SUPPLEMENTARY INFORMATION

I. Abstract

The National Voluntary Conformity Assessment System Evaluation (NVCASE) Program is a voluntary program to evaluate organizations that carry out activities related to laboratory testing, product certification, and quality system registration. Any interested organizations provide information to the National Institute of Standards and Technology (NIST) to support their conformance with established criteria for any of these activities. The information provided is used to conduct a NVCASE evaluation. Based on NVCASE evaluations, NIST provides recognition to qualified U.S. organizations. The ultimate goal is to help U.S. manufacturers satisfy applicable product requirements mandated by other countries through conformity assessment procedures conducted in this country prior to export. NVCASE recognition (1) provides other governments with a basis for having confidence that qualifying U.S. conformity assessment bodies (CABs) are competent, and (2) facilitates the acceptance of U.S. products in foreign-regulated markets based on U.S. conformity assessment results.

The NVCASE recognition program facilitates U.S. trade with Europe, Asia and the Americas under government-to-government agreements, and facilitates the flow of U.S. products to countries in those regions.

II. Method of Collection

Applicants submit written information to NIST.

Availability of Seats for the Flower Garden Banks National Marine Sanctuary Advisory Council

AGENCY: National Marine Sanctuary Program (NMSP), National Ocean Service (NOS), National Oceanic and Atmospheric Administration, Department of Commerce (DOC).

ACTION: Notice and request for applications.

SUMMARY: The Flower Garden Banks National Marine Sanctuary (FGBNMS or Sanctuary) is seeking applicants for the following vacant seats on its Sanctuary Advisory Council (Council): Recreational Diving, Diving Operations, Oil and Gas Industry, Recreational Fishing, Commercial Fishing, Research, Education, and Conservation. Applicants are chosen based upon their particular expertise and experience in relation to the seat for which they are

applying; community and professional affiliations; philosophy regarding the protection and management of marine resources; and possibly the length of residence in the area affected by the Sanctuary. Applicants who are chosen as members should expect to serve 3-year terms, pursuant to the Council's Charter.

DATES: Applications are due by August 15, 2005.

ADDRESSES: Application kits may be obtained from Shelley Du Puy at Flower Garden Banks National Marine Sanctuary, 1200 Briarcrest, Suite 4000, Bryan, Texas 77802. Completed applications should be sent to the same address.

FOR FURTHER INFORMATION CONTACT: Shelley Du Puy, 1200 Briarcrest, Suite 4000, Bryan, Texas 77802, 979–846–5942, Flowergarden@noaa.gov.

SUPPLEMENTARY INFORMATION: Located in the northwestern Gulf of Mexico, the Flower Garden Banks National Marine Sanctuary includes three separate areas, known as East Flower Garden, West Flower Garden, and Stetson Banks. The Sanctuary was designated on January 17, 1992. Stetson Bank was added to the Sanctuary in 1996. The Sanctuary Advisory Council will consist of no more than 11 members; 8 non-governmental voting members and 3 governmental non-voting members. The Council may serve as a forum for consultation and deliberation among its members and as a source of advice to the Sanctuary manager regarding the management of the Flower Garden Banks National Marine Sanctuary.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery Off the Southern Atlantic States and Coral and Coral Reefs Fishery in the South Atlantic; Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an application for an exempted fishing permit; request for comments.

SUMMARY: NMFS announces the receipt of an application for an exempted fishing permit (EFP) from David R. Griffin on behalf of The North Carolina Aquariums. If granted, the EFP would authorize the applicant, with certain conditions, to collect up to 50 red porgy and up to 500 lb (227 kg) of live rock. Specimens would be collected from Federal waters off the coast of North Carolina during 2005 and 2006, and displayed at three North Carolina Aquarium facilities located on Roanoke Island, near Morehead City, and south of Wilmington, North Carolina.

DATES: Comments must be received no later than 5 p.m., eastern time, on July 14, 2005.

ADDRESSES: Comments on the application may be sent via fax to 727–824–5308 or mailed to: Julie Weeder, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701. Comments may be submitted by e-mail. The mailbox address for providing e-mail comments is nc.aquarium@noaa.gov. Include in the subject line of the e-mail document the following text: Comment on North Carolina Aquariums EFP Application. The application and related documents are available for review upon written request to the address above or the e-mail address below.

FOR FURTHER INFORMATION CONTACT: Julie Weeder, 727–551–5753; fax 727–824–5308; e-mail julie.weeder@noaa.gov.

SUPPLEMENTARY INFORMATION: The EFP is requested under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and regulations at 50 CFR 600.745(b) concerning exempted fishing.

According to the applicant, The North Carolina Aquariums are operated by the North Carolina Department of Environment and Natural Resources. Their mission is to inspire appreciation and conservation of North Carolina's aquatic environments through display of live animals found in the state.

The proposed collection for public display involves activities otherwise prohibited by regulations implementing the Fishery Management Plans (FMP) for the Snapper-Grouper Fisheries of the South Atlantic Region and the Coral, Coral Reefs, and Live/Hard Bottom Habitats of the South Atlantic Region.

The applicant requires authorization to harvest and possess up to 50 red porgy and up to 500 lb (227 kg) of live rock. Collections would occur in Federal waters off the coast of North Carolina during 2005 and 2006. Red porgy would be captured using hook-and-line, and SCUBA divers would collect live rock by hand at depths ranging from 40 ft (12 m) to 130 ft (40 m).

NMFS finds that this application warrants further consideration. Based on a preliminary review, NMFS intends to issue an EFP. Possible conditions the agency may impose on this permit, if it is indeed granted, include but are not limited to: Reduction in the number of fish and/or live rock to be collected; prohibition of harvest of live rock; restrictions on the size of fish to be collected; prohibition of the harvest of any fish with visible external tags; and specification of locations, dates, and/or seasons allowed for collection of red porgy and/or live rock. A final decision on issuance of the EFP will depend on a NMFS review of public comments received on the application, conclusions of environmental analyses conducted pursuant to the National Environmental Policy Act, and consultations with the affected states, the South Atlantic Fishery Management Council, and the U.S. Coast Guard. The applicant requests a 12-month effective period for the EFP.

Authority: 16 U.S.C. 1801 *et seq.*
