Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

State and Local Area Integrated Telephone Survey (SLAITS), OMB No. 0920-0406—Extension—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

The State and Local Area Integrated Telephone Survey (SLAITS) mechanism has been conducted since 1997. This is a request to continue the integrated and coordinated survey system for three years. This system is designed to collect needed health and welfare-related data at the national, state, and local levels. Using the random-digit-dial sampling frame from the ongoing National Immunization Survey (NIS) and Computer Assisted Telephone Interviewing (CATI), the State and Local Area Integrated Telephone Survey (SLAITS) has quickly collected and produced data to monitor many health-related areas including child and family well-being, access to care, program participation, and changes in health care coverage at the national and state levels. The first component of the next three-year period will be the National Survey of Children with Special Health Care Needs, which will provide data to be used for program planning and evaluation at the state and national levels.

For some SLAITS modules, questionnaire content is drawn from

existing surveys within the Department of Health and Human Services as well as other Federal agencies. Other questionnaire modules were developed specifically for SLAITS. Past modules include General Health, Children's Health, Child Well-Being and Welfare, Children with Special Health Care Needs (CSHCN), Asthma Prevalence and Treatment, Knowledge of Medicaid and the State Children's Health Insurance Program (SCHIP), Survey of Early Childhood Health, and HIV/STD Related Risk Behavior.

SLAITS has provided policy analysts, program planners, and researchers with high quality data for decision making and program assessment. For example, the module on Medicaid and SCHIP was prominently featured in a report to Congress on insuring children. The CSHCN module has been used by federal and state Maternal and Child Health Bureau Directors to evaluate programs and service needs. The American Academy of Pediatrics is using the module on early childhood health to advise pediatricians on patient care standards and to inform parents about the health and well-being of young children. There are no costs to respondents other than their time to participate. The estimated annualized burden is 52,734 hours.

Survey/questionnaire—children with special health care needs	Number of respondents	Number of responses per respondent	Average burden per response
2005 Burden Estimates			
Screener (child in HH)	592,126	1	.5/60
Screener (CSHCN)	129,487	1	5/60
Survey (CSHCN)	25,500	1	25/60
Survey—state Augmentation (CSHCN)	5,000	1	35/60
Survey (Referent sample)	3,000	1	25/60
Developmental work for future module:			
Screener	10,000	1	5/60
Survey	2,000	1	30/60
SLAITS website—button or permanent website submission link:			
Survey	100	1	3/60
2006 Burden Estimates			
Screener (child in HH)	592,126	1	.5/60
Screener (CSHCN)	129,487	1	5/60
Survey (CSHCN)	25,500	1	25/60
Survey—state Augmentation (CSHCN)	5,000	1	35/60
Survey (Referent sample)	3,000	1	25/60

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498–1210 or send an e-

mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202) 395–6974. Written comments should be received within 30 days of this notice.

Proposed Project

Evaluation of State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDHP), Centers for Disease Control and Prevention (CDC).

The “State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases” project was established by CDC to prevent and control obesity and other chronic diseases by supporting States in the development and implementation of nutrition and physical activity interventions, particularly through population-based strategies such as policy-level changes, environmental supports and the social marketing process. The goal of the programs in this

project is to attain population-based behavior change such as increased physical activity and better dietary habits; this will likely lead to a reduction in the prevalence of obesity, and ultimately to a reduction in the prevalence of obesity-related chronic diseases.

The evaluation questions for “State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases” have been designed to focus on three primary areas: (1) CDC training and technical assistance; (2) State plan development; and (3) State interventions. Within each of these primary evaluation areas, the program has identified specific evaluation questions that have been chosen for study. The evaluation questions will be asked of the funded states via a Web-based data collection system supported by an electronic database. This evaluation will take place every six months during the funding cycle. The proposed project will be conducted over a three-year period. There is no cost to the respondents. The total burden hours are 480.
