6371, AMS 5050, AMS 5075, AMS 5062, AMS 6360, AMS 6361, AMS 6362, AMS 6371, AMS 6372, AMS 6374, AMS 6381, AMS 6415;

(4) United States Military Standards (MIL) MIL-T-5066 and MIL-T-6736;

(5) foreign standards equivalent to one of the previously listed ASTM, ASME, SAE, AMS or MIL specifications including but not limited to:

(a) German Institute for Standardization (DIN) specifications DIN 2391-2, DIN 2393-2, DIN 2394-2;

(b) European Standards (EN) EN 10305-1, EN 10305-2, EN 10305-4, EN 10305-6 and European national variations on those standards (e.g., British Standard (BS EN), Irish Standard (IS EN) and German Standard (DIN EN) variations, etc.);

(c) Japanese Industrial Standard (JIS) JIS G 3441 and JIS G 3445; and

(6) proprietary standards that are based on one of the above-listed standards.

The subject cold-drawn mechanical tubing may also be dual or multiple certified to more than one standard. Pipe that is multiple certified as cold-drawn mechanical tubing and to other specifications not covered by this scope, is also covered by the scope of these orders when it meets the physical description set forth above.

Steel products included in the scope of these orders are products in which: (1) Iron predominates, by weight, over each of the other contained elements; and (2) the carbon content is 2 percent or less by weight.

For purposes of this scope, the place of cold-drawing determines the country of origin of the subject merchandise. Subject merchandise that is subject to minor working in a third country that occurs after drawing in one of the subject countries including, but not limited to, heat treatment, cutting to length, straightening, nondestruction testing, deburring or chamfering, remains within the scope of these orders.

All products that meet the written physical description are within the scope of these orders unless specifically excluded or covered by the scope of an existing order. Merchandise that meets the physical description of cold-drawn mechanical tubing above is within the scope of these orders even if it is also dual or multiple certified to an otherwise excluded specification listed below. The following products are outside of, and/or specifically excluded from, the scope of these orders:

(1) Cold-drawn stainless steel tubing, containing 10.5 percent or more of chromium

except that any cold-drawn tubing product certified to one of the above excluded specifications will not be excluded from the scope if it is also dual- or multiple-certified to any other specification that otherwise would fall within the scope of these orders.

The products subject to these orders are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under item numbers: 7304.31.3000, 7304.31.6050, 7304.51.1000, 7304.51.5005, 7304.51.5060, 7306.30.5015, 7306.30.5020, 7306.50.5030. Common Alloy Aluminum Sheet From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2021-2022

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) continues to determine that Alcha International Holdings Limited (Alcha International), Jiangsu Alcha Aluminum Group Co., Ltd (Jiangsu Alcha), and Baotou Alcha Aluminum Co., Ltd. (Batou Alcha) (collectively, Alcha), the only entity subject to this administrative review of the antidumping duty (AD) order on common alloy aluminum sheet (aluminum sheet) from the People's Republic of China (China), is part of the China-wide entity. The period of review (POR) is February 1, 2021, through January 31, 2022.

DATES: Applicable March 20, 2023.

FOR FURTHER INFORMATION CONTACT: Frank Schmitt, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4880.

SUPPLEMENTARY INFORMATION:

Background

Commerce published the preliminary results of this administrative review on November 16, 2022.¹ We invited interested parties to comment on the *Preliminary Results*.² No party submitted comments. Accordingly, the final results are unchanged from the *Preliminary Results*. Commerce conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order³

The merchandise covered by the *Order* is common alloy aluminum sheet from China. For a full description of the scope of the *Order*, see the *Preliminary Results*.⁴

Final Results of Administrative Review

We received no comments concerning, and we have made no changes to, the *Preliminary Results*. We continue to find that Alcha,⁵ the only

entity subject to this review, did not demonstrate its eligibility for a separate rate. Therefore, for these final results, we determine that Alcha is part of the China-wide entity.

Because no party requested a review of the China-wide entity, and we did not self-initiate a review, the China-wide entity rate (*i.e.*, 59.72 percent)⁶ is not subject to change as a result of this review.

Assessment Rates

Commerce will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review in accordance with section 751(a)(2)(C) of the Act. For Alcha, we will instruct CBP to apply the China-wide rate of 59.72 percent to all entries of subject merchandise during the POR. Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice, as provided by section 751(a)(2)(C) of the Act: (1) for previously investigated or reviewed Chinese and non-Chinese exporters that are not under review in this segment of the proceeding but have separate rates, the cash deposit rate will continue to be the exporter's existing cash deposit rate; (2) for all Chinese exporters of subject merchandise that do not have a separate rate, including Alcha, the cash deposit rate will be the China-wide rate of 59.72 percent; and (3) for all non-Chinese exporters of subject merchandise that do not have a separate rate, the cash deposit rate will be the rate applicable to the Chinese exporter(s) that supplied the non-Chinese exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

⁵ Commerce previously determined that the following companies should be treated as a single entity: Alcha International; Jiangsu Alcha; and Baotou Alcha. Additionally, Commerce previously determined that Jiangsu Alcha Aluminum Group Co., Ltd is the successor-in-interest to Jiangsu Alcha. See *Common Alloy Aluminum Sheet from the People's Republic of China: Final Results of Antidumping Duty Administrative Review, Final Successor-In-Interest Determination, and Final Determination of No Shipments; 2018-2020*, 86 FR 74066, 74067 (December 29, 2021), unchanged in *Common Alloy Aluminum Sheet from the People's Republic of China: Amended Final Results of Antidumping Duty Administrative Review, 2018-2020*, 87 FR 6504 (February 4, 2022); see also *Common Alloy Aluminum Sheet from the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2020-2021*, 87 FR 54975 (September 8, 2022), as corrected by *Common Alloy Aluminum Sheet from the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2020-2021; Correction*, 87 FR 59059 (September 29, 2022). Accordingly, we are treating the single entity of Alcha International, Jiangsu Alcha, and Baotou Alcha (collectively, Alcha) as the companies under review in this proceeding.
