¹ Funds for listing actions for these species were provided in previous FYs.

² Although funds for these high-priority listing actions were provided in FY 2008 or 2009, due to the complexity of these actions and competing priorities, these actions are still being developed.

³ Partially funded with FY 2010 funds and FY 2011 funds.

⁴ Funded with FY 2010 funds.

⁵ Funded with FY 2011 funds.

We have endeavored to make our listing actions as efficient and timely as possible, given the requirements of the relevant law and regulations, and constraints relating to workload and personnel. We are continually considering ways to streamline processes or achieve economies of scale, such as by batching related actions together. Given our limited budget for implementing section 4 of the Act, these actions described above collectively constitute expeditious progress.

We intend that any proposed reclassification of *Solanum conocarpum* will be as accurate as possible. Therefore, we will continue to accept additional information and comments from all concerned governmental agencies, the scientific community, industry, or any other interested party concerning this finding.

Solanum conocarpum will be added to the list of candidate species upon publication of this 12-month finding. We will continue to evaluate this species as new information becomes available. This review will determine if a change in status is warranted,

including the need to make prompt use of emergency listing procedures.

SUPPLEMENTARY INFORMATION:

Background

On December 10, 2010 (75 FR 77476), we published a proposed rule to list the Arctic, Okhotsk, Baltic, and Ladoga subspecies of the ringed seal as threatened under the ESA. Based on the status of these subspecies, we also proposed protective regulations pursuant to section 4(d) of the ESA for these subspecies to include all of the prohibitions in section 9(a)(1) of the ESA. The original due date for comments on these proposed actions (February 8, 2011) was extended to March 25, 2011 (76 FR 6754; February 8, 2011).

Public Hearings

Joint Commerce-Interior ESA implementing regulations state that the Secretary shall promptly hold at least one public hearing if any person requests one within 45 days of publication of a proposed regulation to list a species or to designate critical habitat (*see* 50 CFR 424.16(c)(3)). In response to requests from various parties to hold public hearings in a number of locations in Alaska, we will hold three public hearings: One in Anchorage, one in Barrow, and one in Nome. We will accept oral and written comments on both the proposed rule for ringed seals and the proposed rule for bearded seals (75 FR 77496; December 10, 2010) during these hearings.

People wishing to make an oral statement for the record at a public hearing are encouraged to provide a written copy of their statement and present it to us at the hearing. In the event that attendance at the public hearings is large, the time allotted for oral statements may be limited. Oral and written statements receive equal consideration. There are no limits on the length of written comments submitted to us.
