**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission****[Docket No. CP15–144–000]****Florida Gas Transmission Company, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Jacksonville Expansion Project, and Request for Comments On Environmental Issues**

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Jacksonville Expansion Project (Project). The Project would involve constructing and operating interstate natural gas transmission facilities by the Florida Gas Transmission Company, LLC (FGT) in Bradford, Clay, Columbia, and Suwannee Counties, Florida. Specifically, FGT would construct: (1) About 3 miles of pipeline in Suwannee and Columbia Counties; (2) about 5.7 miles of pipeline in Bradford County; and (3) a new compressor unit and regulation station in Bradford County. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public

<sup>3</sup> 20 FERC ¶ 62,054, Order Granting Exemption from Licensing of a Small Hydroelectric Project of 5 Megawatts or Less (1982).

and interested agencies on the Project. You can make a difference by providing us with your specific comments or concerns about the Project. Your comments should focus on the potential environmental impacts, reasonable alternatives, and measures to avoid or minimize environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before June 15, 2015.

If you sent comments on this Project to the Commission before the opening of this docket on March 31, 2015, you will need to file those comments in Docket No. CP15–144–000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, an FGT representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the Project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

The “For Citizens” section of the FERC Web site ([www.ferc.gov](http://www.ferc.gov)) provides more information about the FERC and the environmental review process. This section also includes information about getting involved in FERC jurisdictional projects, and a citizens’ guide entitled “An Interstate Natural Gas Facility On My Land? What Do I Need to Know?” This guide addresses a number of frequently asked questions, including the use of eminent domain and how to participate in the Commission’s proceedings.

**Public Participation**

For your convenience, there are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502–8258 or [efiling@ferc.gov](mailto:efiling@ferc.gov). Please carefully
