

that is placed in the public docket and made available on the Internet. Also, all personal identifying information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

Electronic submissions should avoid the use of special characters, avoid any form of encryption, and be free of any defects or viruses, since these may prevent GIPSA from being able to read and understand, and thus consider your comment.

GIPSA will post a transcript or report summarizing each substantive oral comment that we receive. This would include comments made at any public meetings hosted by GIPSA during the comment period, unless GIPSA publically announces otherwise.

All comments will also be available for public inspection at the above address during regular business hours (7 CFR 1.27(b)). Please call the GIPSA Management and Budget Services support staff (202) 720-8479 for an appointment to view the comments.

FOR FURTHER INFORMATION CONTACT: Greg Giese at GIPSA, USDA, 10383 N. Ambassador Drive, Kansas City, MO 64153; Telephone (816) 891-0460; Fax Number (816) 872-1258; email Gregory.J.Giese@usda.gov.

SUPPLEMENTARY INFORMATION: Under the authority of the USGSA (7 U.S.C. 76), GIPSA establishes standards for rye and other grains regarding kind, class, quality and condition. The rye standards, established by USDA on July 1, 1923, were last revised in 1999 and appear in the USGSA regulations at 7 CFR 810.1201 through 810.1205. The standards facilitate rye marketing and define U.S. rye quality in the domestic and global marketplace. The standards define commonly used industry terms; contain basic principles governing the application of standards, such as the type of sample used for a particular quality analysis; the basis of determination; and specify grades and grade requirements. Official procedures for determining grading factors are provided in GIPSA's Grain Inspection Handbook, Book II, Chapter 8, "Rye" which also includes standardized procedures for additional quality attributes not used to determine grade, such as moisture content and official criteria. Together, the grading standards and testing procedures allow buyers and sellers to communicate quality requirements, compare rye quality using equivalent forms of measurement and assist in price discovery.

GIPSA's grading and inspection services are provided through a network of federal, state, and private laboratories that conduct tests to determine the quality and condition of rye. These tests are conducted in accordance with applicable standards using approved methodologies and can be applied at any point in the marketing chain. Furthermore, the tests yield rapid, reliable and consistent results. In addition, GIPSA-issued certificates describing the quality and condition of graded rye are accepted as *prima facie* evidence in all Federal courts. U.S. Standards for Rye and the affiliated grading and testing services offered by GIPSA verify that a seller's rye meets specified requirements, and ensure that customers receive the quality of rye they purchased.

In order for U.S. standards and grading procedures for rye to remain relevant, GIPSA is issuing this request for information to invite interested parties to submit comments, ideas, and suggestions on all aspects of the U.S. Standards for Rye and inspection procedures.

Authority: 7 U.S.C. 71-87K.

Larry Mitchell,

Administrator, Grain Inspection, Packers and Stockyards Administration.

Grain Inspection, Packers and Stockyards Administration

7 CFR Part 810

United States Standards for Mixed Grain

AGENCY: Grain Inspection, Packers and Stockyards Administration, USDA.

ACTION: Request for information.

SUMMARY: The United States Department of Agriculture's (USDA) Grain Inspection, Packers, and Stockyards Administration (GIPSA) is seeking comment from the public regarding the United States (U.S.) Standards for Mixed Grain under the United States Grain Standards Act (USGSA). To ensure that standards and official grading practices remain relevant, GIPSA invites interested parties to comment on whether the current mixed grain standards and grading practices need to be changed.

DATES: We will consider comments we receive by April 20, 2016.

ADDRESSES: You may submit written or electronic comments on this proposed rule to:

- **Mail:** Irene Omade, GIPSA, USDA, STOP 3642, 1400 Independence Avenue SW., Room 2530-B, Washington, DC 20250-3604.

- **Fax:** (202) 690-2173.

- **Internet:** Go to <http://www.regulations.gov>

and follow the on-line instruction for submitting comments.

All comments will become a matter of public record and should be identified as "U.S. Mixed Grain Standards request for information comments," making reference to the date and page number of this issue of the **Federal Register**. All comments received become the property of the Federal government, and are a part of the public record, and will generally be posted to www.regulations.gov without change. If you send an email comment directly to GIPSA without going through www.regulations.gov, or you submit a comment to GIPSA via fax, the originating email address or telephone number will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. Also, all personal identifying information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

Electronic submissions should avoid the use of special characters, avoid any form of encryption, and be free of any defects or viruses, since these may prevent GIPSA from being able to read and understand, and thus consider your comment.

GIPSA will post a transcript or report summarizing each substantive oral comment that we receive. This would include comments made at any public meetings hosted by GIPSA during the comment period, unless GIPSA publically announces otherwise.

All comments will also be available for public inspection at the above address during regular business hours (7 CFR 1.27(b)). Please call the GIPSA Management and Budget Services support staff (202) 720-8479 for an appointment to view the comments.

FOR FURTHER INFORMATION CONTACT: Robert Dorman at GIPSA, USDA, 10383 N. Ambassador Drive, Kansas City, MO 64153; Telephone (816) 659-8411; Fax Number (816) 872-1258; email Robert.J.Dorman@usda.gov.

SUPPLEMENTARY INFORMATION: Under the authority of the USGSA (7 U.S.C. 76), GIPSA establishes standards for mixed

grain and other grains regarding kind, class, quality and condition. The mixed grain standards, established by USDA on July 2, 1934, were last revised in 1987 and appear in the USGSA regulations at 7 CFR 810.801 through 810.805. The standards facilitate mixed grain marketing and define U.S. mixed grain quality in the domestic and global marketplace. The standards define commonly used industry terms; contain basic principles governing the application of standards, such as the type of sample used for a particular quality analysis; the basis of determination; and specify grades and grade requirements. Official procedures for determining grading factors are provided in GIPSA's Grain Inspection Handbook, Book II, Chapter 6, "Mixed grain" which also includes standardized procedures for additional quality attributes not used to determine grade, such as dockage and moisture content. Together, the grading standards and testing procedures allow buyers and sellers to communicate quality requirements, compare mixed grain quality using equivalent forms of measurement and assist in price discovery.

GIPSA's grading and inspection services are provided through a network of federal, state, and private laboratories that conduct tests to determine the quality and condition of mixed grain. These tests are conducted in accordance with applicable standards using approved methodologies and can be applied at any point in the marketing chain. Furthermore, the tests yield rapid, reliable and consistent results. In addition, GIPSA-issued certificates describing the quality and condition of graded mixed grain are accepted as *prima facie* evidence in all Federal courts. U.S. mixed grain standards and the affiliated grading and testing services offered by GIPSA verify that a seller's mixed grain meets specified requirements, and ensure that customers receive the quality of mixed grain they purchased.

In order for U.S. standards and grading procedures for mixed grain to remain relevant, GIPSA is issuing this request for information to invite interested parties to submit comments, ideas, and suggestions on all aspects of the U.S. mixed grain standards and inspection procedures.

Authority: 7 U.S.C. 71–87K.

[Docket No. FAA–2016–0183; Directorate Identifier 2015–SW–016–AD]

RIN 2120–AA64

Airworthiness Directives; Kaman Aerospace Corporation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for Kaman Aerospace Corporation (Kaman) Model K–1200 helicopters. This proposed AD would require revising the "Flight Limitations—NO LOAD" and "Flight Limitations—LOAD" sections of the rotorcraft flight manual (RFM). This proposed AD is prompted by a report of certain flight maneuvers that may lead to main rotor (M/R) blade to opposing hub contact. The proposed actions are intended to prevent damage to the M/R flight controls and subsequent loss of control of the helicopter.

DATES: We must receive comments on this proposed AD by March 21, 2016.

ADDRESSES: You may send comments by any of the following methods:

- **Federal eRulemaking Docket:** Go to <http://www.regulations.gov>. Follow the online instructions for sending your comments electronically.
- **Fax:** 202–493–2251.
- **Mail:** Send comments to the U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590–0001.
- **Hand Delivery:** Deliver to the "Mail" address between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Examining the AD Docket

You may examine the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA–2016–0183; or in person at the Docket Operations Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this proposed AD, the economic evaluation, any comments received, and other information. The street address for the Docket Operations Office (telephone 800–647–5527) is in the **ADDRESSES** section. Comments will be available in the AD docket shortly after receipt.

For service information identified in this proposed rule, contact Kaman Aerospace Corporation, Old Windsor Rd., P.O. Box 2, Bloomfield, Connecticut 06002–0002; telephone (860) 242–4461; fax (860) 243–7047; or at <http://www.kamanaero.com>. You may review the referenced service information at the FAA, Office of the Regional Counsel, Southwest Region, 10101 Hillwood Pkwy, Room 6N–321, Fort Worth, TX 76177.

FOR FURTHER INFORMATION CONTACT: Kirk Gustafson, Aviation Safety Engineer, Boston Aircraft Certification Office, Engine & Propeller Directorate, FAA, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (781) 238–7190; email kirk.gustafson@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

We invite you to participate in this rulemaking by submitting written comments, data, or views. We also invite comments relating to the economic, environmental, energy, or federalism impacts that might result from adopting the proposals in this document. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should send only one copy of written comments, or if comments are filed electronically, commenters should submit only one time.

We will file in the docket all comments that we receive, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, we will consider all comments we receive on or before the closing date for comments. We will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. We may change this proposal in light of the comments we receive.

Discussion

We propose to adopt a new AD for Kaman Model K–1200 helicopters. This proposed AD would require revising the "Flight Limitations—NO LOAD" and "Flight Limitations—LOAD" sections of the RFM by inserting a warning and limitations about rearward to forward flight, establishing maximum rearward and sideward flight speeds, and prohibiting weather-vanning takeoffs and departures to turn the helicopter. This proposed AD is prompted by a
