### Issuance of an Amended Presidential Permit Authorizing the Construction, Operation, and Maintenance of a Two-Span International Bridge Near Brownsville, Texas, at the International Boundary Between the United States and Mexico

**SUMMARY:** At the request of the permittee, the Department of State has amended the Presidential permit, originally issued in 1993, that authorizes Cameron County, Texas to construct, operate, and maintain an international bridge known as "Veterans Bridge at Los Tomates" near Brownsville, Texas, at the international boundary between the United States and Mexico. The amendment allows the permittee to build a second adjacent bridge, essentially identical to the existing four-lane bridge, to accommodate increasing traffic volume, to improve pedestrian safety, and to allow more efficient separation of different types of traffic as it approaches the border inspection station owned by the General Services Administration and operated by the Department of Homeland Security/Customs and Border Protection. In making its determination

to amend the permit, the Department provided public notice of the proposed amendment and provided the opportunity for comment (73 FR 55586, Sept. 25, 2008) and also consulted with other Federal agencies, as required by Executive Order 11423, as amended.

This permit shall continue in force and effect only so long as the permittee shall continue the operations hereby authorized in exact accordance with such limitations, terms and conditions.

**Article 7.** When, in the opinion of the President of the United States, the national security of the United States demands it, due notice being given by the Secretary of State or the Secretary’s delegate, the United States shall have the right to enter upon and take possession of any of the United States facilities or parts thereof; to retain possession, management or control thereof for such length of time as may appear to the President to be necessary; and thereafter to restore possession and control to the permittee. (2) The permittee shall save harmless the United States from any claimed or adjudged liability arising out of the construction, completion or maintenance of the facilities.

(3) The permittee shall maintain the United States facilities and every part thereof in a condition of good repair for their safe operation.

*Article 10.* The permittee shall provide to the General Services Administration (GSA), at no cost to the Federal government, a site that is adequate and acceptable to GSA on which to construct border station facilities at the United States terminal of the bridge. The permittee shall fully comply with all National Environmental Policy Act and National Historic Preservation Act mitigation provisions and stipulations for transfer of the site to the General Services Administration.

*Article 11.* The permittee shall take all appropriate measures to prevent or mitigate adverse environmental impacts or disruption of significant archeological resources in connection with the construction, operation and maintenance of the United States facilities. The permittee shall submit to the USIBWC the plans approved by the Texas Water Commission for sewage collection and treatment facilities, and their discharge limitations, along with any plans approved by the Texas Water Commission regarding water rights for water diversion facilities in the Rio Grande.

*Article 12.* The permittee shall submit to the U.S. Commissioner, IBWC, for review by the USIBWC the conceptual and final levee relocation plan that forms a part of the international bridge proposal.
