Kathleen Modes, Nuclear Materials Safety Branch 2, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania 19406, telephone (610) 337-5351, fax (610) 337-5269; or by e-mail: kad@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Millipore Corporation's Materials License No. 29-30108-01, to authorize release of its facility in Lincoln Park, New Jersey for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

II. EA Summary

The purpose of the proposed action is to authorize the release of the licensee's Lincoln Park, New Jersey facility for unrestricted use. Millipore Corporation (previously known as CPG, Inc.) was authorized by NRC from 1994, to use radioactive materials for research and development purposes at the site. On January 27, 2004, Millipore Corporation requested that NRC release the facility for unrestricted use. Millipore Corporation has conducted surveys of the facility and determined that the facility meets the license termination criteria in Subpart E of 10 CFR Part 20.

The NRC staff has prepared an EA in support of the proposed license amendment.

III. Finding of No Significant Impact

The staff has prepared the EA (summarized above) in support of the proposed license amendment to terminate the license and release the facility for unrestricted use. The NRC staff has evaluated Millipore Corporation's request and the results of the surveys and has concluded that the completed action complies with the criteria in Subpart E of 10 CFR Part 20. The staff has found that the environmental impacts from the proposed action are bounded by the impacts evaluated by the "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Facilities" (NUREG-1496). On the basis of the EA, the NRC has concluded that the environmental impacts from the proposed action are expected to be insignificant and has determined not to prepare an environmental impact statement for the proposed action.

IV. Further Information

The EA and the documents related to this proposed action, including the application for the license amendment and supporting documentation, are available for inspection at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Nos. ML040300917, ML040710238, ML040860263 and ML041390178). These documents are also available for inspection and copying for a fee at the Region I Office, 475 Allendale Road, King of Prussia, Pennsylvania 19406. Persons who do not have access to ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or (301) 415-4737, or by e-mail to pdr@nrc.gov.

Dated at King of Prussia, Pennsylvania this 3rd day of June, 2004.

For the Nuclear Regulatory Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-13195]

Issuer Delisting; Notice of Application of Industrial Distribution Group, Inc. To Withdraw Its Ordinary Shares, \$.01 Par Value, and Series A Participating Cumulative Preferred Stock Purchase Rights From Listing and Registration on the New York Stock Exchange, Inc.

June 4, 2004.

On May 26, 2004, Industrial Distribution Group, Inc., a Delaware corporation ("Issuer"), filed an application with the Securities and Exchange Commission ("Commission"), pursuant to Section 12(d) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 12d2-2(d) thereunder,² to withdraw its Ordinary Shares, \$.01 par value, and Series A Participating Cumulative Preferred Stock Purchase Rights ("Securities"), from listing and registration on the New York Stock Exchange, Inc. ("NYSE" or "Exchange").

The Board of Directors ("Board") of the Issuer approved a resolution on April 28, 2004 to withdraw the Issuer's Securities from listing on the NYSE and to list the Securities on the NASDAQ National Market ("NASDAQ"). The Board believes that the change in the profile of the public ownership of the Issuer's Securities makes the NASDAQ a more appropriate market for the Issuer's Securities. The Board also believes that recent internal developments at the NYSE could adversely affect the Issuer and the listing and trading of its Securities. The application states that this includes uncertainty about the continued listing criteria the NYSE will apply in the future. In addition, the Issuer expects that it and its shareholders will derive positive benefits from listing on the NASDAQ. The Issuer believes such expected benefits include the potential for several broker-dealers to make a market in the Securities, which in its opinion, should result in enhanced liquidity, better price discovery, and additional sources of information for investors seeking to trade in the Securities. The Issuer believes that, as a result of the dynamics of the NASDAQ market, the differential between bid and ask prices in trading transactions will be improved, to the benefits of investors.

The Issuer stated in its application that it has complied with the NYSE's rules governing an issuer's voluntary withdrawal of a security from listing
